We Hear from London

(STANDARD) SPECIAL CORRESPONDENT

London, Sept. 19. Why anyone should stah a show window... Many of us who were thrilled to see the masses in the days of our youth by the Sherlock Holmes stories... Mr. A. Conan Doyle...

Mr. A. Conan Doyle, and the last scene of his thriller 'The Hound of the Baskin's'.

Whether or not his lordship is right about educating the youth... The first and most important advantage is being taken of the facilities given by the London County Council for extended education in the use of evening classes... The last year has shown a marked increase in the number of students attending...

Theories. Mission of Sherlock Holmes inevitably results in use of detective, and detective suggest that at the moment there is more on thrilling detective work than the complicated in connection with evidence of shop-theft...

Woman Bad Beauty. Talks of education... she has been thrown up to the top...

that of road-accident? The first woman road-accident started duty yesterday on the Portsmouth Road, and she is wearing a smart black coat with white red facings... "Dance Little Gentlemen" Nearly a hundred teachers of the game and professors of dancing have held a meeting...

The Statemaster. Someone or other has said something about women stammering... "The Hound of the Baskin's" When I read his last novel I was in a state of surprise that every fifty years this country ever stammered...

will occupy the Chair, as every-body who follows this world-shaking mission knows... The Drama. We may expect some sensationalism...

Somebody else has said something about women stammering... The Hound of the Baskin's. When I read his last novel I was in a state of surprise...

The Critics. It is not altogether surprising to suppose that Mr. George Bernard Shaw has not only been elected and accepted an invitation from the Public People...

ZEISS

Best illumination of show windows.
Your Show Window is your best salesman.
 Within the least few years the art of lighting show windows has advanced in rapid strides from success to success. An increase of illumination is almost essential to the initial intensity of the direct line of illumination as achieved by the

ZEISS REFLECTORS
 contained in itself an achievement which appeared all that was desired of its former years.

The new Zeiss Glass Reflector furnishes a means of lighting show windows which surpass even this intensified illumination by a multiple. Using only a 100-watt filament bulb the direct line of light is so intense in the principal direction an intensity of about 500 c.p. (i.e., roughly a light which is 20 times as intense as that emitted by a filament lamp without reflector).

Ask for our catalogue containing also full particulars for all the latest kinds of lamps and outdoor lighting.

CONGESTION AT THE GOVERNMENT PRESS.

Increased Provision for Contract Printing.
AREAS OF WORK.

As the Government Press is a State of congestion, Government is ready to spend more money on contract printing by private firms and will also reduce the rates of work to the printer, so that the Government Printer can get on with arrears of urgent work.

In the Legislative Council on Tuesday afternoon, Mr. E. A. S. (Dundas) asked the subject by Capt. the Hon. H. E. Schepers (Dundas) who asked:

"Does Government intend to take any, and if so, what steps to remedy the present congestion in the Government Press?"

The Hon. the Colonial Secretary replied: "With a view to enabling the Government Printer to concentrate on the more urgent work, and to dispose of arrears, steps have already been taken to reduce the quantity of routine matter sent to the Government Printer and to reduce the number of different forms liable to be used by standardizing requirements and sending for estimation as to the cost of orders well in advance. It will also be proposed in the Draft Estimates for 1920 to devote an additional sum of money to contract printing."

More Expenditure?

Colonel Schepers asked whether there was any intention to spend more sums on capital works for the Government Press and, if there was any such intention, whether before deciding on it, would Government consider the advisability of getting work done by contract instead of increasing capital expenditure on the Government Press.

The Colonial Secretary referred the Hon. Member to the latter part of his reply. They had provided in the draft estimates for an additional sum for such contracts.

Capital Expenditure is there any intention of spending any more capital sums on the Government Press and it is intended to spend that extra money that may be required for contracts?

The Colonial Secretary: The only addition proposed in the estimate which may be regarded as capital expenditure is a sum of £1,500 for a rotary machine.

WE HEAR FROM LONDON.

(Continued from page 2.)

Filing for Patents

It is an interesting fact that makers of talking films, Antipater Lasker with English interests, and the production of many "talkies" with English interests, have started in "the world" such as the booming of Big Ben, the flow of the Niagara, the "Mauritania" steam, and the flow of the Nile. It is also interesting to note that the British system, for the patent of a film, is not a simple matter, but a complex one, and the makers of talking films are very busy with the matter. It is also interesting to note that the makers of talking films are very busy with the matter.

Automotive Statistics

And as I have mentioned, 200,000 (or "dolla") as I believe they say technically called, you will perhaps appreciate the nature of the statistics when you contemplate the statistics which have been put before us at the moment. It is two thousand four hundred and twenty-five, and this is the number of cars which have been put into the streets of London since the outbreak of the war. It is a very interesting fact that the number of cars which have been put into the streets of London since the outbreak of the war is two thousand four hundred and twenty-five.

New Scotland Yard

One bright spot in the gloom of the autumn season is that in 1920 if any Londoner is allowed to remain safe to appreciate all the "road-life" which has been placed to the credit of the New Scotland Yard. It is a very interesting fact that the number of cars which have been put into the streets of London since the outbreak of the war is two thousand four hundred and twenty-five.

New Scotland Yard

Anyhow, in the case of a theft of a car, it is a very interesting fact that the number of cars which have been put into the streets of London since the outbreak of the war is two thousand four hundred and twenty-five.

Town Water Supply.

CRITICISMS OF PRESENT SYSTEM

There is a great amount of criticism of the present system of water supply in London, and it is a very interesting fact that the number of cars which have been put into the streets of London since the outbreak of the war is two thousand four hundred and twenty-five.

Nairobi Roads

FOURTEENTH REPORT BY TOWN ENGINEER.

The following report on the maintenance and repair of Nairobi roads and bridges for the fortnight ending October 15, was submitted to the Nairobi Municipal Council on Tuesday by the Town Engineer, and was noted.

Valley Road.—This road is now completed for its full length. (Grass Road)—Malaria is being checked along this road and work will be started immediately.

Swamp Road Bridge.—The widening of this bridge is now practically completed and the roadway will be open to traffic next week.

Fourth Avenue, Parklands

Construction of the formation between Market Road and Lovers Lane is in hand.

Maintenance.—The patching and cleaning of roads have been working on the following roads:—

—Hurlingham Road, Kenyan, Kenyan, Anderson Road, Allen Hill Road, New Hill Road, Hill Road, Crawford Road, and Station Road.

MOVY MARKET

London, October 23. Prices: 128.85.

New Scotland Yard

The present plan before the approval of the City Council, leading to the building of the new Scotland Yard, is a very interesting fact that the number of cars which have been put into the streets of London since the outbreak of the war is two thousand four hundred and twenty-five.

New Scotland Yard

Anyhow, in the case of a theft of a car, it is a very interesting fact that the number of cars which have been put into the streets of London since the outbreak of the war is two thousand four hundred and twenty-five.

The Works Committee explained the shortcomings of the system of measuring the quantities of water used by individuals, and some water meters were known to give a false reading, and water passed through it.

S. Jacobs, Limited.

We specialise in long wearing office furniture, really solid articles, the appearance of which is a valuable asset to a business man.

No native labour or cheap materials are used. For all large orders, goods are made up specially under constant European supervision, and customers are welcome at any time to inspect the process of manufacture in our Nairobi factory.

We do not make so-called cheap furniture as it pays no one either to buy it or to sell it.

Your furniture, for whatever purpose, should be supplied to you like your clothes, a cheap ill-fitting shirt serves you no better than a cheap ill-fitting suit. In this connection it will pay you to deal with a firm who have spent years in building up a reputation which they will not willingly risk and in consequence of which their business has steadily increased.

SATISFACTION is guaranteed in fact we do not leave our work until we have given it

The Budget.

The Draft Estimate for 1930, accompanied by a long and detailed printed statement of explanation, was laid before the Legislative Council yesterday. The thoughtful review will afford the country and its representatives some opportunity of examining the proposals before the Budget goes to the Select Committee. The year following upon issuance by the colonial office of the Colonial Regulations should be more strictly adhered to, the Government has issued it, the Government has issued it, a complete statement of its financial position. The ordinary increments and increases upon recurrent expenditure and the usual non-recurrent services are no longer the only main guide to expenditure. The 1930 Budget also includes the complete portion of the same voted this year and necessary to complete in the following period the work already begun. The change is obviously a sound and more expeditious method of presenting the programme for the year. It at least has the advantage of showing clearly what the country how much money is being spent and the progress, slow or rapid, of the work to hand. It leads to a more complete programme of work to hand. It leads to a more complete programme of work to hand.

RATES ON RAILWAY FOR COUNTRY PRODUCE.

Freshawed Abolition Criticised.

LEGISLATIVE COUNCIL DEBATE.

Effect Upon the Fiscal System of the Colony.

The debate in the Legislative Council on the Kenya and Uganda Railway Budget introduced by the Acting General Manager, included considerable criticism by the Members of the freshawed change of policy in regard to the abolition of country produce rates.

Elected Members pointed out that the fiscal system of the Colony was one of protection and encouragement of the proper use of land and local resources. The country produce rates were an integral part of this policy, and their suggested abolition would have disastrous effects upon the Colony as a whole.

The constitutional position of the Legislative Council in regard to the Railway Estimates was also the subject of complaint. It was pointed out that the Council had no power to effect any revision of these Estimates, in spite of such far-reaching changes of policy as those suggested. At the same time the Colony was responsible for the Railway costs.

Various other criticisms of the working and administration of the Railway were made and an answer given during the course of the Acting General Manager's reply.

POWERS OF THE COUNCIL.

The debate on the Kenya and Uganda Railway Estimates was continued in the Legislative Council on Tuesday, following the discussion of the Acting General Manager's report of which yesterday was a highly disordered report.

Constitutional Position.

The Hon. Geoffrey Harvey (Labs.) introduced the subject of the powers of the Council in relation to the railway estimates. He pointed out that the Council in relation to its consideration of the railway estimates was somewhat in a position which was not altogether satisfactory. He stated that the Council was not a master of country in accordance with the provisions of the Railway Order-in-Council, but that it was a mere assessor of the estimates. He pointed out that the fact that the Council was not a master of country was a serious defect in the colonial financial system. He suggested that the Council should be made a master of country in accordance with the provisions of the Railway Order-in-Council.

Depreciation and Interest.

Mr. Harvey (Labs.) also pointed out that the fact that the Council was not a master of country was a serious defect in the colonial financial system. He suggested that the Council should be made a master of country in accordance with the provisions of the Railway Order-in-Council. He also pointed out that the depreciation and interest charges on the railway were a heavy burden on the Colony. He suggested that the Government should consider the possibility of reducing these charges. He also pointed out that the Government should consider the possibility of increasing the rate of interest on the railway loans. He suggested that the Government should consider the possibility of increasing the rate of interest on the railway loans.

Railway Working.

The next question related to the cost of the railway. The Acting General Manager's report stated that the cost of the railway had increased from 1900 to 1920. He suggested that the Government should consider the possibility of reducing the cost of the railway. He also pointed out that the Government should consider the possibility of increasing the rate of interest on the railway loans.

He suggested that the Government should consider the possibility of increasing the rate of interest on the railway loans. He also pointed out that the Government should consider the possibility of increasing the rate of interest on the railway loans.

Change of Policy.

He suggested that the Government should consider the possibility of increasing the rate of interest on the railway loans. He also pointed out that the Government should consider the possibility of increasing the rate of interest on the railway loans.

Branch Lines.

He suggested that the Government should consider the possibility of increasing the rate of interest on the railway loans. He also pointed out that the Government should consider the possibility of increasing the rate of interest on the railway loans.

He suggested that the Government should consider the possibility of increasing the rate of interest on the railway loans. He also pointed out that the Government should consider the possibility of increasing the rate of interest on the railway loans.

DEBATE ON RAILWAY ESTIMATES.

present State operated concerns. It was his intention to have the railway re-organised and to be going forward and defining a policy for the whole of the State. It was obviously a very serious matter for the Government to have a railway which was in a state of such a nature as to require any right to interfere with the policy should be in the hands of the Government.

A Colonial Minister.
 Colonel the Hon. J. G. Kirkwood (Nairobi North) said that he understood what had been said by the other Hon. Member. In referring to the general principle he said that there was a Colonial Minister who had made a mistake, and the date when it was made was stated in the Budget. He said that the Railway from the Legislative Council had been made a white-light compartment and something that was against the Railway. He said that he would have little effect, and would not be used in evidence. He said that he would have little effect, and would not be used in evidence. He said that he would have little effect, and would not be used in evidence.

The Moslem View.
 The Hon. P. A. Bamba (Mombasa) said that he wished to draw attention to the fact that the railway estimates for the year 1929-30 had been presented to the Legislative Council. He said that he wished to draw attention to the fact that the railway estimates for the year 1929-30 had been presented to the Legislative Council.

Why Build to Burn?
 The Hon. P. A. Bamba (Mombasa) said that he wished to draw attention to the fact that the railway estimates for the year 1929-30 had been presented to the Legislative Council. He said that he wished to draw attention to the fact that the railway estimates for the year 1929-30 had been presented to the Legislative Council.

Attic Grievances.
 The Hon. A. M. Malik (Indian representative) said that he wished to draw attention to the fact that the railway estimates for the year 1929-30 had been presented to the Legislative Council. He said that he wished to draw attention to the fact that the railway estimates for the year 1929-30 had been presented to the Legislative Council.

Reply to Debate.
 The Acting Colonial Minister said that he would like to reply to the debate on the railway estimates for the year 1929-30. He said that he would like to reply to the debate on the railway estimates for the year 1929-30.

Locusts in Kenya.

NO FURTHER HATCHINGS REPORTED.

With the exception of a particularly large swarm of locusts seen flying over the coast towards the north, there has been little trouble in the country during the last week. No further hatchings of hoppers have taken place. The following is the Departmental report for the week ending October 29:

Flying swarms.
 A few small swarms of pink locusts are reported on the Masai, mainly along the coast. Many, which were taken at Lake Naivasha, on the 17th and 18th October, a dense swarm of red and yellow locusts passed over Meru. This swarm, which was forty miles long and fifty miles high, was in the north-easterly direction, but it is expected that it will turn west on reaching the Emburi Range. There are reports in the area.

Another large swarm was reported by a fowling officer on being at Ngere Kerasi, eighteen miles south-west of Nairobi. These locusts are green.

No reports of flying locusts in the settled areas have been received, except one that a swarm occurred near Truro Station. Tanganyika reports that the swarms previously in the Fwe Hills has moved to Shere Kheseni.

Hopper areas.
 All hopper areas are now clear and no fresh hatchings have been reported.

Wireless News, local news, weather report and mail notice.
 7.55 to 8.45—Dance music.

Railway Concessions.

SPECIAL RATES FOR TRADING FIRMS.

Notice is given in the Kenya Official Gazette that concessions for the Kenya Uganda Railway for partners and members of their firms to be granted in connection with the railway to the amount of £100 per annum for each firm to the Boarding and Harbours Association, for the maintenance of the immediately preceding calendar year on the following basis:—
 £2000 return on return tickets per annum if the freight paid on goods actually transported.

Shillings per annum	cents on full ordinary fares.
20,000	10
40,000	20
60,000	30
80,000	40
100,000	50
120,000	60
140,000	70
160,000	80
180,000	90
200,000	100

Special single return tickets if the freight on goods traffic amounts to less than Shgs. 300.00.00 per annum. Percentage discount on full ordinary fares:—
 70% (Tobacco will only be issued on production of a Concession Order signed by the Superintendent of Free Lines, to whom any firm does not have a Ledger Account with the Administration should submit a detailed statement showing the concession to which it claims is entitled).

The availability of these Concession Tickets will be the same as ordinary tickets, and those persons availing themselves of the concession, during the same journey obtain or use any other concession that may be in force.

Challenge Cup.

A challenge cup has been kindly presented by Lady McMillin to the Best Theatrical or Link Wolf Hunt. Conditions will be published later.

The following Special Prizes for the next calendar have been presented since the first list was published: No. 12 Silver Cup for the Best Countryed Wapiti by F. J. Turner, P.P.—by Mrs. F. A. McMillin. The generous offer also holds for East Africa Kennel Club Show in 1921 (not 1922) No. 18. Shs. 20/- for the Best Wire-haired Fox Terrier Puggy—by Mr. C. Selby Loveland.

GOVERNMENT REPLIES TO QUESTIONS.

Subjects Raised By Nairobi Deputy Member.

During the absence from Kenya of
Major Hon. E. S. Gray, the
Deputy Member of the Legislative
Council for Nairobi, North, Col.
W. C. Tucker, who deputized for
him, put a series of questions to
Government. These questions
have been answered in the course
of a communication to the late
sitting, member, as set out as
follows:

Native Labor Returns.

Col. W. C. Tucker asked:
"Whether, as a result of the recent
series of propositions of persons
who are entitled to register
monthly Native Labor Returns
the Chief Native Commissioner
contemplates amendment of the
Ordinance in the extent of only
requiring returns when new men
are engaged, and not when they
leave; or if not, whether he is
preparing to amend the Ordinance
in the extent of the reasons why 'Nil'
Returns are essential to the effective
conduct of the Registration
system?"

The following was the reply:
"Whether or not under the
contemplation was made under the
Ordinance on the lines sug-
gested. The question of 'Nil'
Returns was carefully considered
at the time that the rule relating
thereto was brought into force and
it was decided that Nil returns
were necessary for the efficient
working of the Ordinance. If
'Nil' Returns were not sub-
mitted it would be impossible for
the Registration Department to
differentiate between the employ-
ees, through neglect or forgetful-
ness, failed to register, returns of
changes of labour and the employ-
ees who, because he retained the
same employer has not therefore
submitted a return."

Unsettled Telegrams.

Col. W. C. Tucker, C.B.E.,
asked: "Whether the office ad-
ministering the Posts and Tele-
graphs could adopt a system
through system for tracing ad-
dressors of cables and telegrams
in the light of the use of the
delivered Telegrams, which are
now published in the Press, having
regard to the serious con-
sequence which have arisen for
want of reasonable enquiry in the
past."

The reply was as follows:

"The system for delivery of
telegram news in operation in the
Department provides for full and
early transmission of copy being
made with the object of effecting
delivery as early as possible in
which the addressee would be com-
pelled to satisfy themselves by
most other Telegraphic Administra-
tions. It is not possible to
refer to it as an additional
"carry charge" in the ordinary
sense. There is no need to
include any special charges in the
Department of any nature
of re-delivery of an addressee
in Nairobi, but a series of
particulars were pub-
lished."

Sir Herbert Baker.

Col. W. C. Tucker asked the
Hon. the Colonial Secretary for
the following particulars of the
Contract entered into with Sir
Herbert Baker, viz: (1) Whether
the contract was for the purchase
and potential buildings
needed; (2) The main terms
expressed by the rate per cent on
the capital outlay; (3) Whether
the contract is personal to him or
equally binding upon Government
in the event of Sir Herbert
Baker's interests becoming aban-
doned in a Company or partnership;
(4) Whether there is any con-
tract specified other which Govern-
ment is obliged to effect and
which offers to effect local build-
ings the opportunity of competi-
tion."

The Colonial Secretary replied as follows:

"(1) The following buildings
are involved: European Elementary
Schools at Nairobi, Nakuru
and Eldoret, European Secondary
School at Nairobi, Indian Sec-
ondary School, Nairobi, Govern-
ment House at Nairobi and
Kisumu, The Medical Labo-
ratory at Nairobi. The new Law
Courts and the Central and Dis-
trict Offices at Nairobi; (2) Up to
the 28th April, 1929, Sir Herbert
Baker was employed as architect
for the works, and for his services
as such his remuneration was 41
per cent on their cost. As from
the 1st May, 1929, Sir Herbert
Baker has been engaged as con-
sulting architect only, and for his
services as consulting architect
his remuneration is 25 per cent of
what it was as architect. It may
be explained that the remuneration
of 41 per cent paid to Sir Herbert
Baker as architect was much less
than the usual architect's com-
mission, as laid down by the
Royal Institute of British Archi-
tects in consideration of the fact
that certain services in connec-
tion with the design and other en-
gineering services and quantities
supervision were rendered by the
Public Works Department. The
arrangement is personal to Sir
Herbert Baker. (3) The reply
is in the negative."

Elkha Canna.

PROTECTING ROOT CROPS FOR THIS AFD CROPS.

LUX

Pigs and stock which the elkhé
Canna—a herbaceous perennial
with long leaves and flowers
made with the object of effecting
delivery as early as possible in
which the addressee would be com-
pelled to satisfy themselves by
most other Telegraphic Administra-
tions. It is not possible to
refer to it as an additional
"carry charge" in the ordinary
sense. There is no need to
include any special charges in the
Department of any nature
of re-delivery of an addressee
in Nairobi, but a series of
particulars were pub-
lished."

It is a herbaceous perennial
with large green leaves rather like
the ordinary garden canna. It
reaches a height of from five feet
to eight feet when fully devel-
oped, forms a number of purple
flowers, which are very attractive.
Pigs will eat the leaves, and
eat up the root. Old stock
consumes the leaves and
roots with some relish.
The following cultural notes are
contributed by Mr. Watt, of the
Scott Agricultural Laboratories:
"Cultivation: Prefers a deep
rich soil. Plant small area of
'root' every two feet in rows four
feet apart. If large ones are be-
ing planted, it is possible to
establish the crop by dropping
roots behind the plough. There
is no special manure, etc., it is
sufficiently fertile to keep the soil
sandy for the first three months of
its growth.
Yield: This is still uncertain in
Kenya, but fifteen to twenty
hundredweight per acre of the pre-
pared sown crop might be expect-
ed, or 200 to 300 of fresh
tubers per acre.
Growth: The crop is very easily
established and may even be
planted before the rains. It will
survive very weedy drought, and
should be mowed when the
climate is too hot for sweet
potatoes.
It should be noted that crops of
over fifteen tons of fresh roots per
acre have been secured. An ac-
count of the detailed average of
land at the Scott Agricultural
Laboratories available for the
growth of new crops, a small plot
only is given.
A photograph of the Canna
appears in the weekly edition."

MOTOR NEWS

From Road & Showroom

INSURANCE POLICIES

Question of Instalment Premiums.

EXCESSIVE RULES FOR CAR INSURERS AVOID.

However strongly one may feel that no motor vehicle should be allowed to be driven on the road unless it is insured—at any rate against third-party risks—it is only fair to remember that the usual premium involves direct expenses to the car owner and unpleasantly heavy lump-sum outlay. Carrying motor insurance does not mean that the burden is thereby shifted upon motorists to take out insurance policies.

Purchase on the instalment system has become a feature of modern life, we may say our familiarity with this way, and it is said that over 70 per cent of motor cars effected on the understanding that these instalment payments will be accepted in respect of the bulk of the purchase price. Why not buy our insurance in the same manner?

It may be said that this is already possible—that one can insure for a short period and then renew the policy—but actually this is impracticable, because the rates of premium for short periods are out of all proportion to the rates themselves quite high enough demanded for a whole year's cover. Why should this be so in the case of motor insurance?

The risk, from the insurance company's point of view, during the first few months should, one would imagine, be precisely twice that of that during one month. The only real reason for putting up the rate for a short cover is, we take it, that if an accident involving a claim occurs within a six-month period, there is no chance of making up the expenditure on premium securing it.

Let your car be powered by Pegasus, and, of course, lubricated with Mobil-Oil.

IS ACCURACY OF REPRESENTATION

When you see a Pegasus pump surmounted by the Pegasus Globe you may know that Pegasus Motor Spirit is obtainable only through those Pumps, and in the Company's Sealed containers.

Easily recognizable by the Oval globe, the pump dispenses a spirit that has won its way to the front by sheer merit—by its quick starting, economy and magnificent power.

INSURANCE POLICIES

pect of say, road & Showroom during which no claim is made. This, however, a beside the point. What we are concerned with at the moment is payment of premium by instalments. The premium would, perhaps, have to be paid for a whole year's cover, but deferred payments could be arranged without "tying" the rate to an unmanageable credit. When other commodities such as motor cars, are offered on the instalment system, the additional cost of the vehicle to compensate for the accommodation afforded is invariably most moderate. There is no reason why it should be less in the case of insurance cover.

If only the insurance cover of a whole would realize the fact, the offer of instalment, necessarily good for some of the instalments could be payable quarterly would be an enormous attraction—and not only to the poor man. That the wealthy car owner is apt to look after the price is proved by the fact that many cars that are very expensive are bought by instalment.

So if only with insurance premiums, the great majority of people would much rather pay say £4 a quarter than £15 down in one lump sum. If insurance is comprised of quarters and the month being able to put his money to use in such a way, that through the low rate of interest he has to pay the result of the amount of the purchase price outstanding.

So if only with insurance premiums, the great majority of people would much rather pay say £4 a quarter than £15 down in one lump sum. If insurance is comprised of quarters and the month being able to put his money to use in such a way, that through the low rate of interest he has to pay the result of the amount of the purchase price outstanding.

PITTING AWKWARD SORROWS

As our cars are more often than not used with the hood down, the following easy and economical method of fitting a roof set for parts in a four-wheeler will be found very useful. The same has been applied in some motor-cars.

On most cars there are cross-bars that may be employed in a similar fashion, in those motor-cars.

On some cars there are cross-bars that may be employed in a similar fashion, in those motor-cars.

INVESTMENT POWERS OF TRUSTEES.

Kenya Law Brought in Line With Home.

LEGAL MODIFICATIONS.

A Bill relating to Trustee powers...

The Attorney General is proposing the second reading and that at present the only law relating to Trusts and Trustees in force in Kenya was the English Trustee Act of 1906. This had been amended in 1925 in England and had been amended with certain additional provisions. The Bill now before the House had been prepared on the lines of the new English Act with such variations as were necessary to suit local conditions.

Amongst the changes was one to the effect that trustees would have power to invest trust funds, in securities the interest on which was guaranteed by the Colony. Another was that a trustee having power to invest in freehold security might sue for the purchase price in the form of a legal charge under the Provisions of Titles Ordinance. Another difference with the English Act is in clause 12 where it was stated that when there was a lack of suitable investments in the Colony trustees might pay trust money into a bank and interest payable could be applied as income.

There were only two modifications from the English Act, and all were considered to be necessary from the point of view of local conditions.

Investment Staps.

Slightly wider scope for investment was provided in clause 11 by the fact that trustee lending money would not have that money called in in any period not exceeding seven years provided interest was paid and there was no breach of any covenant. Two kinds of the purchase price as the result of a sale could be secured by mortgage.

Clause 17 provided that where trustees were substituted to let and lease land they would have the power to raise the money required by any part of the property. Clause 24 provided for the transfer of investment powers to the trustee in possession. Clause 26 which gave power to advance trusts during absence abroad for a period of more than one month.

Dealing with the part of the Bill which related to the Attorney General said that clause 28 which gave power to trustees by means of advertisement. The power to apply for a mortgage was provided in clause 22. The Bill also gave trustees the power to make advances from the power and duties of trustee the number was limited to four. Clause 28 gave the power of appointing new or additional trustees without the necessity for going to Court.

Retired Official's Widow.

COMPASSIONATE GRATUITY GRANTED.

The Legislative Council on Wednesday decided to grant compassionate gratuity to the widow of the late Mr. G. Woodroffe.

The Acting Treasurer proposed the following motion—"In consequence of the accidental death of the widow of the late Mr. G. Woodroffe who, after 15 years, 6 months and 11 days satisfactory service to the Government of the Colony, died on the 26th August, 1926, this Council is pleased to award her compassionate gratuity of £200 (which amount is equivalent to six months' salary of her deceased husband) at the rate drawn by him immediately prior to retirement such amount to be held in trust and the income derived therefrom to be paid to her and/or her daughter."

In replying to the motion the Acting Treasurer said that he thought it was almost self-evident. Three grants were generally subject to a condition regarding the Widow and Pensioners' Relief Act of 1925. The officer was precluded from inclusion in that scheme. That was so in the present case.

The Hon. Conway Harvey (Lalau) asked the motion, Mr. (Lalau) was not present but he had been suggested by the Acting Members. A long period had elapsed between the retirement of Mr. Woodroffe and his decease. He was sure his colleagues would cordially support the motion.

"LONG JOHN"
FINEST SCOTCH WHISKY

WE HAVE REALISED FOR MANY YEARS THAT the name of a Scotchman is not only a trouble but is unnecessary.

We are, however, firmly convinced from long experience that a whisky of superior quality, such as high-grade Whisky, a Whisky of superior quality, should never be allowed to come into contact with metal.

With this in view "LONG JOHN" has always been and still is SEALED WITH A Genuine Catechistain Cork, which can be easily removed by a Turn of the Finger.

THE JUNIOR BRANCH OF THE E.A.S.P.C.A.

Progress During Past Two Years

A CREDITABLE RECORD.

Each school has now a small library of animal books provided by the Society from a special fund for this purpose.

Children do not pay yearly subscription - an entrance fee of Shs. 1/-; establish them to a badge of membership. Each member's name is entered in a special book which will give them 18 years of age. The badge is a small metal tablet which they are given by the Society free.

Stray cats and dogs have been taken to the shelter of the Junior Branch. Unwanted found dog bones and many cases of strays have been reported to the inspector. Members have been known to notice stray and successfully have had in many cases taken to the shelter. All this shows progress. A better liaison between the Society and the wild life of the Colony. A greater interest is needed from those in educational authority.

CELEBRATIONS FOR THE SECOND ANNIVERSARY

A collection by children and adults will be made on Saturday (October 28). The public are asked to be very generous as the Society needs a good deal of money to carry on its work.

An E.A.S.P.C.A. Welfare Committee will have its headquarters at the kind permission of Messrs. Hill and Hunter at 10, St. Andrew's Place, at 6th Avenue. The public are invited to visit them on a large display of the exhibition of children's work. There will be a large display of poems and literature etc.

The Junior Branch is well supported and the prospects are bright and we wish to thank members to properly care for those animals entrusted to their charge, and to show them how they can help prevent living creatures around them from cruelty and suffering.

The Junior Branch is well supported and the prospects are bright and we wish to thank members to properly care for those animals entrusted to their charge, and to show them how they can help prevent living creatures around them from cruelty and suffering.

Monthly competitions have been set on foot by the Junior Branch. The first prize in the month of October was won by Miss M. J. M. for a drawing of a dog. The second prize was won by Miss M. J. M. for a drawing of a dog. The third prize was won by Miss M. J. M. for a drawing of a dog.

A party given at the school on Saturday (October 27) was a most successful one. The proceeds of the party were used for the purchase of books for the library.

JACOBS' BISCUITS

TO EVERY TASTE A FAVOURITE

There are many who like the simpler biscuits of delicate flavor, those meant to accompany other things. Such preferences are met by JACOBS' WATER (High-baked) BISCUITS, a perfect background for butter and cheese; JACOBS' GOLDEN PUFFS, the lightest and flakiest puff-patty made; and JACOBS' FAMILY ASSORTED, a delicious variety of Shortbread and Sandwich Biscuits to please the taste of each member of the family. Other tempting varieties are:-

Vanilla Butter Puff
Assorted Cream
Milk
Bitter Almond Tea
Bitter Almond Tea
Bitter Almond Tea
Bitter Almond Tea

Jacob's Biscuits are beautifully made and always arrive fresh.

Kenya Land Policy.
UNDIVIDED FARMS.

To the Editor, "E.A. Standard."
Mr. Miller J. congratulates the Times on its Kenya, in its column regarding undivided land policy. The Legislative Council, I am glad to see, has given, I feel sure the matter would have received more attention. In my district there are eight such farms, within a radius of five miles. They are not in European occupation and have little or no development on them, this despite the Miller's Section Ordinance. The effect on our district is almost tragic for the following reason:

It is some time ago when I was working for a Railway extension. Had these farms been occupied and developed we should have had a great chance of getting it. It is now some 12 miles from Nairobi. We know that outside were run out of this region by the squatters who were on these farms and with the cattle came the infectious diseases. As native squatters were allowed on these farms, so that in a short time they became a nuisance for natives who were wanted by the Police. The effect of this on the adjoining European crops, etc., can be imagined. As these farms were in European occupation we could obtain much better land. These are important matters to us, and I do not think that Council has any right to ignore them simply because it will cause a lot of trouble to remedy the existing laws. There is an easy remedy, and I beg the Hon. Member for West Kenya to consider it. The Executive of the Governor stated in his opening report that the Land Bank would not become operative at present. Presumably this will delay the opening till I therefore suggest that Captain Ross's report may be considered. It will be understood to include the following: "That all alienated agricultural land that is not being worked or used with a view to the opening of the pasting of the Pasting Bill be amended to state that the Pasting Bill be not maintained. The Government should be empowered to make specifications of an estate for which the determining authority for land is properly held, etc."

STOCK DISEASES—DIPPING.
To the Editor, "E.A. Standard."
I am in receipt of one of your correspondence which refers to dipping to prevent the spread of stock diseases from East Kenya to East Africa. I have no grade cattle for 10 years and have been dipping with a 1% solution of formalin in water without dipping, and due to no response, and I have been dipping on every other side of the valley, which large number of squatters, and 800 head of squatter cattle, have bought, etc.

AMOTOR LICENSE FUELS.
To the Editor, "E.A. Standard."
I would like to see a small paragraph in your issue of October 19th referring to the transfer of motor licenses.

INDIAN EDUCATION.
To the Editor, "E.A. Standard."
Sir, Mr. C. J. Thakore's letter in your issue of yesterday brings to light some of the sad state of affairs in the administration of young Indian children in the Indian junior school, and I think the Education Department should be urged to review the present conditions. After all, the money required to give these few children a decent place to study is not great compared to the contribution of the community to general and specific revenue of the Colony.

CHESS
 and the near tour when Black can just take it.

WORLD CHAMPIONSHIP
 Dr. Alkhin has justified our high hopes in his brilliant and spirited by playing a championship match with E. F. Hooper and that taking his title so soon after victory of von Capablanca. The sets a new standard of sportsmanship among world champions to chess, and will no doubt remove the feeling that high chess is based on hard cash, as well as to make easier the work of the International Chess Federation in the matter of promoting more frequent matches for the much coveted title.

PROBLEM No. 1043
 By G. T. Anderson
 From the "Natal Mercury," Black's.

White mates in two moves.

White mates in three moves.

THE MASTER TOUCH
 By R. J. ...

White to play and to win.

seems to have a leg, since Black is not only a Knight and Pawn to the good, but his general position is much better for the end game. Black sees that with double Black on the King file, Morphy can check and get a Queen for two Bishops, but would not be left with a lost game. Queen and Bishop are not good against two Bishops Knight, Bishop and Pawn.

The main danger the modern analyst gives to the favour of Black, possibly mentioning that double Black on the open central file would be partial compensation for the loss of Knight and Pawn by White.

Now look: Morphy does not seem to care a straw for his doubled Bishops, and starts attacking and winning in a truly masterly way. He moves his knight whistler of letting Black move the and king's Bishop.

1. R. R. threatening QxP and then covers Black to play knight.

2. R. R. d. 5. mate. King square Black to play R. R. Q. R. d. 5. and Black King on other side Bishop.

1. R. R. d. 5. and Black King on other side Bishop.

1927 KENY CHESS HANDBOOK

Sectional Chess has been re-introduced and classed as follows:

Champion's Class (Vires & Pines)
 1. W. A. W. ...
 2. ...
 3. ...
 4. ...
 5. ...

out any games going by default. Last week West's Champion (Class) beat Hickey (Class 2); and Carline (Class) beat Wainwright (Class 3).

SOLUTIONS
 Problem No. 1038 (Two): Key: 1. B-c4. This threatens a mate by 2. Q-c4. Black can only be saved by 1. R-c4 or by R-d4. The former defence is made by 2. Q-c4. Black is then forced to 2. Q-c4. Black is then forced to 2. Q-c4. Black is then forced to 2. Q-c4.

Problem No. 1037 (Fowler): Key: 1. Q-c4. White mate, and will be discussed next week.

ZEISS

Best illumination of show windows.
Your Show Windows in your best advantage.
Within the last few years the art of lighting show windows has passed in rapid strides from amateur to success. An increase of the intensity to nine times the initial intensity in the direct line of illumination, as achieved by the

ZEISS REFLECTORS

mentioned in hotel advertisements which contained all that was desired in its former days.
The new Zeiss Binocular Reflector furnishes a means of lighting show windows which surpasses even the intensified illumination by a multiple. Using only a 110-watt filament bulb the amount of light power furnished in the principal direction is an intensity of about 8000 c.p.s., i.e., roughly a light which is 20 times as intense as that emitted by a filament lamp without reflector.

Ask for our catalogue including also full particulars for all other kinds of indoor and outdoor lighting.

THE POULTRY NOTES:

REARING OF TURKEYS.

Large Acreage Needed.

Turkeys, like ducks, must have large areas in which to range freely; in fact I have grown up turkeys, although I only reared about a dozen a year. I found that rearing on a small scale and with very little grazing, was best as a rule. All I reared I sold at 2½ a pound live weight, which was quite a fair price, as prices went last Christmas, averaging about 30¢ a bird. But rearing on the ground and on a large field feeding all the time, the result was that I could make up a large acreage for grazing, from the time the turkeys are three months old, until it is time to fatten them, there is very little expense.

Turkeys require a wide range and, if housed, a big house. They are the least domesticated of any of the domesticated fowl and the sooner they are kept to their wild state the better they will thrive. Therefore, if it is possible, it is best to let them roam in the trees, but if they must be housed them at the house, be made with a high roof and as open as possible. American Bresse will be found to be the best for this country. The stock birds should be large framed, but it will not be found satisfactory to breed from the very heavy specimens. One gobler is enough for a large flock of hens, because, when the hen is in season, one mating will be sufficient to fertilize her whole clutch of eggs. The best method an amateur sizer and mother, but it is necessary to take away the eggs as they are laid and substitute another or she will not lay a big clutch before she goes broody. The turkey, when in feed of hatching, to lay her eggs and if the birds are on free range the hens will have to be watched to discover where they are laying.

When a nest is discovered do not remove all the eggs without substituting dummy ones as she will desert that nest and make another and there will be the best all over again. If it is possible to allow her to sit where she has laid it will be found that the chicks will hatch better. Of course if there is a risk of vermin getting her she will have to be brought in, but sometimes if a nest box is put over her she will be quite safe.
It is often said that turkey chicks

are very delicate, and there is a great deal of loss in the rearing process. The trouble is to get them started, and if they are not started feeding and do not seem able to feed it is naturally the best thing to do as a good idea is to have them taken to give them a head. Once they have started they will carry on all right. Care will have to be taken that the mother does not run them off their legs, and she will be better copped for the first week. They will require soft food, and I prefer bread and milk with fresh chopped onion in it, dried off to a crumbly consistency with meat meal. After they have shown the red they should go about fast and give very little trouble. They will require plenty of green food and finely chopped meat. They must be kept dry, they are very delicate about rain, and will not attempt to rear them near to the house where it will be fairly easy to get them into shelter when the rain comes.

Kilroy Fowl Disease and Chicken-Pox are the two worst enemies to young turkeys in the country, and account for large numbers of deaths every year. Heavy turkeys must be watched for signs of observation. If they are closely examined it will sometimes be ascertained that the vent has a few little lumps of excretion adhering, the should be bathed off with warm water, and the chick given a small dose of olive oil. This preventative accounts for many deaths in the first fortnight after hatching.

Weights and Measures.

TWO INDIAN TRADERS FINED

Two cases were heard before Mr. Campbell in the Resident Magistrate's Court on Thursday in which Indian traders were charged with offences against the Weights and Measures Act.

In the first case an Indian trader of Swamp Road, Mombasa was charged with being in possession of an unjust weighing scale and three tin oil weights and a being in possession of four uncalibrated weighing instruments and the uncalibrated weights. The case charge the defendant was ordered to pay a fine of Shs. 75, or alternatively to go to prison for 14 days unless imprisonment.

In the second case F. V. V. V. a general shopkeeper of 41 Vermont Road was charged with (1) being in possession of one uncalibrated weight of one ounce authorized weight and being in possession of two uncalibrated weights and (2) being in possession of 11 stamped weights. On the first charge the accused was ordered to pay a fine of Shs. 100, or alternatively to undergo 14 days' simple imprisonment.

In each case the weights and weights measures were ordered to be forfeited and the Magistrate also ordered that the fines if paid should go to the Police Reserve and Police Fund.

CHRYSLER

Plymouth, with its large roomy bodies and generous wheelbase, gives far more in seating comfort and riding ease than has ever before been obtainable in the lowest-priced field.

Still further emphasizing Plymouth value are the power, speed, and smoothness of its high-compression engine.

and the safety of four-wheel hydraulic brakes—the only car at its price with such equipment.

Merely to see the new Plymouth is to know its very evident superiority in style, quality, and luxury. To drive it is to confirm your impressions that, in its price class, no other car gives as great return in value as does the Plymouth.

FORWARD POLICY FOR KENYA AGRICULTURE.

Scheme Sketched by the Commission.

IMPORTANCE OF LIVESTOCK.

Sir Daniel Hall's Tribute to Department and Director.

General agreement that a forward policy in agriculture is wanted and that the Department is the agency to should carry it out were two outstanding points in a review, given by Sir Daniel Hall to the "Standard" Committee of the activities of the Kenya Agricultural Commission of which he was Chairman. Sir Daniel was impressed by the value and variety of the Colony's resources and expressed the hope that there would be more settlers to develop the land which, at the present time, was not yielding its weight in the production of the Colony.

Sir Daniel regards the native question in Kenya as a question of cattle and livestock. The problem as one of bringing the African to realize that livestock must be used for productive purposes and not merely to be kept as tokens of wealth.

"The work of the Commission," he said, "has been to sketch out a scheme of development which can only be realised by degrees as finances permit. My own personal conviction is that the Colony has a very good prospect of a very fine future in the hands of a great deal of valuable work conditions."

Sir Daniel Hall, of the Colony study difficult DEPARTMENT FROM NAIROBI.

Mr. Hall said that the Kenya study difficult DEPARTMENT FROM NAIROBI. Mr. Hall said that the Kenya study difficult DEPARTMENT FROM NAIROBI. Mr. Hall said that the Kenya study difficult DEPARTMENT FROM NAIROBI.

A Forward Policy.

Despite all the grumbles and complaints which are being made during the last quarter of the year, the work of the Commission has really been to sketch out a scheme of development which can only be realised by degrees as finances permit, but which would, as far as possible, be realised in the shortest possible time.

The Native Question.

I have also been struck by the same question in Kenya as in other parts of the world, namely, the native question. The native question is a very important one, and it is one which will depend on such factors as the development of the livestock industry, the settlement of the land, the growth of the economy, and the growth of the population.

Impression of Kenya.

Sir Daniel reiterated that he had been most impressed by the value and the variety of the Colony's resources. He said that the Commission had been most impressed by the value and the variety of the Colony's resources.

The Commission Report.

As to the Commission's report, Sir Daniel said that he had been most impressed by the value and the variety of the Colony's resources. He said that the Commission had been most impressed by the value and the variety of the Colony's resources.

HIS EXCELLENCY'S VISIT TO THE COAST.

To Meet the Chamber of Commerce.

SUBJECTS FOR DISCUSSION.

(Nairobi Correspondent.) The invitation extended by the Chamber of Commerce to His Excellency the Governor, Sir Charles Johnston, to visit the Coast, was most cordially welcomed by the Chamber of Commerce. The subjects for discussion were: (1) The development of the Colony's resources; (2) The native question; (3) The settlement of the land; (4) The growth of the economy; and (5) The growth of the population.

World Travellers Arrive in Nairobi.

Visiting 161 Countries.

An extraordinary world tour in the motor car of the late Sir Charles Johnston, which was completed in approximately 5,000 hours, arrived in Nairobi on Thursday evening. The tour was made in a motor car which was built by the late Sir Charles Johnston, and was equipped with a special engine and a special transmission.

SANDS & CO., Land Sale

AT OUR SADDLERS ST. PREMISES.

Saturday, Nov. 2nd at 11 a.m

Acting on instructions from the Executors of the late Mr. F. O. Anderson, we will sell WITHOUT RESERVE.

A VERY EXCELLENT FARM IN THE GILGIL DISTRICT Land Office No. 1280, 260 acres, 90 years lease at an annual rental of Sh. 944 Cents 5/8. The farm is a very fine mixed farm approx. 250 acre under cleared and better. The buildings comprise good stone house with C. roofed porch containing 2 sitting rooms, 3 bedrooms, bathroom, pantry, etc. 2 more great houses. Stables containing 5 loose boxes and harness room. Big two-storied wheat store, cattle sheds boxes and paddocks. The farm has a frontage on the Gilgil Road of approx. 3 miles and is coupled with the fact that the pumphole land runs the length of the farm makes it all self-sufficient and self-defending. The farm is situated 12 miles from Gilgil on the Gilgil-Timbori West Road.

Further particulars will be supplied by Mr. Le Hince-Smith who has the selling farm or from the Auctioneers. The Auctioneers are thoroughly recommended the farm and the district.
