Practical Results are the Deciding Factor

The all-in costs of maintenance—a high standard of tractor efficiency—and the ability to work intuously on heavy loads are facts which have established the superiority of Cross power are Practical tests are the proof—here is a typical example—

We can confidently recommend 'Gross' Kerosene to any-one requiring a fuel where the utmost power far required. 'Cross Kerosene has proved, after years of service in our 'tractors, to be the ideal fuel and having all the characte-

ristics peculiar to a first grade fuel.

"We also notice that the purity of Cross Kerosene has "overcome the usual trouble of Crankcase dilution and "this in itself is proof beyond doubt that Cross Kerosene is a product which cannot be surpassed."
