Total of Imports and Exports £17,500,000 in 1928.

INCREASE OF NEARLY £3,000,000.

Kenya Exports Affected by Climatic Conditions but Sharp Recovery in Uganda.

The annual trade report for 1928 shows that the value of the imports and exports of Kenya and Uganda during the year amounted to £17,500,000 which is £3,700,000 better than 1927...

The domestic exports of the two territories represented £9,941,000 which is an increase of one and a quarter million over the previous year...

While Kenya suffered from drought and locusts Uganda recorded a remarkable recovery since the general trading situation at the close of the year was considered by the Commissioner of Customs to be sound...

Despite unfavourable climatic conditions Customs revenue was surprisingly high and exceeded the conservative estimate by £101,000.

SOUND TRADING SITUATION.

The annual Trade Report for Kenya and Uganda for the year 1928 is now published...

Following are first extracts from the Commissioner's Report, giving interesting advance reports on the country published.

The combined value of trade imports and total exports of Kenya and Uganda for the year 1928 amounted to £17,500,000 compared with £14,800,000 in 1927...

The value of merchandise exports from Kenya and Uganda amounted to £9,941,000 in 1928, an increase of £1,000,000 on 1927...

Kenya. So far as the export trade in Kenya is concerned, an estimate of the value of the exports of the year 1928 is available...

Despite relatively unfavourable local markets, trading operations throughout the year were usually steady...

LEITH - SCOTLAND.

London, April 13.  
Fortunately Kenya has been in the limelight this week so much so it can do with a rest. It might be a good deal of interest to a better type when the Prince of Wales arrives in June at the East African Dinner Club dinner. Major Corbett Ward will be there and special attention is being paid to it. It is clear that the accommodation at the Cecil will be taxed to the utmost.

More and more visitors are reaching London. Captain H. F. Legard, a late member of the Ward, a late member of the Overseas Club, and Mr. R. E. Pringle of Tanganyika, at the Public Schools Club. Mr. G. H. (brother of Kenya who is in the leave, about to return, but is now on leave at a station in London, near Wakeford. Mr. A. M. Collins of Kenya is at the Royal, Grosvenor. Mr. George Dale of Kenya is at the Royal, Grosvenor. Mr. H. N. Clark, who will leave Kenya at Three o'clock, is staying at Bayswater Park. Mr. John W. McCagney, who is also nominally at the East African Office.

Next week Major Corbett Ward is to go to Edinburgh for a fortnight to attend the General Meeting at which E. Africa is exhibiting. This is on a fairly large scale and it is likely to appeal to most of Scotland.

With the dissolution of Parliament, the members of the House of Commons have been elected. Young Rogers has succeeded into the leadership and has been elected to the House of Commons. It is to be expected that some will be elected to the House of Commons. It is to be expected that some will be elected to the House of Commons.

The East African Section of the London Chamber of Commerce has arranged for the translation of the recent Empire Marketing Board booklet on steel into French, German and Italian. It can be borrowed in the chief consulates where there are large buyers of the commodity.

A series of lectures on East Africa are being given at the Imperial Institute Cinema on Monday, Tuesday, and Wednesday, April 29th and 30th, and May 1. There are four lectures each day, and the lecture at 2.15 p.m. each day is to be delivered by Mr. James Russell, Director of Education in Kenya.

Colonel D. Palm Dobson, who is Chairman of the Anglo East African Cotton Co., Ltd., the work delivered his presidential address to the Trade Institute at their Annual Meeting at Bolton.

The Hon. Alastair George Hay, who lives in Kenya, speaks of the

fact of Kinnell and his report, which is in the street of a number yesterday. He died later than his father. He was for some time in the East African Office.

Lady Heath, well known in East Africa, is visiting in the limelight in America. She has stated that she had cancelled all social engagements which she has in America because she says she has been "crushed" by the Society of Automobile Engineers, who after inviting her to their banquet, had rejected the invitation. Lady Heath says "I suppose it was because my hands were smudged from visiting with my 'colony'." An official of the Society explains this matter by saying that it was "all social."

Of great interest to the Empire generally at the Rothemanns, where research work is carried on in the botanical department. One of the subjects which has led to the broadening of those at this Institute is the question of cotton. The cotton plants which have been made with the bacteria which ravage the cotton crop. The damage caused by this in the Indian is extremely serious and the Station has been given a special grant to investigate the whole matter, and cotton plants

will be sent to the

are named under artificially-produced conditions which exactly resemble those of the Indian. The effect of fertilizers on the disease of plants has also been the subject of a good deal of attention. It is maintained that some really valuable discovery has been made to ascertain that some methods in America have been found possible to protect the plant's liability to disease, whereas others had given the opposite effect. These things are being followed up in the Imperial Station, especially as it seems willing to make special research into specially marketing diseases of plants that show heavy losses in raising crops have not the time the knowledge now appearing to investigate. Both methods will soon become much better known than it is now and people will realize the very great value of the institution.

The following notice has appeared in the Press this week—  
The engagement between Miss Gertrude G. F. Fildes, of the Oldham, and Mr. John Fildes, of Colchester. Miss Gertrude G. F. Fildes, daughter of Mr. John and Lady Fildes, of Oldham, Colchester, Essex, and Mr. John Fildes, of Colchester, Essex.

which is marked out into 72 hours, is considered to be the pendulum of the self-acting clock by electrical control.

The idea was conceived and carried out by the Undergraduate engineers. In the clock you can see at a glance where the hands are in broadcasting, where it is enjoying the midday sun, where it is in the shade, and where it is setting to rest under the stars. With a little expenditure of energy you can demonstrate to the class a little experiment in the new and never seen on the British Empire. It is especially interesting, as it is pointed out, in any part of the world. It is a clock which is displayed with a movable belt running across the meridian. ["STANDARD" CORRESPONDENT.]  
London, (By mail).  
Despite the usual depreciation and exorbitant taxation on amusements in Great Britain is steadily increasing. According to the statistics provided by the Commissioners of Inland Revenue an enormous amount is spent in theatres, cinemas and other places of amusement. Very few are being provided at the rate of more than two a day. New places are being opened up everywhere, and the cost of one runs into hundreds of thousands of pounds.
