ZEISS

FOR YOUR EYES. FOR YOUR CAMERA.

How agreeable to delicate eyes is the construction of the ordinary corrective lenses by the modern Pencil Zeiss lenses which reproduce on the retina images of perfect clarity from 100 yards to the light of distance. The wide field of the Pencil Zeiss lenses and the short rays provide to the user of the eye the same freedom of vision as the best of industry which comes from the manufacture of the additional lenses.

EUROPEAN ASSOCIATION OF TANGANYIKA

Delay in Forming a Settlement Board.

A HOSTILE SCHEME.

(FROM A CORRESPONDENT.)

Dar-es-Salaam.

A council meeting of the European Association of Tanganyika was held on February 29, Major Herbert Brown, O.B.E., being in the Chair.

The work of the Joint East African Board in connection with European settlement of Tanganyika was discussed. It was felt that considerable delay was being experienced in the formation of the proposed Land Settlement Board but it was realized that the Joint East African Board probably had to coordinate many conflicting points of view, and that their hands were consequently tied up in many respects. It was decided to ask the Board to keep the Association fully posted with regard to future developments in this matter.

The approval of the work of the Association was referred to when a letter was read from Mr. Beaulieu in which it was stated that a Committee of the Association was being formed at Moshi under the temporary Secretaryship of Mr. Andrews, and that it was expected to start shortly 200 members. Appreciation was expressed of the valuable work which Mr. Beaulieu had done for the Association in the Northern Districts, and the Secretaries were instructed to write to Mr. Andrews and supply him with any literature and particulars which he might require.

It was agreed that four Associations at Arusha should be asked to invite their members to join the European Association. Considerable satisfaction was expressed at the generous donation of Shs. 100 which had been made by the Iringa Progress Association.

Season Tickets.

A suggestion that let and 2nd class season tickets be issued from Dar-es-Salaam was discussed, as far as Kilimanjaro would be of very great benefit to people living in the line and also to the commercial

community at Dar-es-Salaam with support. It was decided also to place the suggestion before Government and to ask the Dar-es-Salaam Chamber of Commerce to support it.

The Chairman said that there appeared to be a need for a building in Dar-es-Salaam where suitable men who possessed only limited funds could be housed while they were detained in the town either seeking employment or for other purposes. Such a commodious would in no way compete with the hotels and boarding houses, but would be available only for men who could not afford to enter such places.

It was felt that there were a number of men whose presence in the country was an asset, but who for various reasons had been thrown out of employment, and who had insufficient capital.

The Association, it was stated, had already been able to assist several men to obtain employment, and in certain cases individual members had assisted men by loans of money and with food.

After discussion it was decided that such a scheme should become part of the work of the Association, and that an appeal should be made to members to support it both financially and otherwise.

Flight Finest.

CENTREPIECE OF THE TAILOR OF ULE.

(STANDARD CORRESPONDENT, London (by mail).)

The unfortunate accident which took place on Thursday, and it is pleasing to see that the gallant pilot of the "Tiger" did not forget in the midst of his Transatlantic and Cape to Cape flights of today.

Here the pilot lived in Ule and earned his living as a tailor. He was clearly that it was wiser to fly he must limit the time and his most likely crash landings in an inflated balloon. He made himself and his wife wings and an inflated balloon, and on the afternoon of the 12th he took off from the Cathedral Tower at Ule for the Cape. On the 13th he was seen to be flying in the Cape. Even the Emperor Frederick the Great at the moment it seems that the tailor lost and saved but the Emperor treated and lost but the tailor appeared on the wing, tested his wings and tumbled

Locusts at the Lake.

DRIVEN OFF BY STEAM SMOKE-GROUNDS.

(STANDARD CORRESPONDENT, Mtwara, March 16.)

Locusts and their swarms were rampant during the past few days all round the lake. On Friday last Kilimanjaro locusts had been seen flying over Mtwara and Mtwara. On Monday a very large swarm of locusts had been seen flying over the Lake. Locusts were also reported at a swarm flying across the Mtwara-Kilimanjaro road to Mtwara. It was said that the East African was also stated to be on the move. So that farmers between the Nandi and Lambara Ranges, and from Kilimanjaro to Mtwara have had a busy time killing them to make crops and arrange to create dense smoke clouds when the locusts appear in a cloud of the dreaded locusts appear.

This is the first time the East African and surrounding area has been directly seriously threatened and it would only need a visit of a swarm to finish off the remaining pastures and such crops as are left to create a truly serious plague.

These swarms of the drought breaking but very extremely light showers have fallen. The heavy rains are badly needed. It has been found that as the locusts are so numerous and feed on any amount of any kind of living thing, it is extremely dangerous to form an absolute smoke screen. But the matter seems to be keeping before us. Malacca are cheap enough, efficient and easily obtainable from a sugar mill when creating

smoke in this space. There was a very strong fire and he fell with a splash into the water. He was rescued and, burning with indignation at the attitude of the natives, he took some of the looting day, but met with a similar fate as the day before.

For many years he has been the subject of the most of the 100th anniversary of his death. It is supposed to have been the same and a child's possess of a hero.

Why Food Causes Indigestion.

When food enters your stomach, large quantities of acid-secreting gastric juices are at once secreted. If, as often happens, too much is secreted, the food soon becomes a sour, fermenting mass, which causes all kinds of pain and trouble, and frequently endangers your life. In such cases, instant relief can be obtained by taking "Bismarck" Magness immediately after eating or whenever pain is felt. This instantly neutralizes the acid, stops the fermentation, kills and soothes the inflamed stomach lining, and restores normal stomach digestion. Get a package of "Bismarck" Magness, powder or tablets, from your chemist today. Use as directed, and your digestive troubles will be a thing of the past.

CHRYSLER

CHRYSLER - with the new style that re-styles all motor cars-is to-day more than ever the leader of the industry.

The new Chryslers are not only individual and unique-they are original, owing nothing to design offered by other designers and manufacturers here or abroad.

They are graceful and pleasing--the natural development of the principle of dynamic symmetry instituted in the first Chrysler--providing ample room and comfort without oversize and bulk.

In power, acceleration, safety and ease of control, to-day's Chryslers excel even the earlier Chryslers. The years have proved the dependability and long life which Chrysler Standardized Quality gives.

Not even for more money, can you equal elsewhere the things the new Chryslers give. Chrysler's largest production is taxed to supply the universal demand for Chrysler's superior quality and value.

operation of the courts of law is a dangerous one calculated to obliterate the distinction of ourselves. It is proposed, therefore, to confine attention to several features of the case as it emerged during the hearing and to consider whether they present an acceptable interruption of the broad principles of the administration of justice as they are administered by the courts public for those matters and procedure they were laid down. It would appear that the principal defendant, Robert Oakley, was originally charged by a Lord Magistrate under a section which refers to the issuing of a writ for the purpose of obtaining information regarding hidden property and that, as the section does not permit of bail being allowed, they where Oakley came up for the purpose of being committed to prison without bail. It is apparent that the charge he was called upon to meet was extremely serious and that the section does not permit of bail being allowed. It is a charge which, in the opinion of the Lord Magistrate, would have caused a discretion to be given to the public for the liberty of the subject, who was charged with the offence. It is not possible to say that the charge is a serious one, but it is a charge which, in the opinion of the Lord Magistrate, would have caused a discretion to be given to the public for the liberty of the subject, who was charged with the offence. At a fortnight at the latest should be the completion of the Afghan war. Mr. Khan hopes the war will be completed by the end of the month. He has had a large number of his men and his men are now in Amnabad.

Meanwhile two opponents were on each other side of the River. The British had a large number of his men and his men are now in Amnabad. He has had a large number of his men and his men are now in Amnabad.

The removal of all British subjects and the withdrawal of the Legation and the Minister from Amnabad, however, raised the possibility of such an undesirable complication one of the most unlikely events that the last war has taught the world that nothing is as unlikely as it appears in human affairs.

Witness was asked to read the report of the witness. He said witness. He said witness. He said witness. He said witness. He said witness.

KENNEL NOTES

Mrs. Colyer, Otago, to whom all correspondents in connection with "Kennel Notes" should be addressed, has not had herself much time, based on information supplied by her correspondents.

In such disgusting weather it is almost impossible to get a dog out for a walk. It is a pity that the "doggy" had to be taken to the New Zealand. "The body" is the body of the higher, and the body of the lower. The body of the lower is the body of the higher, and the body of the higher is the body of the lower. KENYA BUTTER ON THE LONDON MARKET.

Competition With Produce From N. Zealand.

FUTURE OF CHEESEMAKERS

THE NEW ZEALAND Government has announced that it is very likely to issue a license to Kenya Dairy producers to export their butter to the London market. This has caused some concern among the New Zealand dairy producers, who are already competing with the New Zealand dairy producers in the London market.

Jobs are paid. And of course these debts have to be paid by the supplier.

There is no doubt that the success of these co-operative dairies has caused the ordinary dairy farmer to become very bitter during the last two years especially. Farmers by feeding can keep their supply of cream up much longer into the summer, and so make up for the loss of the ordinary dairymonger.

Water Rates.

A DIFFICULTY IN KENYA TOWNSHIP.

THE WATER SUPPLY in the township of Kenya is a matter of some importance. The water supply is not sufficient for the needs of the township, and it is necessary to find a way to increase the supply.

ZEISS
 YOUR EYES: FOR YOUR CAMERA.
 The eye of your camera is the lens. Just as the full power of the eye depends on the position of the lens, so the full power of the camera is what the lens does. A better lens yields naturally better pictures, more independence of the time of day, more of weather and incident, more enjoyment of our photographic work. This is why the Zeiss camera is the most perfect of cameras. It, their highest achievement with Zeiss lenses, the finest and most reliable camera eyes in the world.

 "STANDARD" CORRESPONDENT.
 Nyeri, March 11.
 A well attended public meeting was held at the White Rhino Hotel on Saturday morning, March 10, to hear the Hon. Captain M. V. Vaughan Kennedy, M.L.C., give an account of his proceedings.

The first sign looked upon by Captain Kennedy and two other members of the East African Association in sending the telegram to Mr. Murray, and was unanimously endorsed. Regarding the meeting held at the White Rhino Hotel, Mr. Kennedy said that he was pleased to see that the Government had got the persons named to pay for the damage done, either in cash, or work or in kind, so that nearly the whole of the money would be refunded.

Turning to domestic legislation, Captain Kennedy said two bills, the Cattle Slaughtering and the Milk and Cream, had been passed but the third reading was given for each month by one of the members. He also stated at length to the meeting that the Government had intended his audience that in 1924 we have to start paying the interest on the capital cost of the Kenya and Uganda Railway. The State Bill, which would effect all communities would also come to the attention of the Council. Answering a question, Captain Kennedy stated that funds had been provided for the Street Water Scheme and work will start in a few months time.

There were several box meetings in Nairobi. The first was held on Monday. The speaker, Mr. J. H. M. Jones, addressed the meeting on the subject of the "Standard" survey. He said that the survey was a very important one, and that it was necessary to have a full and complete survey of the country. He said that the survey was being carried out by the Government, and that it was necessary to have a full and complete survey of the country. Demanded Everywhere for Superior Value

CHRYSLER
 CHRYSLER—with the new style that re-styles all motor cars—is to-day more than ever the leader of the industry.
 The new Chryslers are not only individual and unique—they are original, owing nothing to design offered by other designers and manufacturers here or abroad.
 They are graceful and pleasing—the natural development of the principle of dynamic symmetry instituted in the first Chrysler—providing ample room and comfort without overize and bulk.
 In power, acceleration, safety and ease of control, to-day's Chryslers excel even the earlier Chryslers. The years have proved the dependability and long life which Chrysler Standardised Quality gives.
 Not even for more money, can you equal elsewhere the things the new Chryslers give. Chrysler's largest production is taxed to supply the universal demand for Chrysler's superior quality and value.

Croup and Sciatica and other aches and pains are often aggravated with nervousness. Get relief of them quickly and comfortably with Sloan's Liniment.

That the whole responsibility for the creation of the "after sales" problem does not rest on the trade is the opinion of many leading business men.

Few problems affecting the motor trade in its relations with the public have given rise to more trouble and anxiety to manufacturers and agents than that of "after-sales" service.

It is one in which every person concerned with the production and distribution of motor cars and other similar vehicles earnestly desires to settle on a basis of mutual advantage to themselves.

verting—one of the many moves of the publicity man to secure a customer for his clients; such there may be a modicum of truth in the assertion it is thought that very many firms of high repute are not properly set on their feet to give their customers the fullest satisfaction.

The individual tastes and standards of persons are very widely and it is well to remember that in the "hobby" or class owners are most exacting. This is borne in mind that the man who finds his limit of expenditure to be £150-175 usually regards that amount as a £1,000 value.

ALTHOUGH they may appear to be very much alike, there exists many differences between various makes of tyres.

The new Goodyear Balloon, however, is one tyre in which you may place your full confidence.

It is the only tyre made with SUPERTWIST - Goodyear's highly elastic cord material.

It is the only tyre with the safe and tractive All Weather Tread.

It is the only tyre made with Goodyear's incomparably tough tread rubber, tested and proved by millions of miles of actual road performance. Look to this new Goodyear tyre to bring you a fuller, finer sense of motoring enjoyment.

CORRESPONDENCE

Spiritism.
 The editor does not accept responsibility for the views expressed by his correspondents in the columns, and in all cases the name and address of the writer must accompany a letter, not necessarily published, as a guarantee of good faith. It is not intended to be a journal of general interest to every correspondent.

To the Editor, "E.A. Standard."
 Sir—Knowing nothing whatever of Spiritism it is possible I have gathered some ideas which have lately occurred to me on the subject. One of these impressions which I do not intend to discuss after this when they were connected therewith.

Yet Mr. Spencer Palmer states in his pamphlet "The Home of the Spirit" that he has been in London with the date 3000 B.C. and that he has been in the apparently good and to do their work. They employed an officer who professed to be a medium to the Pyramids.

Still, he might perhaps have been a "medium" in the sense of the word. If I don't know, Mr. Palmer would be interested in my opinion. I am a student of the subject, and I am a student of the subject, and I am a student of the subject.

(1) Did Otho and his wife ever see any of the spirits? (2) What was the spoken language of the spirits? (3) How did Otho and his wife know that Otho and his wife were in the same place as the spirits? (4) In the "Tomb" who are mentioned in the "Tomb"?

To the Editor, "E.A. Standard."

PLASMOQUINE COMP

HOW IS IT THAT MALARIA IS NOT STAMPED OUT?

Because quinine only removes the fever-producing germs from the blood, and an apparently healthy person remains as a definite source of infection to his neighbours.

Obtainable through all Leading Chemists.
