The Right Side.

It is extraordinarily easy to present circumstances to the public in such a manner as to lead to a mistaken impression. There is no need to present an illustration. It is more difficult to see an object in its proper perspective than to see it in a distorted one. The Daily Report by the Commissioner of the East African Protectorate, Kenya and Uganda, is the first object of the kind commonly known as "The Right Side." It is a very interesting and well-written work, and it is a very valuable one. It is a very valuable one. It is a very valuable one.

Imperial Air Services. SUBSTANTIAL INCREASE IN MAILS CARRIED. ("STANDARD" CORRESPONDENT).

There has been a substantial increase in the amount of mail carried by air mail during the first three months of the year 1932, owing to a slight decrease in the amount of air mail carried by surface mail.

The services to India were again larger than to any other country and showed the same increase of 34 per cent. The destinations of the Imperial Air Services were satisfactory, the proportion of mail for Europe, Africa and Asia amounting to more than one-third of the total mail carried during the March quarter.

State for the Colonies at the request of the Government of the Colonies, if any Indian were concerned from each of the three Territories concerned, a list of the names of the holders of the licences, and their power to hold up a licence issued by this Council.

(17) It is proposed that legislation and administration of such a nature as to transfer to the High Commission, Customs, Police and Telegraphs, extradition, research, and other matters, now in Kenya which are the province of the High Commission. Now in Kenya at present these matters are all administered and controlled by the High Commission, where the officers are represented by 11 elected members. On the High Commission's Council it is necessary to propose any legislation which may be proposed to the High Commission, and it is difficult to see how the High Commission can be empowered to do this in the absence of the High Commission's Council.

What Women Want. For of these women, and upon particularly in view of the growth of political agitation and social reform, and further in view of the necessity for not overlooking the woman's factor in the present program. It would seem that the High Commission's Council in Kenya that consideration of women's affairs should be given.

C.N.C.'S SCHEME FOR SEPARATION.
Governor With Two Commissions.
SHARING THE REVENUE.

Legislature Not To Discuss Laws For Native Areas.

Mr. G. V. Maxwell, Chief Minister of Kenya, announced to the Joint Committee on Land on the 18th inst. that he had in his hand a scheme for the division of Kenya into two Commissions, one for the white population and one for the native population. This is the first step towards the separation of Kenya into two states. The scheme is as follows:

(1) The division would be a geographical and not a racial one. The white population would be divided into the Colony and the Northern Frontier District, while the native population would be divided into the Northern Frontier District and the Eastern District. The scheme would be subject to the approval of the Legislative Council.

(2) The Governor of Kenya would be appointed by the Crown. He would be the head of the Government and would be responsible to the British Parliament. He would be assisted by a Council of Ministers.

(3) The Governor of Kenya would be responsible for the administration of the Colony and the Northern Frontier District. He would be assisted by a Council of Ministers.

(4) The Governor of Kenya would be responsible for the administration of the Northern Frontier District and the Eastern District. He would be assisted by a Council of Ministers.

(5) The Governor of Kenya would be responsible for the administration of the whole of Kenya. He would be assisted by a Council of Ministers.

COST OF BUTTER IN THE CAPITAL.
Nairobi Discuses the Case.

The Nairobi Municipal Council has been discussing the case of the high price of butter in the capital. The council has decided to investigate the matter and to see if it can do anything to reduce the price.

The Association is in favour of the proposed butter tax, as it will help to reduce the price of butter in the capital. The council has decided to investigate the matter and to see if it can do anything to reduce the price.

The proposal of the motion was moved by Mr. J. J. Wood, who said he had been asked to introduce the bill. He said that the bill was necessary to reduce the price of butter in the capital.

The bill was introduced by Mr. J. J. Wood. He said that the bill was necessary to reduce the price of butter in the capital. The council has decided to investigate the matter and to see if it can do anything to reduce the price.

COUNTY CREEK PROSPECTS

England's Next Captain

HAVE FLYING BEEN RABBIT BRIBED?

London, April 10 (By Mail). Every country has been busy with practice and although the practice has not been of the highest order work has been cheerfully undertaken. It is recognized that this is a transitional season as England has to build new teams from the win back into the Ashes which was lost in 1936.

It is thought that the Africa tour has again been very badly drawn up. Time-honoured names from Middlesex and Surrey have been wiped clean and there are some who think that this is purely as a friendly bid.

The great question of the moment is, who is to be England's next cricket captain? I understand that the selection committee kept by the advertising commission during the summer on Mr. M. T. Furnish, the Gloucestershire skipper, has been a wonderful success. Mr. Furnish had an average of 94 in his 129 innings. He got his 100 in the 129 side. He has toured with England to the West Indies, New Zealand and South Africa. He is only 27 years of age and has a lot to learn, but cricket quizzers that have the fine players in hand and held, with a view to lead, and the selection committee which is looking for in an England captain.

There was some surprise over the break of Patrick O'Connell, Kent, the Navah, who is now an Indian cricket captain, qualified to play for Kent two years in the team. When asked who he was to play for Kent this year the prince replied that he was qualified to play for Kent two years ago but was told that his services were refused in 1936. He had also qualified for the county.

"There is no question of a 'color bar' said Lord Harris, the club, when he was told of the Navah's inclusion and it is not true that I told the Navah of Patrick's services were refused in 1936. He was a visitor to that club in 1936 and he should be included in the team to the exclusion of a county man. We allow man to play for Kent who were born in the county or who have qualified by residence for the county."

The Navah of Patrick, however, disagrees with Lord Harris. "I do not want to open any controversy," he said. "I was as the Kent versus Middlesex match two years ago when Lord Harris came up to me and said, 'I have your name written to play for us,' I said, 'I am quite well as a rule,' I am sorry, we make it a point of playing only Kent men." At that I gave up the idea of playing for Kent, and qualified for Middlesex.

Apparently the Clubs intend to make an effort to win matches this year and not draw them. Greenwood, the new Captain of Yorkshire has been told by the Yorkshire committee to go out for a win every time, and several of them will be held.

It should be glad to have in the side. The result of the outright increased to 15 points, the total of the slipper may go further than ever to shape team's fortunes. Enterprise has been given an added value and a special place upon "risky" The Black Horse.

At Oxford there is apparently a shortage of bowlers, but it is said that the holding, which was supposed to have been the best of the season, has been found to be very good. There are no more first-class players in the county. As regards the batting, the only player in the county is Captain G. D. Kemp-Pool. He has the task too far from the main body of the team. He has a really good bowling action, but smaller bowling is the present moment has a pretty low level.

Rubber as a Raw Material

NEW PROGRESS TO REHEAT INDUSTRY.

Volcanizing Fabric Rubber to Iron or Steel.

With the commercial development of sheet rubber, steel and other metal has been extensively used by the Goodrich Rubber Company of Akron, Ohio, in the manufacture of rubber as an essential constituent of the modern motor car. The process of vulcanizing rubber is a process of chemical union of the rubber with sulphur, which is done in a special apparatus known as a vulcanizer. The process is carried out in a chamber containing steam and water, and the rubber is heated to a temperature of 300 degrees Fahrenheit for several hours. The result is a material which is much stronger and more elastic than the raw rubber.

The development has been made possible by the use of a special process known as the "Goodrich process." This process involves the use of a special type of rubber which is known as "Goodrich rubber." This rubber is made from a special type of latex which is known as "Goodrich latex." The process of vulcanizing this rubber is carried out in a special apparatus known as a "Goodrich vulcanizer." The result is a material which is much stronger and more elastic than the raw rubber.

Use of this process makes it possible to use steel tanks, for example, with such lining of rubber which remains flexible and does not become brittle. The process is carried out in a special apparatus known as a "Goodrich vulcanizer." The result is a material which is much stronger and more elastic than the raw rubber.

Several installations of rubber rollers for abrasive materials have been made in various parts of the world. The rollers are made of a special type of rubber which is known as "Goodrich rubber." KIKUYU CHIEF STATES HIS GRIEVANCES

Koinage Before The Joint Committee.

NATIVES FOR LEGISLATURE.

Application of White Paper on Native Policy by Deeds.

The Kenya Native visitors before the Joint Committee presented a memorandum stressing three points:

- (1) That native representation on Legislative Council should proceed closer Union.
(2) That native representatives should not be selected by Whites and that all laws should be translated into Kiswahili.
(3) That the White Paper 'Memorandum on Native Policy' should be printed in deeds and not merely in words and should not be altered without Native consent.

Chief Koinage described the Joint Committee as his 'father' but his mother was 'his land'. If his mother died he would cry—but he would cry more if his 'mother' suffered equally.

In his speech on his belief that natives had been deprived of their lands under the 1926 and that native reserves were insufficient. He asked Government to buy more European farms and return them to the natives.

Koinage entered objections to the Registration system, asked for better education and medical services and urged expansion of agriculture, including the cultivation of coffee by natives, and higher wages for labourers.

The Land Question.

London, May 29. (BY WIRELESS.) The three letters written by Mr. G. B. Smith, Chief Koinage M.P., Mr. James Mbatia, M.P., and Mr. J. P. Mbatia, M.P., to the Joint Committee on Native Policy, Nairobi, on the subject of the application of the White Paper on Native Policy to the natives of the East Africa Protectorate, have been received.

The Whites submitted the following memorandum:

In regard to those districts of the Protectorate of which the opinion that natives should be admitted to the Legislative Council of the Protectorate, the Committee of the Protectorate have decided to make no recommendation.

The Committee has decided to make no recommendation in regard to those districts of the Protectorate of which the opinion that natives should be admitted to the Legislative Council of the Protectorate, the Committee of the Protectorate have decided to make no recommendation.

Mixed Farming.

The question of whether Kenya should be developed along the lines of big or small farms has received considerable prominence recently, stimulated by the provocative views of the Humphrey Luggatt, (formerly the Chairman of a company with a large acreage) in a conference held prior to the Joint Parliamentary Committee's evidence on the country, and who are to be heard in the near future. The question is one of the most important in the history of the Native population as well as the future of the Colony.

Uganda and the Locusts.

The position which confronts the East African territories is reported to the local news in no decreasing in the gravity of the situation. The locusts are very numerous in the territories, and the Government is being forced to take steps to protect the territories. The situation is being handled differently in each country, and with varying degrees of success. The Government of the United States of America is a vigorous campaign against the locusts, and is reported to be doing so with great success. In Uganda, the locusts are reported to be doing so with great success. In Uganda, the locusts are reported to be doing so with great success.
