Clear Statement of British Policy

THROUGH REUTER'S AGENCY. Victoria Station presented an Oriental aspect to-day. It was crowded by be-turbaned and betarbushed Moslems to meet the Palestinian Arab delegation headed by the octogenarian, Musa-Kazim-Pasha, An address of welcome was read by Lord

The delegation is expected to meet Lord Passfield after the report of the Palestine Enquiry Commission which will probably be presented to Parliament

The Delegation. Rughy, March 30.

The Arab delegation was headed by Musa Kazim Paaha and includes also the Grand Musty and the Mayor of Jerusalem —British Official Wireless Service. INV WIRELESS.

Rugby, March 31 The report of the conditions on the Palestine disturbances of last August was presented to Parlia

The Commissioners came to the conclusion that from the beginning of the outbreak it was an attack upon the Jows by the Arabs for which no excuse has been estab-lished. The few attacks by Jews upon Araba were mostly by way i retaliation. There is no proof that the Grand Musti or the Palestine the Grand Musti or the Palestro Arabs Executive prerocditated and organised the disturbance is less been alleged. The outbreas meither was nor was intended to be a revolt against British Autho-

The Commission has no serious criticism to make of the action taken by the Palestine Govern-ment, before or after the outbreak. They consider that the Government have, throughout, dis-charged to the best of their ability the difficult task of maintaining impartiality between two peoples whose leaders have displayed little tendency to compromise.

The Commission consider that

tion, when not exceeding the cour try's absorptive capacity, have Palestine which the Arabs have shared, but with regard to immifrom the doortine laid down in 1922 and accepted by the Zionist Organisation, and that the Zio-nists' claims have been calculated to create among Araba apprehen-sions of loss of livelihood and poli-tical subjection.

Attention is drawn to the num ber of evictions of Arab cultivators without alternative land having been provided. Complaint m not made of Jewish land com-panies who, in some cases paid panies who, in some cases poid cash compensation and soled with the Government's knowledge, but an acute situation has been pro-duced, and a landless, duccontent-ad class in being orewin's tich is a potential source of Janger. It is urged that some x-mody be-found for this situation of the con-traction of the of round for this situation.

The Commission's conclusion is that Palestine cannot support the increased agricultural population without radical changes in farming methods.

mission. He takes a more serious four at a memorial demonstration system of the responsibility of the at the Albert Hall, president seem Arab loaders for the disturbances, by Tr. Weirmann.

RELIGIOUS PERSECUTION IN RUSSIA.

of Lords.

Attitude of Labour Government Explained.

(Through Reuter's Agency and British Official Wireless Service.)

(Through Rester's Apency and Brillian Official Workson Services.)

The attributions of the Committee of the Restrict Restriction in the House of called intention in the House of Lards to-day to the opposition of the Restriction of the Restri ing Houses, Synagogues, Mosques, all alike, were declared to be enemies of social reconstruction.

In 1928 859 Churches, 78 Monasteries, 50 Synagogues and 38, Mosques were closed accord-ing to reliable statistics, and 100 more were closed last year. He more were closed last year. He had received reports of 20 cases of persecution which he was satisfied were authentic. In these 20 cases, 71 persons were sentenced to be shot, and 112 were sentenced to imprisonment for two to

He did not question the ad-He did not question the advantages of having a British re-presentative in Moscow and a re-presentative of the Soviet Gov-ernment in London, but the ad-vantages carried with them spe-cial responsibilities. Booner or

later our own Government must convey to the Soviet Government that if relations were to be diplo matically satisfactory, the Soviet Government must pay some heed to the public opinion of this country which, in this matter, he believed to be simulated.

It was for the Government to decide at what time and in what way and within what limits repre-centations should be made. We could not expect, nor even ask, the Soviet Government to change its attitude towards religious for that attitude was its own religion, but we had the right to ask that in pursuing it they would pay some heed to the claims of the

Continuing he said this he had done his best independently to ascertain the first assisted by four responsible men who had conducted very elaborate researches in the Bensian official press, and pandent information from leaders of the Orthodor Church, Baptists and Jews. He had was many reports by op witnesses, all enabling the continued in the continued in the continued in the continued in Russia.

He explained that the passionate aim of the Communist Party was to create a world so new that the old world must be destroyed and replaced by a system based on resolute and indinching material-ism wherein which there was no place for the hamting spectre of God.

Lord Parmoor replying for the Government and that the Government and no intention whatever, unless the condition attached to displomatic relations was infringed, of severing relationship with Russis or weakening with Russis or weakening the opportunity that might be afforded to that relationship of influencing conditions in Russis.

ing conditions in Russis.

It was not easy to say what the Government could do to influence those conditions. He was glad to see that some change had taken place, but in the meantime terrors of this movement undoubtedly prevailed in Russis though be prevailed in Russia though ne believed on information supplied to him that they were less tern-ble now than at any time during the last 10 years.

The separation of Schools from State, lamentally as it was in Russia, had been a matter of scute differences of opinion other countries, but surely the attitude of any State towards education was purely an internal concern of each Government and no representation on such issues could be justified.

We all detested the systematic denial of religious tolerance in Russia but no outside Government

cision of His Majesty's Govern

ment. Full representations were made giving the views of Law Societies and other bodies who

Societies and other bodies who made objections, and these were fully considered by the Secretary of State and his advisors. Our own views were, in fact, immaterial, as they were not allowed to affect the decision which had

been deliberately come to as a matter of policy. In my own view

the step was a desirable step. These East African territories should have their own Law and

their own Code of Criminal Pro-

in practice the inconvenience

side Kampala or Jinia

faction to me that

The Government offered in auc tion vesterday Crown land in the Highlands extending to about 140,000 acres. This represented over sixty farms, including four teen small areas at Kibos where bidding was open to Asians. The result of the sale was spirited bidding by Indians for the Kibos farms which were sold at an aver age of \$12 10s, per acre, and a disappointing interest in the farms offered in the European settle ment districts. Having regard to the difficulties facing farmers at the present time, the land sale was really surprisingly good but it factory from the point of view of the Government or of the Colony. Apart from the areas bought by sugar industry in the district, a

has adopted the new Code of Cri-minal Law and the new Code of Procedure. Following some cri-ticisms by Unofficial Mambers, the most important of which was opposition to the introduction of Indians, which indicate the sound recal discrimination of making progress and attractiveness of the provision for trial by jury in the case of Europeans only, the Cri-minal Code and Procedure was comparatively low average price was paid for other farms in the who provided a report which was laid before Council. The new Criminal Law is to be applied in list. The areas offered for European all the East African Territories and is based on English law and pro-cedure with Nigerian adaptations and minor local amendments. Itone farms and of these fifteen were withdrawn without a hid. Out of the total acreage of 140,000 of and minor local amendments. It-introduction was opposed by the Law Bocieties, particularly in Konya, but the Secretary of State has apparently expressed his in-tention of seeing the new code inwhich 2.200 acres represented the sent about 44,000 acres, or nearly one-third of the European exchan-The really satisfactory point about Attorney General stated that there rity, if not all, the purchasers were farmers who bought with the genuine intention to make proper principal amendment was the de use of their purchase. There was letsons of Clause 129, agreed to both by official and mofficial members of the Committee and who has figured somewhat largely reduced from sixteen to fourteen sixteen being obviously too high ral revenue and the advaability of offering for sale so large on area offences, the Committee had su at the end of three bad years gested the removal of any distinction between local and foreign might reasonably be queried from that point of view. The sale was advertised fairly extensively in Britain and it would be interesting to know the measure of attention it attracted It certainly does not appear to have been large. As we see it, the object in disposing of

Grown lands by public suction is to meet a known demand for land for new settlement. It is questionable whother yesterday's sale added half a dozen new settlers to the Colony's population. The area of land available for settlement is somewhat limited and it would perhaps pay Kenya much better to use what remains for settlement schemes framed to attract new population than to throw large areas on the land market at a particularly dull period. It is probably true to say that much of the and offered yesterday was not amongst the best in the country and that the few really cood farms in well-established districts found ready purchasers at sums above upset prices, but it is disappointing to discover that a disdevelopment of which the country recently invested money in a branch railway, abould prove so unattractive to the land buyer. In

all the circumstances the Govern-

COMING CHANGES IN THE CUSTOMS DUTIES

New Legislation For All Three Territories.

CUSTOMS UNION IN SIGHT.

Sir W. Gowers Indicates an Agreement in What Uganda Wants.

necessary to have another meet-ing of Council in the early part of April. I should wish for the con-venience of Hon'ble Members that

other reason is that the agreement which was arrived at between the Governments of these three terri-tories was in the case of one of

them at any rate merely of a pro-

visional nature, and subsequent discussion in Legislative Council of another territory may cause some modification of the provisional

The three Legislative Counties and Tengenyla-well more testing and Tengenyla-well more early Castons Revision Counties and Tengenyla-well more early Castons Revision Committee had april, publishy to that picks in the Cestical Counties with the reconstruction of the Counties and or that date or not is unknown

journment recently. He also in-dicated that the provisional agree-ment reached on protection by the three Governors was subject to the acceptance of one particular Legislative Council. If that Coun-ell did not accept is, the matter would probably be re-opened— which he would regret. In the course of his speech that Governor of Uganda indicated that the recent Inter-Colonial Customs vanience of Hon'ble Members that meetings should not be so fre-quent, but the reason which neces-sitates, this meeting in April is that we may consider and pass the recommendations which are now being gons into by a Committee appointed for that purpose by the Commissioner of Customs, for deciding on a uniform tariff for the three territories. It will lead to a complete Customs Union reach agreement in respect of some of the articles which the Uganda Pariff Committee had recommend

ad palorem on unbleached cotton

ordis.

As the present duty on building materials was 10 per cent. As the present duty on building naterials was 10 per cent ad alorem, the Committee considered it equitable that the timber and steel doors and windows used in building should be subject to the same rate, having regard to the tendency among natives to beild better houses. Therefore the Com-mittee proposed the following reduced rates; cement 10 per cent.
ad eal, and the same duty on unmanufactured and builders' woodwork, steel doors and windows. work, steel doors and windows.
The Committee also recommended
the free importation of such items
as belt dressing, bitumen and
tar, magic lanterus for educational
purposes, mechanically operate!

as it was obvious that revenue uld be affected, the Uganda emmittee proposed an increased

duty on eigarettes, cigars, tobacco

The Commissioner of Customs having suggested to the Uganda Committee that some of the duties on motor vehicles should be re-vised, having regard to the development of motor transport and The African Air Route.

Members of the official survey party that is carrying out a survey of the Cuiro to Cape Town air service left. Neighble 100 to Town air service left. Neighble 100 to Town air service left. lopment of motor transport, and that the present duty on light cars was high while varu and lorries were admitted free of duty, the

Committee also gave consideration to the motor duties. The following is an approximate statement of earnings from coaching and goods traffic by the Kenya and Uganda Railways and Harbours (including Branch Lines, Marine and Motor Bervices) for the mouth of Pelevany: Curponding mouth 210,74; Corresponding mouth 210,74; Corresponding to the control of period period (Control of Pelevany) (Decrease 117,008.) Their recommendations included cent. ad. vol. for the present duty of £15 and five per cent. on motor cars; reduction of the duty on motor cycles from 20 per cent. to 15 per cent., and the same reduction on car and cycles parts and spares and on pedal cycles. Feeling, however, that wans and lection

Consternation Over Prices for His Produce.

("sTANDAED "CONRESPONDER,)

Kisumu, March 22.

Attention is again drawn to the way in which forries are driven outside of Kisumu Township, the control of th

These lorries are a positive danger to passengers on the road as during the rains they slide and slither all over the place. They load as much as they can, they carry, anything up to 14 passengers carry, mything up to 14 passengers and run unnocessary risks. Care in driving is unknown and before an-other disaster takes place, worms than the last, the Kisumu authori-

Another point is that they churn up the roads during the wet wea-ther and though the roads are bad enough they undoubtedly make them worse. Everyone to whom the subject has been broached has agreed that something should be done and several have requested this publicity.

It is doubtful whether these rains are doing that good one would hope for. Natives in all areas report washaways of plantings and many of the crops are not making moskly and then retted before the

Such a long period of rain, of planted early, much earlier than usual, and have put in a second crop. But so severe have been crop. But so severe have been the recent rains that washaways of the recent rains that washaways of

modification of the provisional agreement which had been arrived at I trust that this will not be the case, but if it is it re-opens the whole subject. I hope that that whole subject. I hope that tenss will not be necessary.

"I think I may say, however, that the Committee, which is very ably pre-sided over by Mr. Walsh, has already managed to obtain a 10/- a bag. Simaim oil, the usual price of which is Shs. 20/- to Shs. 24/-, is down to Shs. 10/- to Sh. 14/-: The native cannot get rid of their nwembe except a pithe of the crop to "tembo" makers. Consequently illicit "tembo" makers. will not attempt now to anticipate
the information which will be given
to Hou'ble Members in detail ing is on the increase. all these remarks apply equally to the Nandi country. Mtama is a gift to anyone.

All this has aposted a false ton-All this has created a false im-pression. When the natives were urged to plant more produce, they stopped at home and did so. Labour their became scarce with wages high A drought for the homeworkers followed but they noneworkers followed but they carried on to up to the present time, but the latest plethors of produce has caused consternation even as did the drought. There is little wonder that there is confusion in the minds of the natives when you want to be the confusion in the minds of the natives.

SIDELIGHTS ON KENYA AND UGANDA TRADE.

Wheat and Flour Imports Up: Sugar and Tea Down.

DRINK AND TOBACCO BILL.

The Commissioner of Customs | whisky. In 1928 the two cour The Commissioner of Customs whisty. In 1928 the two countries in 1926 The life imported whisty valued at Report by issuing for the information of the main of the parties of the main schedules which form the basis of a line report. These basis of line report. These books of Uganda. schedules which form the basis of his report. These schedules give a summary of imports and exports with the coun-try of origin and destination, a statement of the re-export trade, the value of goods in transit and transhipment, the Customs Re-wenue and the Balance of Trade. wenue and the Baiance of Trade.
The schedules are long and ditailed and it is impossible to reproduce them within the confpass
of a newspaper column but several
extracts will throw some light on
£230,069. and offer a comparison with those obtaining during 1928.

obtaining during 1928.

For example there are the imports. They totalled £8,607,910 in 1929 and were £88,151 less than in 1929. Of these imports Kanya is credited with a gross figure of £6,290,000 and Uganda with £2,318,177 the Uganda figures having increased by Kenya exports was rather less than in 1928. But in studying than in 1928. But in studying these Trade figures it must be re-membered that there is a considermembered that there is a consider-able re-export trade to adjacent. Territories—particularly to Tan-ganyika. It is most likely that the re-exportation is from Kenya and re-exportation is from heavy and it is therefore necessary in arriv-ing at the approximate total of this Colony's own importations to deduct the value of the re-exports to Tanganyika and Zanzibar. to Tanganyika and Zannibar. The value of goods re-exported to these two Territories amounted to about two Territories amounted to about 61,000,000. There is also to be considered the lact that some of the agricultural produce of Tan-ganyika is brought through Kenya for exportation via Mombasa and is shown as imports. In 1920 the value was £757,724 which was £362,000 less than in 1928. The decrease is accounted for by the much smaller quantities of Tanaccrease and the countries of Tan-graphs office. Cortice, and grounds and bless which was groundest and bless which was the Tangarysh problem and the imports inheaded for Tangarysh and from the total imports which are given as coming into Kenya, the given as coming into Kenya, the sports for home countries of the con-form the figure of K. 200,000 to from the

the importation of surar-indicative no doubt of the growing con-sumption of the protected local product. In 1928 Kenya and Uganda imported 80,244 cvts or sugar which cost £68,908 II 1929 the importation fell to 48,564 cvts. and the cost to 239,069. The reduction was shared by Uganda which instead of spanding £1,870 on imported sugar as in 1929, only spent £454 last year. set year.
Ten-another local industry . .

Tes—another local industry . . . is also having an effect on imports. In 1928 the two Turnicotes spent on imported tea £81,913 but in 1929 40 tens less came in and the amount of mostey going out of the countries fell to £73,508. Uganda shared in this saving on imported tea by drink-ing elevan tons less and reducing the outgoing expenditure by

In the cigarette and tobac

ine the two countries foot a large and growing bill—which is perhaps some reflection on the cost of living because these items are almay be that the native is develop-ing the habit. For eigarettes, for instance, the payment in 1929 was £122,361 This was lower was £122,361 This was lower than in 1928 by £4,000 but the quantity increased from 610,267 lbs to 635,405 lbs. Apparently Uganda people curtailed their smoking because the quantity of cigarettes imported dropped from 142,276 lbs. to 181,429. It would seem, however, that the people in the two Territories.

Building Trade Timber is one of the protected industries which does not seem to have much effect on imports. For instance in 1928 the two coun-

Kisumu, March 21. Kisumu, March 21.
Old Kisumu has passed sway.
The dulus are all closed and removed mostly to the new barsar.
Thus ends another phase in progress, and certainly an eyesore in many ways. The old place was wonderfully useful in its time and aven now many natives will regre: its passing as it means a tramp of three miles or so further to sell the produce of the reserver in that district. Founded by

ricinity to the then very large us-tive market place and handy to Port Florance which was more in

and "Sybil" were commencing their journeys across the Lake. Port Florence was, as is probably Port Florence was, as is probably well known, named after Lady Florence Whitehouse wife of the head of the Colony as well as General Manager, and Chief Engineer of the Uganda Railway and in fact the Chief Administrawere named after

his daughters.

Thus the 'amily were very definitely linked up with Kisumu and the early trading days. Since then the changes have come. The 'Sybil' is not heard of now, and the 'Winifred, though available the company of the compan tne Winifred, though avail-able, is laid up for lack of cargo Incidentally so is the a.s. Nyanza of course, a much more

modern vessel.

The old market has been moved and now the dukus have gone, leaving only a few native camps.

Nubana Bugandas, Tanganyika

anyone to live in and keep healthy. The change will be welcomed by the Medical Department. The whole movement now is to work districts away from the shores of the Laka though, of course, many stick to the lands of their forefathers despite the had bealth fathers despite the bad health they get in consequence.

The fishermen will also stick to the Lake borders and they at least will bemoan the passing of a place so convenient for their shopping. Gradually outplaces

are moving in progress with the rest of the Colony's development and Kisumu is not the least pro-gressive in this respect.

EUROPEAN women, living in tropical climates, often suffer from anzemia as a result of irregularities of the functions of their sex.

Physicians have proved in a most positive way that a course of Kalzana—the Calcium food —is of striking value in these conditions.

Kalrana contains Calcium (lime) which is needed to strengthen the cells of blood, body and nerves, in exactly that scientific combina-tion in which the Calcium is readily taken up and retained by the body cells.

The remarkable effects of Kalzana on the body area 1. It regulates the functions.
The Calcium reduces the bleeding and

2. It relieves pain.

Kalana has a marked soothing influence on the whole nervous system.

strengthens the blood.

Kaladas quickly increases the number of red blood cells and has a striking tonic effect on your health.

Get your health back with Kalzana. It is absolutely harmless and may be used at all times with entire

THE 1929 EXPORT TRADE IN KENYA PRODUCE

A Fall in Maize, Sisal, Soda, Cotton and Cedar.

HEAVY BUTTER SHIPMENTS.

Increase in Potatoes, Sugar, Bacon and Sawn Timber.

eived recently from the Commis-ioner of Customs, Kenys and gands—the schedule which dethe domestic exports of the

thrilling, of course, than the story thrilling, of coorse, than the story thrilling, of the story of the stor devoted. Without the prosabilist of domestic exports there would be no social services, no settlement, no increasing State revenue—no Kenya and Uganda in the mo-

much easier to divide the products of the two countries than it is to cosed in the first place to present the export position of Kenya.

In 1928 the Domestic exports of
the Colony totalled £3,268,403. In

Flour Exports There was a heavy reduction the exportation of wheat which in 1928 was valued at £75,195 and in 1999 fell to £38 981 but on the

last year. The value of flour ex-ports rose from £17,549 in 1928 to £82,026 in 1929. The declared to £22,026 in 1929. The declared value for export purposes was roughly 8hs. 20 per cwt.

In previous years, Barley has been shown among other grains but in 1929 the figure has been separated. The barley orport was 24,700 cwts. valued at £8,679.

Bacon and Ham.

duce, we find that according to the schedule the Kenya cotton ex-ports decreased heavily. In place of 2,527 centals of 100 lbs. valued Having completed a brief same (2); each) and the live experts; bying of the import under data strains and experts are expected to the control of the major proposal to and 61. It is some proposal to samine the same proposal to the major propos at \$10.710 in 1999, the 1999 flores fell considerably—from 1.474 gal lons valued at £568 in 1928 to 230 Flax and Sisal.

There is still, apparently, a little flax exported from Kenya thrugh the quantity is steadily diminishing. In 1928 13 tons were sent out, gallons at £91.

There was a large increas

flax eagether the quantity is steamly with quantity is tons were sent out, ing. In 1929 13 tons were sent out, with 18 tons of tow. In 1929 the export was ten tous of fibre (which realised only £51 per ton) and 14 to the the exportation of butter. It the figure was 513 cwts. and the value £4,917. In 1929 the Colony value £4,917. In 1929 the Colony exported 1,830 cwts. valued at £15,126 — which is about Shs. 185, per cwt. The cheese exportation is relatively small — 107 cwts. in 1928 and 145 (£824) in 1929.

Coffee has been divided statistics for 1929 show

1,956 cwts valued buni, 6,977 cwts value at £15,218 and prepared coffee 45 cwts, valued at £400 were the 1929 cwis. valued at £400 were the 1920-exports. The total value £703,160. falls short of the 1928 figure by £416,281 and represents the heaviest item in the total Kenys £416,281 and represents th heaviest item in the total Keny export decrease for the year. Fresh (or frozen) fish appear is the export list in 1929. They were the export list in 1929. They were not mentioned the previous year so this is in all probability a new de-velopment. The country exported 329 cwts. and the value was £890.

ove gree trade increased nearly four times. The exports in 1928 were 121 cwts. and the value £1,004; in 1929 the export bulk: was 534 cwts. and the value £4,478.

SATURDAY, APRIL 5, 1980 PRORLEM OF NAIRORPS DIFFERING TIMES.

> To be Solved by a Master Clock?

Bome months ago a suggestion was made in the Nairobi Chamber of Commerce that a unified time should be arranged for the town by means of the daily firing of a gun. At that time the "East African Standayd" drew attention to the fact that the Government, Mr. Waller, we all leave and had undertaken to make enquiries as to the simulation of installing an automatic airen or installing an automatic airen or installing an automatic airen or installing and several areas are several areas and several areas are several areas areas are several areas areas are several areas are several areas are several areas are several areas areas are several areas areas areas areas areas areas

Mr. Walter has now returned from leave and in an interview with a representative of the "East African Standard" on Monday stated that he has made the day stated that he has made the necessary arrangements for the provision of a synchronised time for all the Railway departments. The new Railway Headquarters, the Station and the Workshops will all have a unified time through a series of synchronised clocks, and it is expected that the clocks, and it is expected that the necessary equipment will have servived in the country within two months from now. The clocks will be controlled from the master clock at the Kabete Meteorologi-cal Station where the time is corrected daily from the Bordeaux wireless time signal.

When the Bailway clocks have been synchronised it will be pos-sible for persons and bodies inter-ested in the proposal to see the manner in which the unified time is obtained and to consider the development of the scheme to parts of Nairobi. will be made in the Railway ins tallation for extensions to parts of the town if such a thing as desired, but it will be possible is desired, but it will be possible for a thorough examination of the system to be carried out before there is any expenditure of public money. There will be a master clock in the Meteorological Section at the Railway Head-quarters and this will be synchro-nized with the main clock at Kabite. All the equipment re-quired for the whole of the Rail-iway installation definitely has

way installation definitely has been ordered.

It is suggested that it would be possible for an electric jumper to be fitted to the clock on the E. A. Standard Buildings, and another to the clock on the Mosque. These would be connected to the main clock at the Bailway Headquarters. The Post Office clock can

iral master clock.

From this stage, an electric sizen, actuated from the anynchronised service, could be introduced, just as will be done at the Railway for the benefit of the workshops. This could be made to give a time could be made to give a time could furnish the cornectiful time each day, and it would furnish the corn with the cornectiful time to a

WORK OF THE TRINIDAD

One result of the Great War

was to emphasize the importance of tropical agriculture and the necessity for developing the tro-

centre in the tropics was accord

Trinidad as the most central spot.

Proposals had already been

irst opened in temporary build-ings on October 16, 1922, as a surely West Indian institution. In

a short time, however, as the demand for post-graduate teach-

ing arose, its scope widened and

RAILWAY EXTENSIONS IN TANGANYIKA.

At the annual dinner, at Dar-At the annual diffuser, we shafaam recently, of the local Irish Society, His Excellency the Governor of Tanganyika, Sir Donald Cameron replied to the tossi of "The Land we Live In." During the course of his speech with which the territory was faced,

His Excellency also referred to the ficods up-country. He ex-tended the greatest sympasty to the Railway in the unprecented disaster. There had been no simi-lar movement of water, he said, for 22 years. The floods had proved that the centre pair of the bridge at kilometre 142 was found-ed on nothing. The floods had come and simply washed it away tome and simply was bringing from under the bridge.

Recent heavy rain was bringing the waters down again and the danger of further floods was imminent. He was not serry this was happening, because it enforced on everyone what they were doing and what had been done.

Expert Investigation.

The Purest Nourishment When Mr. Gillman, the Chief Engineer, returned from overseas leave two weeks upo he had been immediately accorded for the pur-pose of investigating the whole of -that's what these soups are The health-and-energy goodness country over the 40 mile of the best mest and vegetables is perfectly blended in Symingof the flooded areas in order that ton's Soups ! That's why they are as satisfying and sustaining as had at once in order to prevent they are delicious and pure I

Tropical Agriculture.

The Governor's Review. conditions through which Kenya has passed for three years. followed by the heavy fall market values of primary products, was the note of caution and warning which pervaded the review of the trade and finance position in the Colony included in his speech to Legislative Council yesterday by His Excellency the Governor, Sir Edward Grigg. The buoyant ontimism which Sir Edward permitted himself a few years ago is no longer the characteristic of his speeches. It has been replaced by an earnest desire to place before the" people of the country the major factors in the economic situation and a no less earnest attempt to give them in a weakness in trade conditions which is common to the world, particularly in respect of agricultural industries, is in no sense the fault of the Government or people of the Colony. But it is essential that the country should have a proper grasp of the situation in order that policies and pro-grammes may be adjusted. The essential point in the situation is an examination of how far and by what means the influences of ex-

the gracious patronage of His Majesty the King. Objects of the College.

The objects of the College are to provide training in the science and practice of tropical agriculture to practice of tropical agriculture to students intending to become tropical planters, agricultural administrators or officers, or specialists in different branches of agricultural accession and of agricultural science and technology, and to offer faci-lities for the study of tropical agriculture to graduates of othe colleges and universities.

An increasingly important fea-Pedraza as to whether the ship's turn of the College is the provision residue, and no method of controlling people of this kind, asid what they could put them in fields afford.

BUGANDA COTTON RIIYING CHAOS

Franctic Competition by

"STANDARD" CORRESPONDENT. Kampsla, Wednesday. The Bugsnda Seed Cotton Buy-The Buganda Seed Cotton Buy-ing Association was dissolved yes-terday owing to members being un-able to agree with reference to out-side competition. Cotton bought in the Buganda Province approximates 28,000 bales. The re approximates 25,000.

Frantic competition immediately resulted. As an example one gin-nery which was paying Shs. 12/50 per hundred pounds seed cotton yesterday morning is now paying Shs. 20/-.

It is difficult to gauge the result but the present state of the cotton industry in Bugands is chaotic and is likely to prove disastrous to many small ginners.

NOBLE WORK WHICH NEEDS HELP.

Prevention of Cruelty to Animals.

WHAT THE SOCIETY DOES.

Efforts Hampered by Lack of Funds.

valuable work. The East African Society for the Prevention of Cruelty to Animals dates back to 1912 Now, after eighteen years, the Society can look back with pride on all that has been accom-plished. And yet there have been many difficulties to be overcome Some of these have been supersed Everyone is agreed that the work that the Society does is ex-cellent, and yet many do not

alise how much more it can d it receives the support which of the big milestones in the his took place cleven years ago yester-day when the first Inspector was further development in this bin has taken place by the seconding of a Police Officer who is em-powered to carry out the work of investigating cases of cruelty. For them services the Society page

lovernount the salars oportion of pension, some £450 this sum being guaranteed by two public spirited members. In addicarying out very valuable n Nairobi this Inspector work in Nairobi this Inspector periodically goes on safari to other parts of the country but it is a regrettable fact that lack of funds

regrettable fact that lack of funds does not permit as much of this work being done as could be wished. Nev.rtheless visits have been paid to Mombasa, Kisumu, Nyert, Nanyuki and other centres. One the great advantages which has before to the post of money which has enabled the Soaccrued by the appointment of a Police Officer to the post of

the Society who endeavour to interest amonest those keep up interest amongst those iving in their neighbourhoods. Subscriptions and donations are collected by them and are for-warded to the head office of the Society in Nairobi for carrying on the work in whatever sphere the Committee may decide that it is most needed. Social functions

most needed. Social functions are also arranged up-country to help to swell the funds. Many years ago it #yas realised that special legislating, was need for dealing with cases of cruelty to azimals. For this reason, "The Prevention of Oruelty to Animals, Ordinace, 1918" was introduced and this was amended in 1921. Prom time to time the Committee of the Declety puts up sugmittee of the Society puts up sug-cestions to Government regarding amendments, the passing of which would assist them in their work. Many of these amendments have been adopted.

been adopted.

Some people may ask what the Society has actually done in any particular place, such as Nairobi. Why should it receive support from the public? And is it genuinely in need of tunda?

Work in Nairobi

In Nairobi alone it has done an enormous amount of work. This has included the building of great-

baric methods of despatching ani-mals. The feeding and watering of animals on the railway has mine That such of the mine the state of the mine that make the state of the state o or animas on the railway nasheen carried out by officers of the Society The Pound and the Slaughter House in Nairobi are animas on the railway nasheen the Society was founded on Octo-ber 27, 1927 with the object of the idea of kindness to animals. During last year alone some \$49 children were carolled as new members at an annual subscription of 8b. 1/r, and the Branch las now become a complete self-supporting unit of the E. A. S. P. apporting unit of the fowls in crates both on road and-rail has been taken up. Stray animals have been assisted and in many cases homes have been found for them. And in cases of wanten cruelty the offenders in

very many instances have been brought to book In cases in which sentences considered to be inadequate for the crime com mitted, have been imposed the been drawn to the matter The reason for the necessity

work of belping to ease the lot of dumb animals. But the time has come when it is not sufficient for come when it is not sufficient for the Society to be supported by a few enthusiasts It the whole community Those will ing to help on the very valuable work are asked to send subscrip-tions or donations to the Henorary the necessary organisation for acrying out relief work, that they that as funds are urgently needed the public should their attention to be drawn again

An Urgent Need.

An Urgent Need.

The fact that the Secrety is in property in the secrety is in the secrety in the secrety is in the secrety in the secrety in the secrety in the secrety in the secret i realized when it is stated that the yearly expenditure is in the region of £450, whilst the membership subscription is not less than Shgs. 5/- per annum. The Society derives its income from subscriptions and donations and from a proportion of the fines imposed NAIROBI CHORAL SOCIETY'S in cruelty cases in the Courts. But during last year the amount subscribed by members was only about £130, and the Society which is carrying out this noble ciety to carry on its work. In addition, various entertainments. ranging from concerts to dog gymkhanas, have helped and

The Nairobi and District Choral Society are hard at work and have been busy for some weeks re-hearing parts of Coleridge Tay-llor's "Hawatha" in readiness for the night of Wednesday April 18, when they will give a concert in the Empire Theatre. The parts chosen are "The Wedding Feast" and "The Death of Minnehaha," some Associations and Societies But what the Society requires more than anything else is an in-creased membership which will which contain some of the love liest and most characteristic (assure for it the possibility of the expansion of its work. Bakeri-order forms are supplied for those who have when temeories, and thereby all trouble regarding the payment of the annual subscrip-tion is removed.

BATURDAY, APRIL 5, 1980.

THE GOVERNOR'S SPEECH

His Excellency said: Honourable Members of Council t is three months a little more than three months since Legis. lative Council adjourned for Christmas, and I propose to ask your attention for a brief review of the affairs of the Colony and of the work of Government during that period. The remain ing business this morning is purely formal, but in spite of that I shall endeavour not to make an unduly large draft upon your patience or your time.

most your patients or your time.

Prest and formunt, I would agree on balaff of the whole faction given in the patient of the patient of the whole faction given in the patient of the Prince of Wales. That will private in character, but it was represented to the patient of the that His Royal Highness should have wished to return to visit informally so soon after his first informally so soon after his first formal and official tour. We were, I think, particularly delighted that the greatest joy of this country, life so safari, should so appeal to him. It was a misfortune which we all greatly deployed that he should have got an attack of malaria during his travels. But we resides this travels not we resides the

pounds sterling which the Com-pany has shouly invested in the Colony it will be necessary, for the Company to investe another experts are to be increased. We have arrived at an agreement with the Company in regard both to fluthery rates and reysity which more than the company in regard both to the Company in regard both to fluthery rates and reysity which more first focking, and when the new mothings is established we have good reason to loops the ar-tory good reason to loops the ar-tory for the colony of the colony of the hape exceed 100,000 tean samply. Taking those facts regarding the has accessed 100,000 tons annually. Taking these facts regarding the abortful of ordice and sods into consideration, and taking also into the consideration, and taking also into the ond of a cycle of 1000 was also into the ond of a cycle of 1000 was also into the ond of a cycle of the constant of the cycle of the cy

1930 Crop Prospects

The 1980 Gray Prospects.

I some new to the current year. The yields of the crops now swalling expect, both in Natire Bars, and the property of the property o rary, which Lady McMillan is raising close by to the memory of her husband, is another example of private wealth devoted to public ends. The Library will be

preciate in quality before it is exported.

The season has been particular.

The season has been particular by favourable to dairy farmers.

Increased quantities of milk but ter cheese and gine are being produced. Consignments of butter and cheese surplus to the Colony's. public ends. The labrary will be welcome both as adding to the resources of the Capital and as a striking memorial to the gener-ous and public-spirited perso-nality which it commemorates. I hope that other benefactors will before long follow—thus example,

drow! Commentant of butter and these unplus to the Cology's control and trade connections as long or the Cology's property of the Cology has been present for the vest are good Theorem to the Cology has been been been present for the vest are good Theorem to the cology of the beauth appears to be rapidly present the present the rapidly of the cology o and thirdly, with certain items of legislation. The Bills before Colin-cil are very numerous, and some of them have an importance of their have an importance of their own, but I propose to say a few words only "about three of them, the Tariff Bill, the Native Lands Trust Bill, and the Land Bank Bill.

informally so soon after his first of these have an importance for the expert of waves. I think, perticularly we want that the properties of the expert of waves. I think, perticularly we want the country. He can start, the country life on matrix should so appeal to him. It was both the country life on matrix should so appeal to him. THE EAST AFRICAN STANDARD

EXPRESSING THE GENIUS OF AFRICAN PEOPLES

Why Swahili Must be Retained.

IMPROVING THE LANGUAGE.

Should be an Adequate Expression of Native Progress.

In the following article Canon Broomfield of Zanzibar concludes his summary of reasons why Swahili should remain the chief vehicle for the expression of the genius of the East African Native.

He deals in some detail with the task of selection of the words which will have to be added to the language in the process of enrichment and prefers, in the main, Arabic sources. .

Ganon Broomfield also lays emphasis on the respon-ponsibility which will fall upon the European people in the proper development of the Swahili language and the increase and improvement in African Hierature.

He considers it essential that though English may be the vehicle of education the African's own lang-nage should become an adequate expression of the Native's new knowledge.

THE EUROPEAN'S PART. Special to the "Standard" by Canon Broomfield of Zanzibar.

STANDARD STATIONERY STORES

The question of using treated building lumber has passed the experimental period long ago. Treated lumber is now a nesessity, especially in countries which have a definite wet and dry season or in which wood is susceptible to the attack of white ants and fungi. Properly treated building lumber will resist dry rot, decay and the attack of termites.

The cost of treatment will more than off-set the great cost of rebuilding and of lumber re-placements. Lumber treated by Creosote leaves the building material in a preserved state that will resist decay for years to come.

We have the most up to date plant and our treating engineers will be glad to place facts and figures before those who are interested in building for permanency and low maintence cost.

Unfortunately the rain made it very difficult to reach everyone but the collectors had the great bonour of rahing to the Prince who gave them some-than the control of the prince who gave them some-than the control of the prince who gave them some-than the control of the prince who gave them some-than for the made with HR B Ib Sething for their box. Fury insisted on shaking hands with H.R.H. be-

on shaking hands with H.B.H. be-cause I suppose he knew of his love for dogs. The Prince shook hands and patted him and said what a nice dog he was so Fury now has been suffering from a very swollen head! Rosemary Hurle Bath and Vera Ginns did splendid work sell-

Two members also lets to my month. Betty Bumpus and Emily Dudgeon have gone to England to school. Betty has always been so spiended collecting at the races while Emily has does used good work getting new members be-sides taking the greatest interest competitions.

It has been a great joy this I much larger number of entries much larger number of entries this month especially among the younger children. The youngest to compete was only 3 years old which was really a splendal which was really a splendal which was to good enough for a prine. Mrs. Anderson judged and award of the prices as follows—Drivision II. Anne Jones aged 19 (Chu). Deviason III. Derek Walley aged

under). A coloured painting of any insect in Kenya drawn from high. Division II (14 vews and under). A coloured painting of any insect in Kenya drawn from copy. Division III. A coloured tracing of any sneet in Kenya made in craym. Eatters must reach the Secre-tary by May 15th next. The same same the competition of the com-traction of the competition of the large by May 15th next. The same same to written at the com-petition of the competition of the large same control of the com-traction of the competition of the competition of the com-traction of the com-traction

I promised last month I would tell you the story of a famous dog belonging to the wonderful monks who live in the Alpa and spend their time saving the lives of the travelliers with the help of their St. Bernard dogs. "Barry" of edge, "The Friend shock limited and quarted has an intellectual properties of the them. They can't speak but the look in their eyes ought to make you understand what they are you understand what they as-saying. Well then if animals are so good why should not we be better whave a better chance-than they have. If men kepl these kindly I am seeg this would these kindly I am seeg this would them kindly I am too be good to and he meant us to be good to them." There, don't you think that is good for a little boy? His names is Shelley Is Measurier and By Air.

On Mombiny morning Mr. T. Completel Black flying Wilson Aircompletel Black flying Wilson Airthe Kolmay Valley close to Knightwith Walley close to Knightwith Walnes he was mely by
