How is your face after shaving? Is it ready to smile or has it that semi-annoyed feeling it is tender?

Gilbs Shaving Cream or Gilbs Lather is a face that soothes, soothes, comforts. Every last bit of scabbed, sore, stinging away is skinned. The water-bubble lather has soaked every hair that is in Gilbs Lather taking the razor as easy as if that semi-annoyed feeling is all trace of tenderness.

Thousands of innocent people are mortally ill each year as the result of poisonous miasms. They all are suffering your homes right now. Kill all these hidden pests and prevent with the germicidal essence. It's all in one jar. Spray 75.

WAVE OF REPUBLICANISM IN SPAIN.

Significant Statement by Leaders. VICTORIES AT THE POLLS. King Convined Votes Directed at Himself Personally.

The results to date of the Municipal elections in Spain have astonished even the Republicans themselves as to the extent of their victory. The full returns, however, are not yet available, and results in many rural districts are expected to counter-balance the sweeping Republican successes in the larger centres.

A notice which has been published in the Press by the Republican leaders states that it is those in power had not learned that the Republicans were prepared to assume full responsibility before the nation and foreign powers.

This message is considered to be a challenge to King Alfonso, who is said to have stated to a Minister that he was convinced that the Republican votes were directed at himself personally, and therefore he considered it his business to arrive at a clear and definite solution of the affair.

It is understood that the Government has decided to resign, following a lengthy meeting of the Cabinet. It was emphatically denied that the Cabinet even mentioned the question of the King's abdication.

The Position of the Monarchy.

Madrid, April 15.—Depression was noticeable in Government circles today, though, referring to some ten thousands of rural districts, are expected to counter-balance the sweeping Republican victories in the larger centres. No Demonstrations.

REAL PRODUCTION AND PREPARATION.

Real Production and Preparation. Edited and brought to the Press by H. Howard Smith. London: George G. Harrap & Co., Ltd., 1933. Crown 7s. 6d.

In these days with their cost of production so high, it is interesting to learn how a picture is made from the conception to the exhibition, especially the part which has to do with the actual production and preparation of the picture.

The author was very much interested in the various phases of the production of a picture, and he has written a book which is not only a valuable reference work, but also a very readable and interesting one.

The book is written in a clear and concise style, and is well illustrated with photographs and diagrams. It is a book which every student of the cinema should have on his shelves.

EMPIRE THEATRE.

The story of a girl with ultra-modern ideas, who marries a man who is a success in the world, but who is not a success in the home.

The Weather.

LITTLE RAIN THROUGHOUT THE COURSE.

The British Red Air Force meteorological service in its reports on weather conditions in the East Africa zone, up to 9 p.m. yesterday stated that the fall in temperature reported yesterday was a temporary phenomenon.

High clouds prevail, except at Mombasa. There has been little or no rain, with the exception of Nairobi, where 0.1 in. was recorded.

General Sir Herbert Gough is to sell the story of the Fifth Army in a book that has been definitely announced for publication.

REVISED IDEAS OF HILTON YOUNG COMMISSIONER.

Mr. J. H. Oldham a Convert to the Communal Roll.

CLOSER UNION "PREMATURE."

How Commission was Influenced by South African Experiment.

Mr. J. H. Oldham, one of the members of the Hilton Young Commission, made several interesting and important admissions in his answers to questions by the Chairman of the Joint Parliamentary Committee.

He again emphasized that the fundamental question was whether decisions affecting racial interests would be taken by a vote in Legislative Council or by the imposition of an arbitrary authority.

Mr. Oldham confessed that though the Report he signed declared that a Company Roll should be the aim in East Africa, he had since come to the conclusion that a communal system was more logical and more in line with the views of the majority.

He told the Committee that, actually, the Hilton Young Commissioners had been inclined to agree with the Grimsby-Gore Commission that Closer Union was premature.

His hesitation had been overcome by the story told by Mr. J. H. Oldham.

Mr. Oldham thought the appointment of an official with no executive powers to set as the 'eye of the needle' would be the first step to a Central Government and questions of status and authority should not be allowed to determine evolution.

The Mandate's Limits.

(Following is a further analysis of the views of the various members of the Hilton Young Commission.)

Mr. Oldham's views on the Mandate's limits were expressed in a speech on the 10th inst.

He said that the Commission had been asked to consider the limits of the Mandate's authority.

He stated that the Commission had concluded that the Mandate's authority should be limited to the administration of the territory.

He further stated that the Commission had decided that the Mandate's authority should not extend to the disposal of the territory's land.

He concluded that the Commission had reached a unanimous decision on the limits of the Mandate's authority.

He stated that the Commission had also considered the question of the Mandate's duration.

He concluded that the Commission had decided that the Mandate should be for a fixed period of years.

He stated that the Commission had also considered the question of the Mandate's termination.

He concluded that the Commission had decided that the Mandate should be terminated if it was found to be in the interests of the territory.

and oxidized, which possible in the fact that "Nairobi" was the work that had already been done to combat the danger from locusts.

Three Difficulties. When in East Africa he came to know that the locusts were a very important factor in every part of the continent of wild animals. The first difficulty was that the locusts were very numerous and often in great numbers. Secondly, there was the question of the right of the locusts to feed on the crops of the farmers. Thirdly, there was the attitude of the locusts towards the crops.

### RAILWAY CHARGES TO CONGO.

[LONDON] (CORRESPONDENT)—The Annual Meeting of the East African Section of the Legislative Chamber of Southern Rhodesia, held on March 18 with Sir Donald Cameron in the chair, had as its main item of business a letter from the Colonial Secretary on the Congo Railway Development. Sir Donald Cameron said that it was a very valuable paper, and that it was a pity that it was not more widely distributed. He said that he had seen a number of copies in London and had been anxious to appoint a local committee to consider certain questions which were raised in the letter. He said that he would be interested to know if the Chamber had any views on the subject, and that what was suggested in the letter should be established in the form of a resolution.
