KENNEL NOTES by Margaret Collyer

After a whole week of constant... Margaret Collyer, Oh! in whom all sympathies in connection with "Human Nature" should be interested, does not hold herself responsible for conveying any such news, which are, of course, based on information supplied by her correspondents.

Not a Hospital. Writing of a male dog, remember that I only had managed having a call of some sort to my kennel by a gentleman who I called the letter I received from the agent of my dog's previous condition. I feel sure I was wrong in saying they could be brought into this country.

no candidate whatever would I allow a dog with strange on my face if I could possibly prevent it. I value my own dog for his nose.

As a matter of fact and because of the amount of writing required to do this, I have no time to do so. I have no time to do so. I have no time to do so.

It is a very serious matter, and it is a very serious matter. It is a very serious matter, and it is a very serious matter. It is a very serious matter, and it is a very serious matter.

**THE MAIZE CROP**

UPLANDERS OVERESTIMATED

The Kikuyu Farmers Association at Kitale report from the advances to the maize-handling firms. The new crop has been taken over at 20s and 21s per bush. It should be in actual operation in the course of a few days.

The reaction in the amount of the Kikuyu Farmers Association for a bag of 56 lbs has been reduced to 17/6 per bag from 18/0. This, though not unexpected, is disappointing and many farmers must be regretting the day when they refused 8/11 and over four months ago. At the beginning of the season. Quite a number of men have since received an advance from the S.P.A. of 10/- per bag in addition to the price of the maize and of having to return 10/- per bag. Nevertheless, provided there are no further reductions, the K. F. A. member has secured, as Sir G. is considerably in excess of today's export market value.

**Roads.**

The District is likely to get a grant of £200 towards the repair of roads which have been so severely damaged by the abnormal rains. The District Council has done all that could be done in the way of having roads open under a grant of £100 and of having a grant of £100 to Mr. Tait, the Engineer to the Council, for the manner in which the problem has been tackled.

**Water Supply Scheme**

The report prepared by an eminent last year on the details of the Kikuyu water supply was apparently too good to last, and nothing has been heard of the scheme for some time. If it were not for the fact that the material is on the spot, the scheme might have been postponed with advantage until the arrival of letters about, and the

money allotted for some new building project. In Kikuyu, the Government and the Kikuyu Improvement Committee are expected to hold their meeting on Monday, and the Kikuyu Improvement Committee is expected to be held on Monday.

It is significant that 9 out of 10 people who ride in a Four and a Six say there's a world of difference—and they prefer a Six. Have you made this test?

Then compare values—and you'll see that a Chevrolet Six gives you big car features and advantages, and costs no more to own and operate than a Four.

No wonder that one and a half million Chevrolet Sixes have been sold!

We'll gladly take you for a free ride—and prove these things in half an hour. Before you decide to buy any other low-priced car—make this test.

**PROVES THE VALUE OF KOMO.**

For many years past eminent Medical Authorities have been investigating the merits of spraying fluids as a means for the destruction of Flies and other disease-carrying Insect Pests.

Quite recently the South African Institute for Medical Research conducted a series of experiments in which were tested a number of spraying fluids, and in making this investigation the efficiency of KOMO as an insecticide was taken as the minimum standard at which to start.

It was found that some 31 fluid ounces of KOMO—the quantity suggested by the Manufacturers—definitely kills every fly in a room of 1,500 cubic feet within three hours from spraying."

ALTHOUGH NO LESS THAN THIRTY-THREE LIQUID SPRAYS WERE USED IN THESE EXPERIMENTS, KOMO GAVE BY FAR THE MOST SATISFACTORY RESULTS.—"Vide" Journal of the Medical Association of South Africa," July 29, 1927.

MEMORANDUM ON THE NATIVE POLICY.

Assurance by Kenya Government.

OUTSPOKEN CRITICISM.

Desire by Colonists to Obtain Control of Policy.

Some critics of the spirit animating the preliminary note to the Memorandum on Native Policy...

Government gave an assurance that so far as it is concerned no change would be made in the Memorandum on Native Policy without reference to the Legislature.

Selected Member considered that the note to the Memorandum showed a definite spirit of malignity against the policy of the white settlers.

Mr. Conway Harvey emphasized that the desire to obtain control of policy but did with an opportunity for consultation and discussion.

A CLEAR AFFIRMATION.

The riding qualities of these cars are superior. Their long wheelbase, low center of gravity, Loveloy double-acting hydraulic shock absorbers and new spring suspension set new standards of ease and comfort.

Their driving comfort is equally superior. No road shocks can be transmitted through the steering gear, because of the special road shock eliminator.

These are some of the many advantages possessed by the brilliant new Buicks—the proudest creations of America's foremost builder of the motor cars.

Decision of the Colonial Conference.

SINGLE CIVIL SERVICE.

Wide Range of Subjects Under Debate.

The Colonial Conference has concluded and the Secretary of State in a final survey reviewed the wide field of its operations.

Unification of services has been the keynote of the discussions.

The most important decisions are the creation of a single Colonial Civil Service, and of a unified Colonial Agricultural Service to which all the Colonies will be asked to contribute.

FISHERY POSSIBILITIES.

Kenya's possibilities in the fishery resources of the Indian Ocean have been discussed at the Colonial Conference.

Among the matters discussed was the question of the unification of the fisheries of the various Colonies.

The Conference also considered the question of the unification of the fisheries of the various Colonies.

It was decided that the Secretary of State will be asked to consider the possibility of a unified Colonial Fisheries Service.

LABOUR UP AGAINST ANOTHER CRISIS.

At Loggerheads with the House of Lords.

COAL MINES BILL KILLED.

The Labour Government is being another crisis.

The Coal Mines Bill, one of the chief industrial measures, which has already been in jeopardy and was only saved by Labour's Conservative opponents, has been rejected by the House of Lords.

The Commons adheres to the principle of a seven and a half hours day. The Labour Government, the members of the House of Commons, who are in favour of a seven and a half hours day, are in a minority.

THE THIRD REJECTION.

LONG DISTANCE FAILURE OF  
NAIROBI.

The "E. A. Standard" has arranged for the regular publication of a wireless page. These articles, written by Mr. Lionel J. Hughes, a well-known Kenya radio authority, will appear weekly.

Weather conditions have changed little during the week and there is every likelihood now to report on the high temperature days which "E. A. Standard" mentions were the start of a series of hot days. The atmosphere is being heated by the sun and the temperature is being raised to a point where it is almost impossible to get any work done. The weather is so hot that the sun is shining down on the ground and the air is so hot that it is almost impossible to get any work done. The weather is so hot that the sun is shining down on the ground and the air is so hot that it is almost impossible to get any work done.

The North is being unable while the South is being unable to do any work. # NOVELS

FROM THE  
**MAY & CO. LTD.**  
STANDARD STATIONERY STORES. NAIROBI

The riding qualities of these cars are superb. Their long wheelbase, low center of gravity, Lowjoy double-acting hydraulic shock absorbers and new spring suspension set new standards ease and comfort.

Their driving comfort is equally superior. No road shocks can be transmitted through the steering gear, because of the special road shock eliminator. The Buick controlled Servo-Inflection-expanding brakes are the best four-wheel brakes yet designed. The Fisher springing VV windshield is completely non-rattle, adding greatly to the safety and comfort of night driving.

These are some of the many advantages possessed by the brilliant new Buicks—the product creations of America's foremost builder of fine motor cars. They need with Buick engineering and building finesse into a luxury that completely satisfies the most exacting connoisseur and brings a new delight to motorists who have not experienced it. Money can buy no more.

**SPRING RULE.**  
A RPT. RULE THAT CAN BE CAERIEH IN THE PEST.  
THE **SPRING RULE** IS a combined & foot rule:  
it's feet long graduated at a pitch within the reach of  
all. It is neither a key nor a wretched instrument, but is  
the most compact measuring instrument of the kind.  
THE **ACTION OF THE SPRING RULE** is simple &  
easy. It is always instantly and mechanically  
made accurate. It never loses the 1/4 of an  
inch at a high and it is always within the  
margin of error.  
THE **SPRING RULE** IS FOLDED OUT straight from  
its case without likelihood of any error and the required  
length of rule is measured in it in its extensibility  
retained at that length.  
THE **SPRING RULE** IS RETURNED TO ITS CASE  
by simply pressure on a push button. It is adaptable to  
control the progress of the Rule into the case with one  
hand.  
THE **CARE OF THE SPRING RULE** is heavenly almost  
planned, and fits comfortably into its leather dust  
pouch without any protruding parts.  
THE **MAKING OF THE RIB** is fat, lustrous and elastic.  
Its feet is knurled, each foot made on vernier-like  
and the feet serve is repeated at every three inches in  
conjunction with our well-known "Quick Reading"  
method.

**THE FINAL OUTLOOK.**  
Some anxiety the price of  
Albania steel has fallen from  
10 to 10.75 per ton. Plans for  
the future are still being  
discussed. The Ministry of  
Finance has issued a  
circular stating that the  
Government will not  
interfere with the  
operation of the market  
and will not attempt to  
fix the price of steel.  
The Ministry of Finance  
has also announced that
