MR. SASTRI'S PLEA FOR MALCOLMISTS.

Believes They Will Work in New Constitution. FEDERATION CONVERT.

Ex-Viceroy Gives His Views on Dominion Status.

The continuance of the debate at the opening plenary session of the Indian Round Table Conference was remarkable for a speech by Mr. Sastri who confessed himself a convert to the Federal Government proposal.

He believed that if a new constitution, approved by the Conference, was brought into being, the present Malcolmists forming the National Congress Party would co-operate.

While accepting that the natural issue was Dominion Status, Lord Bessing' thought it was wise to suggest that at the moment there could be anything less equally with the Dominions.

THE DEPRESSED CLASSES.

It is not possible to conceive of a new constitution without a provision to deal with the depressed classes. The Indian Round Table Conference was held by Mr. Sastri who said that the Government should take steps to improve the condition of the depressed classes.

Begin With Speech was warmly applauded.

Mr. Sastri's speech was warmly applauded and he was given a standing ovation. He said that the Government should take steps to improve the condition of the depressed classes.

Points for India

ESSENTIAL POINTS IN BREEDING

To the Editor, "E. A. Standard," Sir—My recent letter on the subject of breeding in the Indian cow has been published in your issue of the 21st inst. I have no objection to its publication in any form, but I have no objection to its publication in any form, but I have no objection to its publication in any form.

I think there is a great future for Kenya in the breeding of cattle. It is to be noted that the Government has been successful in its efforts to improve the breed of the cow in the Indian cow. KENNEL NOTES

Margaret Colyer

Miss Colyer, Ought to whom all correspondence in connection with "Kennel Notes" should be addressed, is held responsible for accuracy of statements made by her correspondents.

There is a letter from a correspondent who writes that she has a dog named "Bobby" who is very fond of going to the farm... Mrs. Spence's handsome dog to somebody, who whose name I cannot remember. I have heard that I saw in the last number of the "African" a notice that a dog which I had been mistaking as had had puppies to "Bobby," I have thought that I could have done this, although I am rather sure that I had seen some one who might be tried before anyone for such a deed.

With the exception of Spanish there appears to be a shortage of the various breeds of ten dogs in the Colony, and if a few good retrievers, setters, and pointers were imported, some penny or two would surely be well spent. Walter started a good lot of pointers and showed some very fine specimens, but they all seem to have disappeared. As for retrievers I never seem any more of any merit and only one or two rather indifferent ones. In my humble opinion, before either Irish or old English, would make quite a bit of splash out here, if they are sportsmen versed in and meet the right stuff in breed, form and color, and only good quality blood, but they are also extremely popular to look at and delightful companions.

I have heard from various parts of the country that there has lately been quite a bit of damage amongst the dogs. I feel sorry that such outbreaks of distemper should be traced to the importation of dogs from England, and if only the B. A. Kennel Club would take the matter up seriously, it could easily be stopped and the disease entirely stamped out in a very few days. I am sure it would be possible to get a law passed that dogs brought out to Kenya must have been inoculated by a licensed agent, and a qualified Veterinary Surgeon, or certified as being pure.

possibly because it has no other kind that a treatment that will benefit the dog, but it always benefits the dog, in which case the present would probably be beneficial. There is a short article on the treatment of the rabid animal, by Mr. White-Ross, who has had some experience in all sorts of animal work. Mr. White-Ross says that Mr. Mallett has had two or three dogs which he has treated, and has been very successful. For the last time I have been getting them in 50 lots for my own dog. I can give you some experience I probably think quite excellent and my dog is very happy. There is nothing better for a dog's comfort than that they breed and afterwards a drink of milk. I can see nothing to do with them will be sufficient to make it worth while for the firm to continue manufacturing them. For years we have been buying for a good cheap dog. I can give you some experience I probably think quite excellent and my dog is very happy.

The Railway Position.

During the past week the public have had an exceptional opportunity, through the debate on Railway and Fuel Bill, to get an understanding something of the position of the railway in the East of Kenya and Uganda. The general impression which has been conveyed is that the railway is in a position to meet the requirements of the country, and that the Government has a duty to maintain the railway and to improve it. The railway is a vital part of the country's economy, and it is essential that it should be able to carry the traffic which is necessary for the development of the country. The railway is a source of revenue, and it is essential that it should be able to meet its expenses. The railway is a source of employment, and it is essential that it should be able to provide work for the people of the country. The railway is a source of progress, and it is essential that it should be able to carry the traffic which is necessary for the development of the country.

The Estate is only 5 miles from Kiambu Bazaar, at an altitude of about 6000 ft.; good average rainfall; about ONE HUNDRED AND FIFTY FIVE ACRES OF PINE TREES, with some 5 years old and the balance under plant. It is reasonably estimated that up to 300 acres can be cleared. From the central square large crop can be expanded and labor is plentiful. The Muramba privilege demands that of the estate.

WATTLE is planted to the extent of about 97 acres and it should be noted that the wattle is a mile distant from the estate.

A FULLY EQUIPPED COFFEE FACTORY is on the site, the substantial buildings of 1 1/2 miles distant from the main plantation. Fully equipped with Pulpers, dryer, hullers and grader. Machines.

LARGE RANGE OF IMPLEMENTS, Lorry, Tractor, etc.

A WELL BUILT STONE RESIDENCE (finished) with full plot provided, the accommodation consisting of four rooms and bath, with five closets, bathroom, hot and cold water, electric lighting, store and pantry, with a Guest House, Garage, and other buildings on the building on the site.

THE HOMESTEAD is well supplied with water from a permanent stream by the No. 4 "Baba" Run which also serves the No. 4 and Three Gardens.

Terms can be arranged with an approved purchaser. Enquiries should be made by applying to

Why it is a pleasure to use Brushing Quac.

This is the Quac soap. It is so trouble-free. You just break it up to produce a beautiful, glossy surface, quite free from lather, which does not grate hard on ONE HOUR.

All the top you have the satisfaction of knowing that in each tub you will use that, that is fresh cream soap, which is a real treat, and, and is so much more than a mere soap.

There are some uses in the home for Brushing Quac on floors, beds, and bath-tubs, and on the car. Get a trial tin of all these uses before you purchase. There are no other soaps so cheap as Brushing Quac.

STAGE PLAYS.

"The Donovan Affair," which is presented at the Lyric Theatre, for the last four nights of the week, came to a successful conclusion with the reputation of having a 100 per cent. attendance. The play, which is the last of the series, is a story of a mystery thriller, but as the actors play chiefly on the spoken word to create that atmosphere of suspense which is the chief and as the spoken word could not be heard there was little left in the presentation. With considerable abundance the play might have attracted attention before but presented as it was tonight might have been a little disappointing to be derived from a play which is so well known to the audience as the one who killed Jack Donaghy, and still more the reason why a second night was necessary.

It was shrouded in mystery, as any eyes could see, and the play has been given as undisturbingly as the other plays of the season which comprised the "talker" of the first night. It is regrettable that the first night should have been so disappointing, for the remainder of the programme, an old-fashioned Madcap comedy and two Gemmest songs were given, and the play was a success.

The Standard learns that owing to a misstatement in the "The Donovan Affair," the management of the Lyric Theatre has decided to withdraw the further presentation of the play. It is regrettable that the play should have been so disappointing, for the remainder of the programme, an old-fashioned Madcap comedy and two Gemmest songs were given, and the play was a success.
