of the Mombasa Chamber of Com-merce was held to protest against the action of His Excellency the Governor in appointing Lord De-lamere in place of Mr. P. H. Clark to the Railway Council

Mr. Bemister and Mr. Clarke revealed certain inner history in connection with the matter. The following resolution was

That in the opinion of this Chamber the action of H. E. the Chamber the action of H. E. the Governor neithing the names recommended at Government's request, by the Control of the Control ter-Colonial Railway Council, is a definite violation of a prin-ciple which has through prece-dent become accepted and is likely to prejudice the good feeling, which has heretofore existed between the Government and the commercial community of Kenya.

This Chamber wishes to re-cord its grave disapproval of the action of H.E. the Governor in subsequently accepting a retive on the Bailway Council from the Elected Members the Legislative Council, thus making the appointment one definitely within the sphere of political influence, which is contrary to the principle laid down in the Order in Council and the Railway Ordinance

- A good car at Oakland's price travels 65 actual miles per hour top speed. The new "V" eight Oakland registers in excess of 70 actual miles on the General Motors Proving Ground "fifth wheel " speedometer.
- 2. The New Oakland can accelerate from 10 to 35 miles per hour in 10.4 seconds. Compared to a good car in its price group Oakland is 51 feet, or more than 5 car lengths, ahead even in this short time.
- A good car in this price class climbs the Proving Ground's 11% grade in 49 seconds starting at 10 miles per hour. The New Oakland under the same conditions slips over the top in 43 seconds.
- 4. A good car in this price group requires from 53 to 65 feet to come to a stop from 35 miles per hour The New Oakland's brakes will bring the car quietly to a dead stop in just 53 feet.
- 5: Finally, Oakland's 85 horsepower, eight-cylinder engine is the most powerful to be found in any stock car of Oakland's size and weight—an engine which develops one horsepower for every 37 pounds of car weight, and which consumes only 1 gallon of fuel for every 18 to 20 miles covered.

A demonstration will quickly fjustify for you the enthusiasm of all those who this new (economical, moderately priced General Motors Eight, And remember, the car's beauty matches its performance.

In this great automotive age the success of International Trucks stands like a beacon on the horizon. Coming into prominence like a thoroughbred destined for victory, International Harvester has scored a triumph in truck engineering and in popular approval throughout the world. The basic reason is twofold: International trucks are soundly built on twenty-five years' experience in automotive manufacture - and International performance is safeguarded by a Company-owned truck service organization without a peer in the industry.

International Trucks include the 1-ton; the 13 ton Six-Speed Special; Speed Trucks, 14 and 2-ton; and Heavy-Duty Trucks to 5-ton. Catalogues on request.

THE CULT OF IZAAK WALTON.

A Much Maligred and Doubted Race. AND TROUBLES BESETTING THE ANGLER

Below we publish the first of a series of occasional articles on the gentle and contemplative art—the cult of Izaak Walton. The writer is well-known in Kenya, where he has done much angling. In this initial contribution "March Brown" touches humorously on the foibles of the angler, the "malignity" shown his class. He emphasies the quality of the sport to be found in the streams of Kenya. Here the three-quarter pounder is looked upon as very small try, while at home such a catch would receive its due mead of
