## NEW TREATMENT OF RINDERPEST.

## Divided Views Among Kenya Stock Owners. LOCAL OPTION DESIRED.

alternative for double inoculation against Rinderpest aroused great

Policy.
Mr. G. Colvile who opened the debate expressed the view that the problem is no longer to choose vaccination as we have known them in the past, but to determine the best possible use that can be

(2) Those who wished to use

"The chief objection put for-ward to the second method is that it is said to start fresh cen-tree of infection. This certainly is a theoretical objection but I very much dooth whether in prac-tice it is correct. In my own experience I have never known a double incomistion get away and infect game. Even if there is some slight danger of this, it is or no event innectance as long at

Rinderpest is endemic in the Native Reserves as game can always become infected from

that source.

"This brings us to the great objection to the inactivated vaccine method as a means of stamping out Risderpest from the country. To be effective it would have to be applied to all cattle Native and European, for a is certain that Rinderpest has died out of the game, if it ever died out of the game, if it ever does. This on economic grounds, is impracticable. There are estimated to be some 3½ million head of cattle which at 1/- per head per annum would mean one hun-dred and seventy five thousand pounds a year. Now I think it is quite obvious that the industry

cannot find this sum in the ab-sence of any outside markets." He did not suggest that inacti-He did not suggest that inactivated vaccine was not the most suitable method for certain farmers or certain districts. But he did contend that it was not the best method for dealing with Rinderpest in the country as a

Mr. R. Daubney stated that the opinion expressed by the Chief Veterinary Resarch Officer re-presented the official view, to which he had nothing to add. He asked leave, however, to correct a Press statement that on one farm at Naivasha, cattle which had been vaccinated, had broken

Rankruntey. LAW ADMINISTERED

To the Editor, "E.A. Standard." Sir,—The Chambers of Com-merce in various centres in Kenya, and other Associations and bodies,

is, however, always possible that something written, or some phrase in a letter to the newspapers, may

attract public attention, or lead to such notice being directed to the matter by editorial arti-cles, other correspondence in the

activity and a sense of its duties and responsibilities.

The Law, as it exists at present, is reasonably adequate to meet most cases, and to lead to the imprisonment of a high percentage of transduter bankrupts, but, if it was desired swiftly to

CORRESPONDENCE.

to be introduced, e.g., the auto-makic imprisonment with hard-tabour of all inselvents, unless they astillatedorily prove to the Coore that their districts of the control sepond that reasonable control. Broadly speaking, it may be said that the fault does not lie with the act the Law, and, whilst it is impossible to examine in detail, in this letter the practical difficulties of the administration and other Associations and bodies, have over a period of many years complained and agitated for more drastic bankruptcy legislation and better administration of the Bank-ruptcy Law, and, whilst there agitations may have had some-thing to do with the new bankdifficulties of the administration of the Bankruptey Law, it is easily possible to indicate, not so much where the fault lies, but the direction in which efficient administration may be effected, and I would suggest that all

Tree Planting

Beveral proposals for relieving unemployment were discussed by Nairobi Town Council at its meet-ing on Tuesday.

One considered by the Works Committee was to commence the making of concrete blocks, kerbs, footpath slabs, etc., but particulars have first to be compiled showing the number of men who could be so employed.

could be so employed.
Commenting on this, Councillor Riddell understood that 71 applications for work had been received from unemployed mee, and he was sorry that something tangbiscould not be proceeded with soon.

One considered by the

Without Police Sanction

The introduction of the new Penal Code into Kenya based on

the abolition of several lotteries with which residents have been familiar for some time past. This is the simple explanation of the reason why these short cuts te easy wealth came to an end with the expiration of September.

Chapter XVII of the Code is

devoted to "Nuisances and offences against health and con-vemence," and these embrace gaming houses, betting houses, and lotteries. In this lat-ter are included raffles, and

in the future no raffle or lottery can be conducted without

permission having first been ob-tained from the Commissioner of Police. What is aimed at is the

Police. What is aimed at is the stopping of the sale by them means for articles for more than their value, a rather common practice, and of lotteries run for the purely financial benefit of the

the purely manetal tenent of the promoter. One necessary factor before permission is granted in that the accounts of the raffle or lottery shall be properly audited.

whist, i.e. where partners are changed. This brings in the ele-ment of chance, and presumably would lay the place where the

drive was held open to the defini-

in "any game the chances of which are not alike favourable to all the players," becomes unlaw-ful gamme.

Immediately the Code was brought into operation, the local bookmakers found themselves in

brought ane operators, the con-traction of the contraction of the con-traction of th

there can be no cash betting in a bookmaker's office; it must be done by post or telephone.

"Nothing herein contained," says the Code, "shall make illegal the use of a totalisator by a

gal the use of a totalisator by a race club, grankhan club or aports club recognised by the approximation of the special constraints of the special constrai

missioner of Police the extra duty of granting permission, or re-fusing it, to promoters of raffice for turkers, motorears, etc., lot-teries, and all the rest; the Police have also to see that the law is enforced. Both are duties which residents of Kenya can feel sure

THE EAST AFRICAN STANDARD

The Kitale Drying Plant was next discussed. Major Keyser said that there was a lot of weevil in the growing crop this season and farmers would naturally be and farmers would naturally be anxious to dispose of their crop as early as possible. If the Klads Drying Plant was not available, this would meen further conges-tion at the Coast and consequent heavy storage charges. He re-minded the meeting that the Plant was at present here de Plant was at present here de-combat owing to danger from fire and stressed the importance of gatting it into commission again. After further discussion, it was de-cided to sak Government to take steps to have the plant reconstruct-ed in steel at an early date and put into working order.

The Secretary read a letter from the Kitale Chamber of Commerce augresting the formation of a Land for the Trans Nuois and outlining augrestic constitution for such Board. The meeting approved of the principle both suggested that clude all the members of the Agi clude all the Ag

considered that the present crisi-ing creamerize were ample and that no new ones should be started with public funds. It was strong-ly in favour of starting a mest works for disposing of dud stock. It considered that the livestock officer was superfluous considered that were was superfluous

Another Important matter was the board of Agriculture a quasilionative on the subject of power fasts. The Secretary had elsevatives of members but only half under the subject of the fast of the subject of the s

them, and their keep costs next to nothing.

Mr. C. H. Perguson brought up the matter of the theft of guner hags by natives. This as a matter that is assuming alarming proportions and it is difficult to proportions and it is dimented acces what can be done to stop it as one gunny bag looks so another.

One farmer was forced to leave some full begs out on the shambs for a night during the last harvest. When he returned the next mooning, the wheat had been emptiad out on the ground and the bags stoles. Another farmer whose house is some way from his shambs redomed that he had had shambs redomed that he had had

anamas reckoned that he had hid as many as 200 begs stolen during the year.

It was decided, as a temporary measure, that the Secretary measure that the Secretary should make a list of everyone's themed is the district and that farmers should mark their begs and or mark their begs and or farmers should mark their bags and on no account give or self them to the boys. It was realised that this was unsatisfactors, but it was hoped that it would help until aomeone came forward with a brighter idea.

Distributing Agents:-The African Mercantile Company, Limited,

To the Estror, "E.A. Standard."
Sir,—The wheat farmers of
Kenya are in a very fortunate
position. This may sound a very but nevertheless they are fortun-ate because the wheat industry is the only big local industry that can with organisation and small self sacrifice, limit its produc-tion to fulfil local needs

The Wheat Pool is wrong. If we must have an artificial price we must nave an artinicial price (and in my opinion it is neces-sary) let us have it by a reduc-tion of acreage and hence a reduction of production. The natural re-action to the Wheat Pool will be an increased acreage Pool will be an increased acreage for wheat—this will mean an ever growing surplus for export and this again will keep the Pool price down to very nearly the present Pool price.

Find price down to very sawly the present but pine in 15000 and the present but pine is 15000 and the present but pine is 15000 and the present but pine is 15000 and the probable production will be allowed but pine in 15000 and the probable production will be allowed but pine in 15000 and the pine is 15000

next season will see a presperous wheat industry.

This plan would only hold good as long as the world export price was low; as soon as prices become firm, let the wheat

WHYS AND WHEREFORES OF MOTORING-No. 6.

# Why change YOUR CAR'S OIL?

Not because it wears out or hear its lubricating power. Good oil never does that. But in service it becomes contaminated or diluted, and it is because no mechanical method of demandig it has yet been devised that it is necessary to change the oil in your angles.

change the oil in your engine.

Oil thins out and apparently loses its body because it gets diluted by petrol, that is the heavy, unconsemed portions of the fuel which blow by the piston rings into the renkaless. A certain amounts of dilution goes on in every engine, but is not harmful unless it censeds approximately sorns 5-per cent. of the volume of all in the evaluates.

but is not hereful unbest it cannot approximately over 5 -per each. of the but were presented to the present of the present of

It is impossible to generalise on the subject of oil changing, but most engines need a change every 2000 miles, and some even less. So much depends on the type of engine and its conditions of service, but motor car manufacturers give reliable information on this subject in their books of instruction.

THE KIJABE MURDER CASE.

SATURDAY, OCT. 18, 1330.

Accused Committed for

A REVIEW OF THE EVIDENCE.

Memorandum to be Submitted by Magistrate for Defence.

Committing Matua Nzomo, the Wakamba native, for trial in the Supreme Court on the charge of the murder of Miss H. J. Stumpf at the African Inland Mission, Kijabe, in January last, Mr. H. S Fazan, the District Commissioner of Kiambu, tool the opportunity to review at length the whole of the evidence presented for the Crown at the investigation which he has conducted

Mr. Fazen began his summary that he touched a clock and a with what he described as a per lamp in the house of deceased, the evidence that those are his with what no concreted as a per-"It's uncomment for a magistree for try or ease of which he has at the control of the control secoles, however, that since that is only the preliminary learing in the Lower Court, the case could not be prejudiced in any way, and my previous experience of it might evan help in reavening the facts, which, after all, is the principal function of a preliminary inneries.

meaning might be objected, however, that there must increisely be present in my mind points suggested yestigated with his point and the property of the proper

Review of Evidence.

Ching on the region to prilatench and the property of the

finger-prints is thereby strongth be touched them, the whole case falls to pieces. And if his statement is not true, it is possible that even an imposent man, hearthat even an imposest man, base-ing we experts assers that fieger prints found at that scans of the even were sent to the scans of the crime were his finger-prints, even though they were not his finger prints, might despair of proving as much, and invent a story to account for them. In my opinion account for them, In my opinion are sent to the sent to the sent to must stead or fall by whether they sent be proved beyond doubt must stand or fall by whether they can be proved beyond doubt by the experts, independently of any admission which the accused has made. That is a point of fact, which the Supreme Court will have to dends." As to the time when the finger-prints were pieced on the clock and lamp, Mr. Fazan said it was and innep, Mr. Faxan said it was curious that only at it late wage in the proceedings had the fact come to light that the clock re-garding which Mr. Probet, of the Mission, had given evidence, was not the clock on which the finger-printer were found. It was a point that would have to be made more that would have to be made more clear in the Supremo Court. Meanwhile, he did not care to express any opinion as to what opportunity the secured might have had to touch the articles in

The District Commissioner want on to say that he was greatly impressed with the evidence as to the way in which accused was alleged to have got into and out of the house, and he tound it general manner of the assault was a described. There were, however, important points to be urged in defence, and in particular he referred to the flootrantia, whose commission was in death. He said. conversily was in feath. He said.

"The evidence gives by M.
Magner and Capt. Trylor. (M.
Magner and Lape. Trylor. (I be differed that those foot-priets not only may not be, but could not be, the foot-prints of the accessed. If that is believed, then it cannot have been the accessed who leads through the weekow and assaided. Miss Stumpf in the insunner superiord by the proceedion. The

SATURDAY, OCT. 18, 1880. SETTLERS DEFEAT **OFFICIALS** 

PROBLEM No. 1160. By the Rev. H. W. Sherrard. Black Pive.

KENYA MINING LAW.

Public Invited to Send in Criticisms.

Some weaks ago the Karya-Minos Disputement issued a number of the control had refer the control of the control

Main Object.

The main object of the Bill is to secure, uniformly of Legislation with Tenganyla and Uganda. It was a secure of the Control o (a) The Bill bears to De-

(a) The Hill leaves to Regre-lations (which will be pre-cribed when the Bill becomes law) such matters as fees, rents, royalties, shapes and areas, concerning claims and leasas, concerning claims and leasas, registration of titles and worth-ing conditions. These matters are at present embodied in the existing Octionance, with the existing of tent on datum, which is more key public.

(b) The principle of sole ex-ploration licences for all mine-rals over small areas is con-ceded in the Bill. The present law contemplates such licences being granted only for a mineral of great public importance, e.g. coal.

e.g. coal.

(c) At present there is no time limit for claims provided that working conditions are observed. The Bill provides for the yearly renewal of claims. the yearly renewal of claims.

(d) Leases will vary from 5 to 21 years, instead of being fixed at 10 years as at present.

(e) Claims and Mining Titles will be registrable in Nairobi instead of in the various Districts as at present.

The Warden of Mines, whose office is in the Survey and Begistration Department in Government Boad, will be pleased to explain any matters in the Bill which are not readily understood.

THE SAFETY OF YOUR CLOTHES DEPENDS ON YOUR SOAP

To be sure of absolute protection for your clothes always wash them with Sunlight Soap. Then they are safe, for Sunlight Soap. So pure it cannot harm anything. By its regular use the life of your clothes is considerably lengthened. This colour and thus softness of their texture are preserved, and they always look

It is because Sunlight is so good to clothes that millions of women of all nations prefer it to any other soap in the world.

Every tablet carries the Surlight £1000 guarantee of purity.

Something to sing about! CHEEP! CHEED !!! and oh so good! Bird's Custard is creamy and delicious. It is made in a moment, and with stewed, fresh fruit, or a tin from the stere, you have ready almost instantly a cooling, refreshing and delicious dish, full of noursehment and BIRD'S Custard
