KOHLERS

THE Byrd Antarctic Expedition, the largest and most completely equipped Polar Expedition that has ever been organized, selected Kohler Electric Lighting Plants to furnish electric light and power during their long stay in the South Polar regions.

No expense was spared in selecting the finest equipment obtainable in the world for this Expedition: Experienced engineers and practical men chose Kohler Electric Plants in preference to any other make because of their greater reliability and economy of operation in their location thousands of miles from civilization. Two Model K. electric lighting plants provide emergency electric power and light on the supply ship "Elinor Bolling" and two others provide the sole source of power for radio and light at the main base on the Polar ice. These plants are identical to those which are at present in operation in this country at the Eldoret Hotel, Pioneer Hotel, Kitale Hotel and the Mountains of the Moon Hotel.

the course of the last of Sir Artime Conan Doyle's lectures in Naisobi delivered in the Theatre Royal on of the slides made from Sir Atthur's need treasured and world-fanous collection of payche physical payches an aid house in Lingland and which, according to the localizer, possessed a hard and wicked face, the face of \$2000 whom no would not wish without to be a con-in a dark corridor.

Sir Arthur was interrupted at this point by the "ghest" itself who proved to be none other than the well known. Naroh, dentist, Mc. A. H. Spenger.

This was perhaps the most striking incident in an interesting lecture which dealt notify with psychic materialisations and which also included to the large audience the famous fairy photographs.

UPLANDS NEWS!

SUPPLIES OF PIGS: These continue to be very nu merous For many reasons (including that of the present cost of Maize) we are using every endeavour to maintain the current price of 55 cents per lb. dead weight. Our greatest difficulty is that farmers continue to deliver unfinished, immature pigs, which are not ready for slaughter and conversion into best quality Bacon. The object of this notice is to urge Bacon. The object of this notice is to trige upon farmers, the absolute necessity of sending as nothing but PRIME-QUALITY BACON PIGS, i.e., well bred and fed animals that dress out from 140 to 180 fbs.
