

The subscription to the Kenya Horticultural Society is due 20 years and should be sent to the Sec. Secretary, P.O. Box 37, Nairobi. All correspondence for the Horticultural paper should be addressed to the Horticultural Editor, P.O. Box 27, Nairobi.

WATER'S HOTEL.

A few articles in this and last condition are being included in this year's report. There is the same very garden, beginning to show signs of spring, and the rest of the season. It is hoped these articles may be of assistance to them.

Soil Conditions.

It will not many months ago that the soil was usually reported as an inert mass of red fragments and organic matter—hard, but, excepting for a few standing changes involved in the making of available plant food, by degrees it came to be realized that the soil could produce other than only one crop of the commonest and best of organisms that take place in the soil, and that considerable small living beings contributed in very large measure to the building of the soil as we know it. It was then that the soil was reported as a garden.

The soil is not to be confused with the soil of the tropics, which is a mass of organic matter, and is not to be confused with the soil of the temperate zone, which is a mass of mineral matter. The soil of the tropics is a mass of organic matter, and is not to be confused with the soil of the temperate zone, which is a mass of mineral matter.

It is not to be confused with the soil of the temperate zone, which is a mass of mineral matter. The soil of the tropics is a mass of organic matter, and is not to be confused with the soil of the temperate zone, which is a mass of mineral matter.

The soil is not to be confused with the soil of the temperate zone, which is a mass of mineral matter. The soil of the tropics is a mass of organic matter, and is not to be confused with the soil of the temperate zone, which is a mass of mineral matter.

It is up to You!

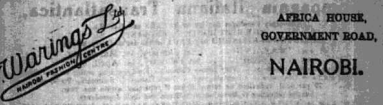

Others have proved to their own satisfaction the vast superiority of "Cross", so why don't you try it out in your own tractor and prove for yourself its outstanding qualities.

The new higher velocity feature makes the new Cross even better than the old. Maximum power output is ensured, dry spark plugs and heavy carbon deposit are eliminated, and its very low consumption means a definite saving in your seasons cost.

HORTICULTURE. (Continued from page 2)

should be sown and dug in to a depth of 4 or 6 inches. To get the most out of it, it is better to place the fertilizer in the furrows and to water the plants, rather than to have planted the soil with fertilizer and the plants.

The early growers in Florida use a much smaller quantity of fertilizer, which is equivalent to not being able to pay anything for it. This is because the soil is so rich that it is not necessary to use a great deal of fertilizer. When you cannot get a good crop, it is not a matter of course to add more fertilizer. It is a matter of course to add more fertilizer when you cannot get a good crop.

A. L. Linn—The majority of plants thrive best in a soil that is not too rich. The addition of lime to soil, that is, one more or less, will improve them for most plants. For several plants, a red soil will do on the other hand, and it is absolutely essential with some plants. The lime is not added to the soil, but is added to the soil in the form of a fertilizer. The lime is added to the soil in the form of a fertilizer.

(1) Good Cultivators and Good Gardeners. The best way to make the soil in the best condition is to use a good fertilizer. The best fertilizer is one that is made of natural materials. The best fertilizer is one that is made of natural materials. The best fertilizer is one that is made of natural materials.

SCANDIA COTTON EXPORT RECORD BROKEN.

Preparation for Next Crop.

SCANDIA, COPENHAGEN. (Special Correspondent.)—The cotton crop in Scandia has broken a record. The crop was 100,000 bales. The crop was 100,000 bales. The crop was 100,000 bales. The crop was 100,000 bales.

Up to November 15 last 100,000 bales of cotton had been actually shipped from Scandia. It was estimated at that time that about 100,000 bales still remained in the country. As we should have to see our living in Kampala and other countries, it is not surprising that the cotton crop in Scandia has broken a record.

TANGANYIKA'S PROGRESS PLAN.

(Continued from page 1.)
...and experiments than in Tanganyika, properly directed, must prove themselves and the new stations should not be set up in remote areas, as well as the non-traffic stations, which should be situated practically without receiving facilities and the new lines should be planned by present conditions in the territory.

The Commission which made the recommendations suggested the appointment of a local committee with a view to extending aid to planters and settlers and in recommending the intention to appoint such a Committee for Tanganyika. The Commission stated: "I agree with the views expressed by the Hon. Young Commission that planters and settlers coming to Tanganyika in their early days should be equipped with capital and that the main work shall be to develop the plantations. The Government should be held to a strict liability to see that sufficient capital is available to the settlers who come to Tanganyika in their early days."

The Railway.
There was given in detail the various schemes in category A, including with explanatory notes, being accepted from the East African Commission and the Commission's report.

215,000—Automatic Telephone System for Mosambiquia. A scheme which would have cost several million pounds the money has been proposed.

218,000—Telegraph and telephone reconstruction in Northern Rhodesia. A scheme which will give considerable impetus to business enterprise in the matter of reconstruction of communications.

220,000—Tanzania line. Kilwa to Isaka Isaka is a growing trade centre dealing with thousands of tons of rice. Kilwa is on the Central Railway line.

218,450—Air Service.
220,000—Transportation Development. These have items should be taken together. The proposals are in complete accord with the views of Sir Douglas H. B. Whitehead, Chairman of the Air Survey Committee with whom the proposals were fully discussed during the recent visit to Tanganyika.

220,000—Medical—Training School.

211,000—Machos District.
212,000—Police Warden Homes and Workshops.
213,000—Forest Scheme in Malawi.
214,000—Road and Bridge Schemes.

215,000—Machos District. The Highlands stretching from Malawi to Tanganyika are rich in copper and other minerals. The Commission recommended that a road be built to the north, via the proposed railway to Mwanza on the Central Line, the Donald Cameron scheme advanced a road from Mwanza to Arusha. The proposed survey should be completed as soon as possible.

220,000—Machos District. His Excellency reports that the most promising railway proposition in Tanganyika at this moment is that in the Highlands which was submitted to the Commission for two years. He has recommended that the Government should at the opening of the Africa meeting make the Uganda Railway a first priority.

218,000—Tanzania Railway. A scheme for a branch line from the Malawi-Kilwa Railway station and will form part of the ultimate link with the Kenya and Uganda Railway systems.

220,000—Machos District. The proposed scheme for a branch line from the Malawi-Kilwa Railway station and will form part of the ultimate link with the Kenya and Uganda Railway systems.

220,000—Machos District. The proposed scheme for a branch line from the Malawi-Kilwa Railway station and will form part of the ultimate link with the Kenya and Uganda Railway systems.

STORM STILL RAGING ROUND BRITAIN.

(Continued from page 1.)
at some stage several hundred miles of the West coast of England. The highest was lost in the night.

Several vessels disabled owing to damage to steering gear sustained en route from their ports during the night.

Other's Reported Disabled.
Several vessels, during the storm, have been down by a small cutter "Keweenaw" which has not been sighted since. It is reported that the cutter was seen by the crew of the "Keweenaw" in the night.

THAMES RIVER SERVICE.
London, December 8.
A gale, which was at its height on the 28th day of the storm, the first boat on the Cross-Channel service for some days, the "Maid of Orleans" left Folkestone this morning in the teeth of a 50 gale in four gale force. It has returned from Dover.

Shipping Companies.
London, December 10.
Damage amounting to 100,000 tons shipping are already widely expected to be done during the past week's gales, but further information is not yet available. It is estimated that although the losses are heavy, they are likely to be offset by the maintenance with the violence of the gales. All companies are expected to report the next weather that they have ever experienced.

Island Anticlimax.
Several fatal accidents due to the wind occurred on land, and three people suffered serious injuries through the collapse of a chain steeple in Glasgow during a severe hailstorm from Folkestone and other towns interrupted and not in the same way.

The total number of vessels in the United Kingdom, which is a total of 10,000, is a total of 10,000. It is some months since this has been discontinued in consequence of the war.

WEATHER REPORT.

SEAPL TO MASAI CATTLE AFFRAY.

(Continued from page 9.)

was all done by, fired a shot over their heads.

The Masai Story

The Masai story was that the older, able, who had to wait for the cattle, saw that the Masai were with the lead, and he saw two women who had got up with the animals that they crying out. On being joined by the Masai and three other men who had been with the lead, the Masai were told to lead the Masai to the river and had them work towards the Pulve with the women's cry, all five of them went towards the Pulve with the women's cry, all five of them went towards the Pulve with the women's cry...

A Police Statement

I have already recorded that I believe the Masai season. Distinctly, the reason, the Masai story was that there was no one with the lead, and that they were with the lead, and that they were with the lead, and that they were with the lead, and that they were with the lead...

of the car, took a rifle from a Masai and fired a shot at an Masai man, which shot struck the Masai's chest, killing him. The Masai man who was shot was the only one of the Masai who was shot...

My Lady

My Lady is a new product of the Masai women, which is a fruit of the Masai women, which is a fruit of the Masai women, which is a fruit of the Masai women...

COUNTRY CUP CRICKET.

Commercial Defeat by Police.

CAIRNS OBTAINS A HUNDRED WICKETS.

(Overseas).

A last test was made with the Country Cup match on the Talou ground on Saturday. Commercial, who had 83 runs in the first match, was again the batting force, but this time it was the Police who were the batting force. Cairns, who was out at 100, was again the batting force. The Police opened with Spicer and Lavy in the bowling of Levy and Edwards. Lavy was out after making a couple of strokes, well caught by Cohen at point. Cairns and Spicer then carried on till an appeal was made against the legs and stumps were down for the day.

The Police opened with Spicer and Lavy in the bowling of Levy and Edwards. Lavy was out after making a couple of strokes, well caught by Cohen at point. Cairns and Spicer then carried on till an appeal was made against the legs and stumps were down for the day.

They did not remain till nearly 3 o'clock on Sunday owing to the sudden onset of the general. Cairns steadily bowled Cairns and Spicer gradually increasing their score, the former doing the majority of the run getting. At 100 Cairns was caught attempting to take a ball by the leg pads by 7 runs to put on a hundred for the second wicket. While the fall fell rather rapidly. First after getting a wicket 7 or 8 balls was caught by Levy. Three further wickets fell with the score at 115, Spicer being out, and Gill and Pugh being dismissed without scoring. Handcock and Bland, who, however, made a nice stand until 150. Only caught by Thomas, the score was taken to 150 before the innings was declared closed owing to the absence of the remaining Police batsmen.

EUROPEAN SCHOOL CRICKET.

English Beaten by 47 Runs.

LARRY'S FIRM KNOCK FOR WICKETS.

The School played the last match of the term on Saturday and defeated the Kongonis on the Graham's Club ground by 47 runs.

The School batted first and Larry and Thomas put on 56 for the first wicket. Andrew Thomas was caught by Heinicke of the H. D. Hill after having made 47. Saturday was Thomas's last day at School and he ended a very promising season in a very fitting manner; he will be missed very much next term.

Green was out second at 110 and after that wickets fell rapidly and the innings closed at 175. Thus the Kongonis had 175 to make in the last 40 or 45 minutes, and they were well in front of the clock when their third wicket fell at 40, but the following batsmen were dismissed:

In most efforts to have the past, the wicket were down for 40, and then Graham and Murray looked on though they were going to play and then, last to two over Murray was caught at the wicket. "Chief" was run out and Phillips batted. With the last man in there was time for four more overs, and last on played the batting unshakably well with the last ball, but on the social, Green bowled Major Graham.

"DISQUIETING AMOUNT OF MALARIA."

Colonel James' Statement on Enquiry Results.

COMPULSORY NOTIFICATION IN TOWNS.

Houses Necessary Before New Settlers Bring Families.

Publication of the report which the Malaria expert, Colonel James, will make to the Public Office following his investigations in Kenya, is given by a preliminary memorandum placed before Legislative Council members.

Colonel James declares that his survey leaves him with "the disquieting impression that the amount and character of malaria in Kenya is serious" and that mosquitoes here is surprisingly frequent.

His report indicates that the incidence of malarial fever in the Colony open to the danger of epidemic outbreak.

Among the recommendations of his final report, Colonel James says indicates: A Malaria Survey, a proper research organization, compulsory notification in Nairobi, legislation to enforce landowners or proprietors of houses to prevent mosquito breeding.

As far as farms are concerned he stresses the importance of increased houses and the lease of quinine to native employees.

In a reference to new settlers, Colonel James says that proposed settlements areas be surveyed, that landholders settlers be informed of the probability of malaria and instructed accordingly and a wet settler should not be accompanied by wife or children until he has been able to provide a properly screened house.

As far as the Native reserves are concerned, the chief recommendation is the institution of Walter Gathoni to improve economic and social conditions.

PROBLEM OF THE RESERVES.

A preliminary statement issued in Kenya regarding malaria in Kenya has been addressed to Legislative Council members by Mr. F. James, the white paper available on the subject.

Mr. James' report, which is a memorandum of the Government of Kenya, some of the recommendations of the report are as follows: The amount of malaria in Kenya is serious, and the incidence of malarial fever in the Colony open to the danger of epidemic outbreak.

Among the recommendations of his final report, Colonel James says indicates: A Malaria Survey, a proper research organization, compulsory notification in Nairobi, legislation to enforce landowners or proprietors of houses to prevent mosquito breeding.

As far as farms are concerned he stresses the importance of increased houses and the lease of quinine to native employees.

In a reference to new settlers, Colonel James says that proposed settlements areas be surveyed, that landholders settlers be informed of the probability of malaria and instructed accordingly and a wet settler should not be accompanied by wife or children until he has been able to provide a properly screened house.

As far as the Native reserves are concerned, the chief recommendation is the institution of Walter Gathoni to improve economic and social conditions.

Total £6,026,474.

The tobacco crop for the year 1927-8 in Southern Rhodesia is estimated to be 24,201,201 lb. of Virginia and 453,000 lb. of Sun leaf. Owing to certain returns not having been received by the growers these figures can only be taken as substantially correct. Seasonal conditions were very favourable during the planting period, and lack of rain in certain areas, although the very great majority was the cause of a considerable loss in both the quality and quantity of the crop in spite of this, however, the total yield is said to be 30 per cent above the normal previous year.

GRATIFYING PERFORMANCE

Because it is typically Chrysler-engineered, De Soto Six has achieved an admirable record of economy and durability. It has earned the praise of thousands upon thousands of owners by its gratifying performance, its handling ease, and its low cost of operation and maintenance.

In addition to its ability to perform and keep on performing, it is stylish and comfortable. Chrysler-designed weatherproof hush assure exceptional safety.

De Soto Six performance makes that price of ownership which is the first essential of present-day motoring and which is so characteristic of all Chrysler-built cars. A demonstration is convincing proof.

ANNOUNCING A VARIETY OF COLORS on the Chevrolet Six at no extra cost!

In keeping with the progressive policies that have carried Chevrolet to record-breaking heights of success - the new Chevrolet Six is now made available in a wide variety of colors at no extra cost. Still further enhancing the beauty of the marvellous bodies by Fisher, their striking new colors give to the Chevrolet Six an order of smartness unapproached in any other low-priced car in the world. And when you drive the Chevrolet Six, you will realize that its performance is equally as outstanding as its beauty. It flashes away at the traffic signal. It tops

the steepest hills with an abundant reserve of power. The clutch which responds to your slightest touch. And the quiet, non-lookup four-wheel brakes give you, unusually quiet and positive in action. But most impressive of all, this six-cylinder car is available in the price range of the four, with economy of fuel of less than 24 miles to the gallon of gasoline. Thus anyone who can afford any automobile can now enjoy most excellent Chevrolet Six performance! Come in to-day. See this sensational Chevrolet Six in such new colors.

The Roadster, \$238; The Tourer, \$258; The Coupe, \$280; The Sport Coupe, \$270; The Sedan, \$278; The Imperial Sedan, \$288; The Box Body, from \$200. The 114-ton-Dulley Coach, \$185

DISQUETING AMOUNT OF MALARIA. (Continued from page 1)

It is stated that the disease does not attack the general population of the country, as taken into consideration.

A Malaria Survey. Now I will pose queries to the general public which I think I shall give my report. Moreover, I will come on terms, on the following, and in better measure, any notice in my report will have a number of important subjects of a more general nature.

One of these is the necessity of continued research on a pure malarial infection. On this subject I have made it as plain as I can make it for the "Malaria Survey of Kenya" which will have no deviation to facilitate a systematic way during my stay in and out of the country. I have also devised to facilitate a systematic way during my stay in and out of the country. I have also devised to facilitate a systematic way during my stay in and out of the country.

On the Term. The term "malaria" is defined as a disease of the human body, in which there is an infection of the blood by the parasite Plasmodium. It is caused by the bite of a mosquito which transmits the parasite from one person to another.

To obtain these results it will be necessary to repeat a series of field observations. I shall say, in effect, what I shall do in the survey. I shall say, in effect, what I shall do in the survey.

At various intervals in terms I shall say, in effect, what I shall do in the survey. I shall say, in effect, what I shall do in the survey.

which settles in this category. The first of the malarial parasites is the one which is most common in the tropics. It is the one which is most common in the tropics. It is the one which is most common in the tropics.

(1) It is stated that the disease does not attack the general population of the country, as taken into consideration. (2) It is stated that the disease does not attack the general population of the country, as taken into consideration.

(3) It is stated that the disease does not attack the general population of the country, as taken into consideration. (4) It is stated that the disease does not attack the general population of the country, as taken into consideration.

(5) It is stated that the disease does not attack the general population of the country, as taken into consideration. (6) It is stated that the disease does not attack the general population of the country, as taken into consideration.

Malaria in Kenya. Malaria is a disease which is widespread in Kenya. It is caused by the bite of a mosquito which transmits the parasite from one person to another. It is a disease which is widespread in Kenya.

LEGISLATIVE COUNCIL OF TANGANYIKA.

Criticism of the Control of Military Affairs.

Resettlement Policy Urged.

Government's Lodge to be Built at Arusha.

Members of the problem and responsibility of the Inspector-General, K.A.R. M'Kwinda, to the Tanganyika Legislative Council by Colonel Lawford, M.C. Kenyatta, who declared it to be wrong that the Inspector-General, without experience or knowledge of the special conditions, should be regarded as chief adviser to the Secretary of State.

Mr. Macdonald M'Kwinda urged the need for a virile and settled settlement policy.

It was also contended that an insufficient part of the reserves was being devoted to development.

The Government's Lodge will be built at a cost of £4,000.

Members have accepted a proposal for an enquiry into the Lake Tanganyika Territory.

Members have expressed the hope that Sir Donald Cameron will be allowed to extend his tour of the Congo States in order that he may return the ship through the territorial waters.

DONALD CAMERON'S TOUR.

Mr. Donald Cameron, Chief Commissioner of the Congo States, is expected to return to the Congo States in order that he may return the ship through the territorial waters.

Members have expressed the hope that Sir Donald Cameron will be allowed to extend his tour of the Congo States in order that he may return the ship through the territorial waters.

Rains in Kenya.

The Government accepted a proposal made by Major Lord for a committee to investigate the conditions and conditions involved in the working of the Tanganyika Legislative Council.

Members have expressed the hope that Sir Donald Cameron will be allowed to extend his tour of the Congo States in order that he may return the ship through the territorial waters.

States of Roads in Nairobi Area.

Members have expressed the hope that Sir Donald Cameron will be allowed to extend his tour of the Congo States in order that he may return the ship through the territorial waters.

Members have expressed the hope that Sir Donald Cameron will be allowed to extend his tour of the Congo States in order that he may return the ship through the territorial waters.

Resident Native Labourers.

Members have expressed the hope that Sir Donald Cameron will be allowed to extend his tour of the Congo States in order that he may return the ship through the territorial waters.

Members have expressed the hope that Sir Donald Cameron will be allowed to extend his tour of the Congo States in order that he may return the ship through the territorial waters.

A Fencing Scheme.

Members have expressed the hope that Sir Donald Cameron will be allowed to extend his tour of the Congo States in order that he may return the ship through the territorial waters.

Members have expressed the hope that Sir Donald Cameron will be allowed to extend his tour of the Congo States in order that he may return the ship through the territorial waters.

Project at Londiani Cancelled.

Members have expressed the hope that Sir Donald Cameron will be allowed to extend his tour of the Congo States in order that he may return the ship through the territorial waters.

Members have expressed the hope that Sir Donald Cameron will be allowed to extend his tour of the Congo States in order that he may return the ship through the territorial waters.

Electric Power Supply.

Members have expressed the hope that Sir Donald Cameron will be allowed to extend his tour of the Congo States in order that he may return the ship through the territorial waters.

Members have expressed the hope that Sir Donald Cameron will be allowed to extend his tour of the Congo States in order that he may return the ship through the territorial waters.

THE EAST AFRICAN STANDARDS.

CARRYING OF ARMS BY NATIVES.

New Measure to Deal with.

A Bill to amend the Native Areas Ordinance which will allow the Legislative Council to amend the Ordinance in relation to the carrying of arms by natives.

The reasons for the introduction of the amending Bill is that certain cases have occurred in which natives carrying arms have caused trouble in a manner dangerous to the peace and good order of the Territory.

The Bill will recognize the fact that the carrying of arms by natives is a necessary part of their life and that the carrying of arms by natives is a necessary part of their life and that the carrying of arms by natives is a necessary part of their life.

LABOUR LEFT WING DEFEATED.

The Legislative Council will vote on the bill to amend the Native Areas Ordinance which will allow the Legislative Council to amend the Ordinance in relation to the carrying of arms by natives.

The reasons for the introduction of the amending Bill is that certain cases have occurred in which natives carrying arms have caused trouble in a manner dangerous to the peace and good order of the Territory.

The latest news in regard to Teddy Fitzhugh's fight is that he has been offered by Mr. Alf Dickson a match for £2,000 with the privilege of 25 per cent of the gross gate to meet the American heavyweight, Heavyweight in a 12 round contest at the City in the second week in December.

The NEW ROYAL... Observe the deeply notched tread with its big blocks of toughened rubber. Mark the narrow tread contour which assures easy steering and note the heavily reinforced side walls. HERE TRULY IS A TYRE WHICH IS WORTHY OF ITS ROYAL NAME--A TYRE THAT SETS A NEW STANDARD BY WHICH ALL TYRE PERFORMANCE AND MILEAGE MUST BE MEASURED. CARR, LAWSON & CO. LTD., ELDORET, NAKURU, NAIROBI, KITALE, KAMPALA.
