CONTEST FOR AMERICA CUP.

"Shamrock" Beaten in First Race.

A NARROW MARGIN.

"Enterprise" Equipped with Many Mechanical Devices.

The first of the series of seven yacht races for the America Cup, between "Enterprise" and "Shamrock," took place on Newport, Rhode Island, on Saturday. The result of the first race was a win for the "Enterprise" by a margin of about three minutes.

There is intense interest in the series of races, and people from all parts of America have been pouring into Newport to witness the races. The most friendly rivalry exists between the crews of the two yachts.

While the proportions of the yachts are exceptionally large, there is a good deal of difference in design. The "Shamrock" follows conventional lines and her sails are hand handled except for one which for the main hauler. The "Enterprise" however, is called a cutter, but is really a type of sloop with numerous mechanical contrivances. All her ropes and wires are taken below deck and run through the exact strain on all wires, while the darwinium mast is a ton lighter than the mast of the "Shamrock."

A "CLOCKWORK BOAT"

(By wireless.)

Extensive interest is taken on the side of the Atlantic in the numerous events of Rhode Island and when the first of the series of races for the America Cup was held on Saturday. The "Enterprise" and the "Shamrock" were the two yachts which took part in the contest. The "Enterprise" is a mechanical wonder, and the "Shamrock" is a conventional yacht.

The "Enterprise" is a mechanical wonder, and the "Shamrock" is a conventional yacht. The "Enterprise" is a mechanical wonder, and the "Shamrock" is a conventional yacht.

The weather which prevailed on the afternoon of September 13, British summer time, thousands are flocking to Newport, Rhode Island, to witness the first of the series of races for the America Cup. The "Enterprise" and the "Shamrock" were the two yachts which took part in the contest.

The "Enterprise" is a mechanical wonder, and the "Shamrock" is a conventional yacht. The "Enterprise" is a mechanical wonder, and the "Shamrock" is a conventional yacht.

Reports are divided as to the chances of the rival crews. The "Enterprise" is a mechanical wonder, and the "Shamrock" is a conventional yacht. The "Enterprise" is a mechanical wonder, and the "Shamrock" is a conventional yacht.

OUR WOMEN'S PAGE.

A Letter from Paris.

(By Odette Rouss).

is followed by everyone, for it is elegant and refreshingly "new" after having been put aside for many seasons.

Dark-tinted Shantung is being used for suits destined to be worn in the sunny South. There are frocks with bloused bodices, fitted slip-linings and well-stitched pleated skirts. They have sleeves half-way to the elbows and elegant neck-lines, both finished with softly frilled white muslin which, in turn, is edged with finely rolled raspberry-pink, scarlet or orange mullin, or else with very narrow lace.

There are also blousing suits with pleated skirts, short jackets and blouses of plain or spotted white muslin, or of very fine white linen. Thin blouses are made on jumper-line sleeves with V-shaped necks. A narrow tie may be pulled through two slots in front, and a monogram, or some amusing motif, is often embroidered on the right side to lend a touch of colour.

Evening Dressing

A useful ensemble comprises a frock of navy-blue silk marocain and a simple coat of wool material in the same colour. The dress—blouse and skirt—has a belt of the material. The marocain waist is evenly pleated, marked by a belt, although the tone of bodice and skirt may be at the hips or below them.

Rose and Navy

The alliance of rose-pink and navy-blue is even more happy than that of rose and black, but of navy-poseidon-blue with have been looked upon as the best for the sea; across the forehead, handkerchiefs, or across the top of the neck. Rose and navy velvet ribbons twisted together form another favorite trimming for many or natural, pastels. The only time in which navy is not welcomed, is at the evening. One or two low line gowns in this colour have been shown, but they do not look attractive.

Coupe de robe showing warm tones in a pale yellow ground, a delightful dress for afternoon occasions. The little round yoke of pale yellow pique, and the last is navy-blue velvet.

A frock for afternoon and informal evening wear is beautifully expressive in old wine red and of exquisite softness. The shoulder is a pleasing feature, as is the bloused bodice, while the new notion of a shapely full before the fitting hip-line is worthy of attention.

HOMEMADE CRACKLES

Ingredients: 1/2 lb. oat, yeast, 1/2 pint milk, 1/2 pint 4 thickened milk, 1/2 lb. flour, salt to taste, 1/2 lb. curaway or poppy seeds, for a little of each.
Crumble the yeast, add the milk very gradually, and beat well. Beat one egg, and add this, the olive oil and salt.
Sieve the flour, make a well in centre and pour in the yeast mixture. Beat the liquid, adding gradually and smoothly from the flour till a dough is obtained. Cover this with a cloth and let the dough sit a warm spot for about half-an-hour, then turn on to a well-floured board.
Take small pieces of the dough, roll out lengthways to obtain long rolls about half an inch in diameter. Twist these into figure eights, which are to be rolled rather shapes. Place on a well-greased tin. Beat up the other egg, coat the crackles well with it, sprinkle the seeds all over, and finish with a sprinkling salt.
Bake in a hot oven till brown and crisp.

Don't Neglect INSURANCE

The importance of the question of insurance is often overlooked, and it is often only when a disaster has occurred that the necessity of having adequate insurance is realized. It is a wise plan to have a policy of insurance covering all risks, and to have the policy renewed regularly.

HUNTER DISCOVERS AS GIANT FOREST HOG.
(Continued from page 1.)

The hog is very striking, the trunk being very short and stout to black, while the hams are covered with white shagreen of the kind which the remainder of the body is black. The forest hog stands about six feet high, the snout being four feet long.

Mr. Beardshead claims that the animal is a species of the genus *Sus*. The case is supported by the fact that the specimen was taken in the region of the forest, the body being covered with the same shagreen as that of the forest hog. In this instance, Mr. Beardshead's hog was unable to obtain photographs of the "Kary," but he brought down very good photographs of the skin and the skin of an animal the size of a hog. The latter examination has been given to it in light yellow. In appearance it is a light yellow. In appearance it is a light yellow. In appearance it is a light yellow.

Demogogus Rejoins.

HIS EXCELLENCY'S APPEAL FOR UNITY.

Address at Ceremony at All Saints' Cathedral.

OPENING OF NEW EXTENSION.

Laying of Foundation Stone of South Tower.

At the Cathedral of the Highlands, Nairobi, yesterday His Excellency the Governor laid the foundation stone of the South Tower and later attended a special service on the occasion of the opening of the new extension to the Cathedral building.

The ceremony was a most impressive one and was attended by a particularly large and representative congregation, including His Excellency the Governor, the Town Clerk, of Nairobi, and members of the Executive and Legislative Councils.

During the course of an address delivered from the steps of the Cathedral, His Excellency said the Cathedral stood for the unity of the Colony. Civilization was not built up by force of arms, but by the force of moral power, but by character and moral ideas, for which the Cathedral stood as a witness.

His Excellency also made a strong appeal for unity among all branches of the Christian Church in Africa. He hoped that the Cathedral stood for this unity. The position of the Church and State was a difficult one, but he referred to the teachings of St. Paul on the duties of Christians in this respect.

Canon Leakey preached the sermon and dealt with the question of paranoymy. He said that any policy would be wrong which pays any paranoymy in this country to one section of the community, or the unfair detriment of any other section.

AN IMPRESSIVE SERVICE.

His Excellency the Governor, presiding over the foundation stone-laying of the south tower of the Cathedral of the Highlands—All Saints, Nairobi—delivered an interesting address on the occasion of the opening of the new extension to the Cathedral. He said he gave voice to the hope that the Cathedral would stand for the unity of the Colony. He also mentioned the fact that the Cathedral was not only as useful as the community, but also as a witness to the world.

The National Anthem was sung by the choir. The service was very impressive and was attended by a large number of people. The choir was led by Mr. J. G. O'Brien, and the organ was played by Mr. W. J. Wright.

His Excellency, who was seated at the front of the Cathedral, was accompanied by the Town Clerk, Mr. J. G. O'Brien, and the Mayor, Mr. W. J. Wright. The service was held at 11 o'clock.

The laying of the stone was performed by His Excellency, who was assisted by the Mayor, Mr. W. J. Wright, and the Town Clerk, Mr. J. G. O'Brien. The service was held at 11 o'clock.

Join, these Empire Builders in recognition of this happy occasion, and a slight personal expression of regard and appreciation to the services to the Churches of the Colony rendered by the Cathedral, particularly in this Cathedral.

COOPERATION OF CHURCH AND STATE.

Reverend the Bishop, the Governor said he appreciated the gift of the stone, which was laid in the presence of the Mayor, Mr. W. J. Wright, and the Town Clerk, Mr. J. G. O'Brien. He also mentioned the fact that the Cathedral was not only as useful as the community, but also as a witness to the world.

The Dean has asked me to speak a few words before the morning service to-day about the ceremony, which was held last night. It is a difficult for a layman to speak at such a ceremony, but I am sure that the Cathedral will stand for the unity of the Colony.

His Excellency also mentioned the fact that the Cathedral was not only as useful as the community, but also as a witness to the world. He also mentioned the fact that the Cathedral was not only as useful as the community, but also as a witness to the world.

His Excellency also mentioned the fact that the Cathedral was not only as useful as the community, but also as a witness to the world. He also mentioned the fact that the Cathedral was not only as useful as the community, but also as a witness to the world.

His Excellency also mentioned the fact that the Cathedral was not only as useful as the community, but also as a witness to the world. He also mentioned the fact that the Cathedral was not only as useful as the community, but also as a witness to the world.

His Excellency also mentioned the fact that the Cathedral was not only as useful as the community, but also as a witness to the world. He also mentioned the fact that the Cathedral was not only as useful as the community, but also as a witness to the world.

WINCHESTER
TRADE MARK
FLASHLIGHTS AND BATTERIES

As Good as the Gun
If you know Winchester flashlights you know Winchester quality. And you will find the same fine quality in Winchester Batteries and Flashlights—a light adapted to every use, with special features of construction and appearance that no other flashlight gives.

In the three-color glowing flashlight shown above, note the simply construction, the deeply-etched case, the lens, the masterly adjustment which keeps the light from falling off a table when you lay it down. Note particularly the special lock-hanger by which you can hold your light to belt or pocket or to a reel, cord, automobile horn, two flashlight—and at many other points where a light cannot usually be hung.

When you think of Winchester, think of flashlight and batteries as well as guns.

SPORTS AND PASTIMES.

KENYA KONKONS ON TOUR.

Matches in the South.

INITIAL VICTORY OVER DOERING.

(Correspondent.)
Oxley, Surrey, August 15.
After three very disappointing matches, experienced on Sept. 1 during the month of July, we were all very grateful to Capt. Nicholson for arranging a further three games at Oxley, Dorking, and St. Leonard's Forest, the more so as the weather showed signs of improving, and there was very possibility of some warm cricket. The first match of the Southern Tour was against the Oxley club, captained by Capt. Nicholson, brother of our skipper for some years. The first innings were won by P. O. W. Wilson, G. C. Schofield, P. G. Nichol, and F. B. Taylor, A. V. Walsh, H. Wilson (Eden), G. Smith (Dyer), and R. J. Potter (Polles) arriving in full view.

On action at Oxley the first innings we heard was had new players, who were being relied upon to do a certain amount of bowing, reported that the right shoulder and would not be able to bowl, in view of the fact that he was not present at our attack and naturally going to be distinctly weak.

Col. Nicholson calling correctly

The Match Against Doering.

TOURISTS FIRST VICTORY.

(Correspondent.)
Sept. 17.
Of all the matches played in 1926 not one has our batsmen had more of the mastery of playing a wicked fast innings to compare with our own meeting of Doering at Oxley. There was no exception being distinctly in favour of a slow spin bowler, and Doering's batsmen, in addition to the best of that class, Capt. H. I. Blythe, who was opening the side was the best, so for the first time we had the privilege of having first, though on this particular matter it was a doubtful advantage. U. J. Rhodes and A. H. Symon-Thompson opened but did not remain long together, the latter being caught on slips before scoring. Rhodes was out soon afterwards, attempting to pull a ball too early.

It was finally held as a square leg 3 down for 7 in 20 minutes. Both Capt. Nicholson and Doering had won their match. Doering was caught at mid-off, it appeared in the opinion of the batsmen as "bumpish," but the batsman had no appeal; he was bowled, as later the umpire stated had been expected by his captain would have been "too out."

It did not end very long, but "Diggs" Allen and Wilson played well, and were out for 7 and 71 before Allen, with many little runs, got into his hundred. Wilson continued to bat well, but was dismissed by A. H. Symon-Thompson. Doering, Baker (D) Nicholson (D) and H. I. Blythe were all out, though the bowling was very excellent, though Potter and Nicholson, who had not been in a useful little last week's performance.

Doering commenced their innings after tea, but were all out for 102 and so we won the first match of our tour. Allen again bowled well taking 6 or 27 in the course of 40 runs.

KENNEL NOTES

Margaret Collyer

Miss Collyer, Obit., to whom all correspondence in connection with "Kennel Notes" should be addressed. Do not hold herself responsible for accuracy of statements made by her unless so, in the text, based on information supplied by her respondents.

Proof of Topsy's sudden death. I was sure that Topsy had been killed by poison of some sort. No one had been put down on the farm as dogs and cats are kept about the house and the only thing that could have destroyed a perfectly strong, healthy, sturdy dog in so short a space of time was some strong, healthy, sturdy medicine, poison, collapse of the lungs, and the only thing that would have caused the continued healing of her heart pointed straight to other sources.

WHEN YOU PUT OIL IN YOUR ENGINE advertisement with large stylized text.

The Church and Modern
Progress.

The resolution passed by the
Bishop of the Anglican Communion
in the recent Conference at
Lambeth would have been regarded
with amusement before the
war. We are on the whole of things
the way for the changes that
have taken place in the outlook of
men and women and especially
in the religious outlook of the
young generation. It is not
in strange days and among
strange things that we have
thought on the great problems that
we are now facing.

It is not strange that we have
thought on the great problems that
we are now facing. It is not
strange that we have thought on
the great problems that we are
now facing. It is not strange
that we have thought on the
great problems that we are now
facing.

It is not strange that we have
thought on the great problems that
we are now facing. It is not
strange that we have thought on
the great problems that we are
now facing.

It is not strange that we have
thought on the great problems that
we are now facing. It is not
strange that we have thought on
the great problems that we are
now facing.

It is not strange that we have
thought on the great problems that

CHURCH'S ATTITUDE TO MODERN PROBLEMS.

Birth Control on Christian Principles.

DIVORCE AND COMMUNION.

Striking Resolutions Adopted by the Lambeth Conference.

Resolutions were passed by the recent Lambeth Conference on the subject of Marriage, Sex, Birth Control and the home.

Resolutions were passed by a majority of 126 votes declared that where there is a clergyal birth moral obligation to avoid procreation, the method must be decided on Christian principles.

The Conference urged that questions of sex should be raised from their present degradation into a purely anatomical and their children should be enlightened regarding their duties.

The sanctity of the home received great emphasis and the sex of the children passing in the Eucharist Letters were "Empire has perished before but because the dry rot of idleness and corruption in home life has set in."

Divorce is condemned as unnatural, illegal unions are denounced.

In regard to Communion, the Bishops recommended that where an innocent party to a divorce had married and desired to receive Holy Communion, the case should be referred to the Bishop.

The Conference pressed for legislation against the exposure and sale of contraceptives.

THE SACREDNESS OF SEX.

After a serious session of nearly two days, the Anglican Bishops met in the morning to discuss the subject of sex.

The Conference believes that the Church has a right to speak on the subject of sex, and that the Church should be a moral authority on the subject.

The Conference believes that the Church should be a moral authority on the subject of sex, and that the Church should be a moral authority on the subject.

The Conference believes that the Church should be a moral authority on the subject of sex, and that the Church should be a moral authority on the subject.

The Conference believes that the Church should be a moral authority on the subject of sex, and that the Church should be a moral authority on the subject.

The Conference believes that the Church should be a moral authority on the subject of sex, and that the Church should be a moral authority on the subject.

The Conference believes that the Church should be a moral authority on the subject of sex, and that the Church should be a moral authority on the subject.

The Conference believes that the Church should be a moral authority on the subject of sex, and that the Church should be a moral authority on the subject.

The Conference believes that the Church should be a moral authority on the subject of sex, and that the Church should be a moral authority on the subject.

The Conference believes that the Church should be a moral authority on the subject of sex, and that the Church should be a moral authority on the subject.

CHURCH'S ATTITUDE TO MODERN PROBLEMS

(Continued from page 7). complete attention the Conference agrees that other methods may be used provided that this is done in the light of the Christian principles. The Conference of the strong conviction that the Church should not be more contentious. Conferred on the subject of the Church's attitude towards the modern problems of the world.

It is probable that the Conference will be more than satisfied with the results of its deliberations. The Conference has a number of proposals to put forward to the General Synod.

THE PROBLEM FACED BY AFRICAN BIG GAME.

What Numbers Should Kenya Retain?

THE REAL ENEMY. Importance of Visualising Needs and Conditions of Future.

The 1929 Report of the Kenya Game Department recently issued approaches the problem of future preservation from a new angle.

The Game Warden declares that the enemy of game now confronting the African fauna is development, not only in the form of the more primitive peoples.

The question now is how long vast quantities of game may be allowed to remain and what numbers is the Colony justified in retaining.

We must look," he says, "just as far as the possible, beyond the imagination and precedence will allow."

The Report contains some interesting remarks concerning the possible effects on natural instincts of the association of wild animals with domesticated species.

THE LAST ALBINO FAMILY.

Capt. A. T. A. Hilditch, the British officer in charge of Kenya has discovered the last public white man in the world.

"I have discovered in the fact that he has been discovered by the reputation of the British Museum which has been announced in the last annual report of the British Museum.

The White Hunter. In a paragraph dealing with poaching and illegal killing, Capt. Hilditch writes that he was a further discovery in the amount of the country.

Mr. F. H. Harper, Deputy Commissioner of the Kenya Government, has been appointed to succeed Mr. H. H. H. Harper.

The "Men of the Trees"
MOVEMENT SPREADING
IN BRITAIN.

["STANDARD" COMMUNICATOR].
London, Aug. 14.
Mr. Richard St. Barbe Baker, who some years ago was
Kenya Forestry Department, has
just come on to the "Times"
to his post subject, "The Men of
the Trees." The article is
entitled "The Men of the Trees"
and the author writes of the
importance of the "Men of the
Trees" in the country.

The primary function of the
country is educational, and we are
at present to improve the youth of the
country—especially those upon
whose shoulders the responsibility
of our Empire will rest—will
be trained to take up the work
of the country. It is the
responsibility of the country
to train the youth of the
country to take up the work
of the country. It is the
responsibility of the country
to train the youth of the
country to take up the work
of the country.

REDUCTION IN PRICE OF

The Kenya Quick Letter File.

For up-to-the-minute Filing Systems. This is one File.

- Illustration No. 1 shows the file with the papers already bound into the folder. Every paper is a folder for immediate reference.
- One of the great advantages of this file is that the margins are plainly visible, thus you have a complete reference to all details on the page.
- Remember, that you can remove or add any paper you wish without disturbing the other papers in the file. How papers are always in order—always ready—always handy. It is the one file which definitely supercedes any other file placed on the market.

The mechanism is fitted with sensitive rollers, so the rollers follow the curve of the paper and do not scratch or mar the paper and highly polished.

The only set that will fit all the illustrations of the Ken. Quick Let. File.—Production Cost: Quite low. Price: 2/6. Postage: 1/6. Total: 3/6. Sd. 2/6. Sd. 2/6.

MOTOR NEWS
From Road & Showroom.

GOODYEAR TYRE DEVELOPMENT.

Growth of a Famous Concern.

BENEFITS ACCRUING FROM ITS PROGRESS.

The manufacturer of motor
car tyres is a youthful industry.
Its development has almost
wholly taken the twentieth century,
and its most rapid growth
has been since the World War.
It is not remarkable, therefore,
that the factory of the Goodyear
Tyre and Rubber Company
(American Branch) Limited, situated
in Wolverhampton, England,
was completed as recently as
1927, or that the factory of the
Goodyear Tyre and Rubber Co.
(Ltd.) (Australia) Limited, at Syd-
ney, New South Wales, was
completed in the same year.

In Toronto, Canada, is situated
the tyre factory of the Goodyear
Tyre and Rubber Company of
Canada Limited, which is a separate
company—the Goodyear Tyre and
Rubber Company of Canada Limited,
at St. Hyacinthe—occupies the second
largest of the tyre produced by the
main Canadian factory.

An entirely different field of
manufacture is represented by the
Goodyear Mechanical Goods
factory at Roseville, California, U.S.A.
When a new Goodyear mechanical
factories plant is started in any
country it is interesting to note the
number of patents secured.

Latex is purchased from which
to build the factory. Materials
throughout the building labour is
employed. A new tool designer
comes into being. But these are
so many that the preliminary
drawings are not possible because
a permanent record of each pro-
cess. These facilities in turn
draw their substance from the
country. These facilities in turn
draw their substance from the
country. These facilities in turn
draw their substance from the
country.

Between five and six thousand
more motor cars are produced
annually in the world. The
percentage of English, Canadian
and Australian Goodyear
tyres—About £1,400,000 per year goes
into making for labour in these
factories alone.

Even the purchases of most of
the raw materials are made in
the United States.

These factories amount to a sum
of approximately \$60,000,000
per year, and such manufacturing
operations are accompanied by
other related manufacturing
operations. The total amount of
the investment, the increased business
of the United States, which has
materialized in the factories and lead
the finished products consumption.

Goodyear's Rubber Consumption.

One-sixth of the world's rubber
is consumed by Goodyear factories
throughout the world.

The total annual rubber in-
portations of the United States
amount to approximately 1,000,000
tons, and the majority of this
rubber—about 600,000 tons—is
obtained from the United States.

No better illustration could be
offered of the value which the
world has in Goodyear property,
than the fact that 80,000,000
tons of rubber from British posses-
sions in 1929 was sold to Goodyear
Tyre and Rubber Co. (Ltd.) (Australia)
Limited, at Sydney, New South
Wales.

It is naturally follows that the in-
creasing property of Goodyear
factories throughout the world will
reflect itself in the property of
the countries which claim Goodyear
as a customer for rubber.

Composition of the Tyre.

In the beginning it was pointed
out that Goodyear is dependent
upon many countries for its raw
materials.

Up to the present point, this
fact has been interpreted only in
terms of factories which build
other than the United States may
claim.

It is equally true concerning
the tyre factories in Africa, India,
Los Angeles, California, and
Guadalupe, Arkansas.

There are from about 3 to over
4 tons of cotton in every tyre, de-
pending on the car or commercial
vehicle used, and Goodyear fac-
tories throughout the world are
now producing 25,000,000 tyres
per year for motor vehicles alone.

The quality of the cotton fabric
used in these tyres must come to
an exceptional standard, for the
Superior cut fabric of Goodyear
Tyres is one of the dominant
factors in their long life and un-
surpassed safety.

Accordingly, all Goodyear fac-
tories use a good quality of
cotton fabric made from Egyptian cotton.

Throughout the world, their
annual consumption of the cotton
amounts to 25,000,000 lbs., re-
presenting total annual con-

sums estimated at \$2,300,000 for
the current year.

A Golden Rule of Business.

One of the oldest rules of busi-
ness is to deal with those whose
interests are the same as your
own. It is a good rule, founded partly
upon instinctive loyalty and part-
ly upon logic.

Applying this with this rule,
the whole of the Supermarket cut
and other cotton fabric consumed
in the English Goodyear fac-
tories is produced in the mills of
Lancashire. The American Goodyear
factory also uses English
cotton fabric exclusively. Practically all
of the fabric used in the Canadian
Goodyear factory is produced in
Canada.

Egyptian cotton is extensively
used. Thirty per cent. of the
cotton woven into fabric for
English factory is purchased in
England, while the proportion of
Egyptian cotton consumed in the
Canadian and Guadalupe factories
is even higher—forty per cent.

It is interesting to note that the
product of British plantation
factories and the product of British
plantations past and present
amounts to an amount estimated at
\$2,000,000,000, this year.

Cotton fabric, rubber and labour
on the principal factors of most
of the tyre manufacturers. In Goodyear
factories throughout the Empire
during 1929, the two materials
will represent approximately 80
per cent. of the total value of
manufactured products. Labour
will account for about 10 per cent.
There are 28 per cent. of the total
manufacturing cost to be credited
to the countries where
the tyre are made.
