EAST AFRICA DOES NOT WANT COLOUR BAR.

Kenya Witnesses Reject Union's Native Policy.

BUDGET METHODS EXPLAINED.

Scope of Proposed Advisory Committees Outlined.

cussing with the Joint Committee the danger in-herent in any political changes which placed con-rol of policy in the hands of a European minority, the Kenya settler winesses laid emphasis on the willingness of the country, to agree to the inclu-sion of powers of veto and certification in the constitution.

actions on the finances of Kenya gave them an opportunity of explaining the procedure in con-naxion with the Budget and of disabening the minds of the Committee of any idea that any con-trol over financial programmes rested in the hands of the Betecta Members.

witnesses also stated that there was no desire in Kenya to adopt the Native Policy—and its Colour Bar principles—in East Africa.

he delegates enlarged upon their alternative scheme of Advisory Committees explaining their scope, their limitations and their value in keeping the Governors of each Territory aware of opinion in neighbouring countries

Checks Upon Minority Control.

ollowing is a further extract in the evidence given in London the Kenya Settlers' delega-

ed in favoir or their own represen-tative.

Lord France agreed that was a possibility which all fain-minded men could not lose with of. But they were quite prepared, those dangers should be use by veto and cortification. They had never asked to be "placed in the position of a diclatorship or to have com-plete power."

Why do TODAY'S TYRES

LAST so much

LONGER

THE fear of tyre trouble haunted every motor trip fifteen years ago. The early tyre of that era was built to resist rather than to absorb road shocks. Consequently it lacked flexibility. Blowouts were common; 2,500 miles was big mileage.

With the adoption of balloon tyres, a new principle in tyre making was introduced. They absorbed shocks instead of resisting shocks.

Not only was comfort increased but tyre mileage also was raised to new levels.

Then Goodyear, always experimenting, produced Supertwist—a specially twisted cord material, up to 60 per cent. more elastic, more flexible and more durable than any previously made.

Building of Goodyear tyres, henceforth, was confined to use of this new cord.

Supertwist, with its far greater ability to stretch and recover, absorbed the blows of the road and increased the mileage in all Goodyear tyres to levels hitherto thought impossible in any tyre even a Goodyear. Elasticity accomplished what strength alone could never do. Because of this added vitality, Goodyear Balloons became the standard, universally recognised and approved.

And thus, in time, Supertwist became one big reason why the world over, "More people Ride on Goodyear Tyres Than on Any Other Make."

a ist Nairobi Battalion of the Kenya Defence Force, as part of their annual training under canvas, yesterday engaged in a mimic battle on the out-skirts of Nairobi.

The objective of their affack was the Wireless Station at Kabete which was held by a force of robbel composed, in this instance, of schoolboys from the composed, in this instance, of schoolboys from the troops in attacking formation moved upon the wireless Station and openually, after a series of wall executed movements across difficult country, succeeded in capturing their cobjective.

Considerable credit is due to the officers and men of the Defence Force and to the schoolboys for the organisation and carrying out of this mimic battle.

With the co-operation of Messrs. Wilson Airways it was possible to include aeroplanes in the encoun-ter and with flour bombs taking the place of more substantial ammunition, the defending rebels were aided in their opposition to the law-abiding troops.

Kenya Delegates Wordy Duel with

moll Secretary of State. 10710 9

Kenya settler witnesses, during their cross-examination by the Joint Committee, were engaged in a wordy duel by the Secretary of State for the Colonies, Lord Passifield, who expressed his surprise that the settlers talked about the para-

suntcy of native interests as a new policy.

Secretary of State regretted that the phrase "immigrant races" had been used in the White Paper of 1930. It was used, he said, quite innocently.

Lerd Francis Scott said the settlers felt that a new interpretation had beengiven to it. "That," said Lord Passfield "is the right answer."

Lord Passheld set out to prove that the settlers of Kenya had been more and more closely associated with the government of the Colony and with the trusteeship of the African, citing the unofficial representation on the Native Lands Trust Board and the Board of Agriculture as the two main

er a l'ing discussion, Lord Francis Scott said to Lord Passfield: "Can we take it that you are in favour of closer association?"

THREE TEN-THOUSANDTHS OF AN INCH

An informative master for the good performance of the new Ford is the precise core with which incohanical parts are made and assembled. Many measurements are securate to one one-chousandth of an inch. Some to three ten-chousandths of an inch.

To insure perfect fit in the cylinders, the aluminum pistons are held true to within one one-thousandth of an inch of the specified diameter of 5½ inches. Wrist-pin holes are diamond horset to within a variation of three ten-thousandths of an inch. The valve stems are held

zacty in diameter to within one one-thousandth of she along their entire length.

Every Ford crankshaft is statically and dynamics alanced, with a minimum of 174 checks for accurs and is machined to measurements as fine as five to consendths of an inch.

thousantna or an team.

This craftmanship in volume production, combined with simplicity of design and high quality of materials, is the reason for the good performance, economy and long life of the Ford. Come in and let us explain the many other feats at make it a value far above the price.

of State. EAST AFRICAN DINNER SPEECH

Time Not Opportune Owing to the Depression.

Af the annual dinner of the East African Dinner Club. Lord Passfield, Secretary of State for the Colonies, was the principal speaker

During the course of his address he indicated that, owing to the depression through which East Africa was passing, the time was not opportune for embarking upon a scheme of closer union, either constitutional or economic. The whole question, therefore, might be postponed.

He paid a tribute, however, to the Joint Parliament ary Committee, which body he said had carried out useful work and had obtained very valuable

also referred to the visit to England of the African chiefs, who had created an excellent impression. He added that African development should not be forged too fast or too far, although the door should be closed to the advancement of any native of exceptional ability.

Sir Ali ed Sharpe, late Governor of Nyasaland, who presided, said East Africa suffered from being too much in the limelight, with its numerous commissions. sions, committees, suggestions and criticisms. He referred to the old days when the countries were allowed quietly to work out their own salvation.
