THE MOMBASA MEETING.

(Continued from page 15.)

The meeting was purely commercial in character. It was not a political gathering. It was not a gathering of the public. It was a gathering of the business community. It was a gathering of the business community.

MOMBASA PUBLIC MEETING DISCUSSES CLOSER UNION.

Economic Issues Should be Freed From Political Handicaps.

DISAPPOINTMENT OF ELECTED MEMBERS' CABLE.

Up-Country Legislators' Spirited Appeal for Co-Operation in the Colony.

Four Elected Members, including two from the Highlands area took part in an important discussion of the HULLING COMMERCIAL REPORT in Mombasa on Friday evening when a public meeting was largely attended. A resolution was proposed and adopted at the meeting that the Council of Mombasa welcoming the early appointment of a High Commissioner as suggested by the Report and while admitting that the Colony was not yet ripe for the formation of a responsible government deprecating any attempt to close the door against such future aspirations. The resolution, however, emphasised that close economic union should not be held up on account of any political issues which should be reserved for later discussion.

A further resolution was adopted dissociating Mombasa electors from the cable recently sent by the Elected Members and the Convention Executive to London and disapproving of the "threat of vigorous action" stated to be contained therein.

The Honourable Conway Harvey made an earnest appeal to Mombasa for co-operation in the defence of the interests of the Colony. He warned the commercial community of the dangers of economic progress without political backing and desired the Mombasa members of the "vigorous action" as meaning any sort of unconstitutional procedure.

Antarctic Explorers select KOHLERS

THE Byrd Antarctic Expedition, the largest and most completely equipped Polar Expedition that has ever been organized, selected Kohler Electric Lighting Plants to furnish electric light and power during their long stay in the South Polar regions.

Experienced engineers and practical men chose Kohler Electric Plants in preference to any other make because of their greater reliability and economy of operation in their location thousands of miles from civilization. Two Model K electric lighting plants provide emergency electric power and light on the supply ship "Elmor Bolling" and two others provide the sole source of power for radio and light at the main base on the Polar ice. These plants are identical to those which are at present in operation in this country at the Eldoret Hotel, Pioneer Hotel, Kitale Hotel and the Mountains of the Moon Hotel.

Spiritual Leader's Last Views on His Kenya Day.

In an interview with a special correspondent of the "Standard" at Mombasa on the eve of his departure, Sir Arthur Doyle said his plans for participation in the General Election on behalf of a political party were still undecided.

He declares that a quarter of a million votes will go to the party willing to alter the present laws. He thinks the Labour Party will be able to give a pledge.
