The Maize Commission Proposed

The public interest by the continued low price of maize has produced a stream of suggestions for its regulation in Kenya. Today, despite the fact that the Government is endeavoring to regulate the price to the benefit of the consumer, the public interest in the regulation of the production and distribution of maize has had to be considered, and the Maize Commission has been set up to carry the industry over the next five years. The Commission is to be a body of five members, one of whom shall be the Government, and the other four shall be representatives of the industry, one of whom shall be the Government, and the other four shall be representatives of the industry, one of whom shall be the Government, and the other four shall be representatives of the industry.

THE EAST AFRICAN STANDARD

It is notified for general information that the objects of the Commission shall be to regulate the price of maize to the benefit of the consumer, and to regulate the production and distribution of maize to the benefit of the industry. The Commission shall be a body of five members, one of whom shall be the Government, and the other four shall be representatives of the industry, one of whom shall be the Government, and the other four shall be representatives of the industry.

HUNTING BY MOTOR CAR OR AEROPLANE.

Regulations to be more clearly defined.

The Commission shall be a body of five members, one of whom shall be the Government, and the other four shall be representatives of the industry, one of whom shall be the Government, and the other four shall be representatives of the industry.

THE SHOW.

Harvested by the very different conditions which have ruled in Kenya this year, the show was held in the Third East African Agricultural Show Grounds, Nairobi, on the 1st and 2nd inst.

The Commission shall be a body of five members, one of whom shall be the Government, and the other four shall be representatives of the industry, one of whom shall be the Government, and the other four shall be representatives of the industry.

WHEN SHOULD A MAN DRINK WHISKY?

It is a common mistake to suppose that a little whisky is a suitable drink only at this or that time of day. Of course, there are occasions when it is specially appropriate, as an appetizer or a liqueur, or when the day's work is finished. It is in a properly blended amount to keep in you that a man may drink this White Whisky at any time.

THE JOINT COMMITTEE AT WORK.

Sir Samuel Wilson Stands By His Report.

WHITE PAPER CRITICISED.

Dangers of Re-Opening the Kenya Indian Question.

[STANDARD CORRESPONDENT.]
London, Dec. 11. The Joint Committee on the Kenya Question met today for its Committee Room in the House of Commons, the grand floor, all the members were present. Mr. Anson was in the chair. Mr. Anson made a point of Mr. Chamberlain's statement that he does not possess the power to alter the constitution of the Government.

The procedure is for the witness to make a statement of the facts, in the case of either the Government or the Opposition, will apparently be supported by written material submitted in advance. Council are to be heard, though the East African and Aborigines Protection Society put a claim today to be so represented.

A member of it in a hushwhispered of some of the facts, in the middle of the afternoon, to the other members of the Committee. The members of the Committee are allowed to make a statement.

Mr. Samuel Wilson's bright, cheerful and quite capable of doing any number of things, but in this case, he was not. He was not in the House of Commons today. He was not in the House of Commons today.

The chief questioners were Mr. Anson, Mr. Wilson and Mr. James Hargest. All standing in the House of Commons. Mr. Wilson made a statement of the facts.

On this point Sir Samuel was very definite. He said that he had never heard of a letter written to him in this particular point. It is very clear that the Government is not in a position to do anything.

This is the Chairman's first appearance before the Committee. He is a very good speaker. He is a very good speaker. He is a very good speaker.

Personally, too, I think the Committee is very good. It is very good. It is very good.

It was suggested at the end of it might mean the same work. It was suggested at the end of it might mean the same work.

TRACTION for soft fields—traction for muddy roads—traction for slippery streets—here's where your trucks need traction most. And you get traction—strong sharp, gripping traction—when you get the All-Weather Tread. It costs almost nothing to have this extra protection—this extra traction—because rain, mud and wet streets do little harm to new, tough rubber. See these tyres—get the price on your size—have your Good Year dealer demonstrate the features of Tread and carcass that have made Good Year Tyres world famous. Don't buy one of the leading makes—buy the leading make. It costs no more.

Holeproof Hosiery

The wonderful wisdom that enters into the brain of a pup is only a few weeks old, but in two instances lately, which were very family, at the time when my child was the first bridge I had two dogs with me, one an Alsatian puppy and one an Alsatian pup that had been, and more especially the puppy, who had never been out from its mother's side. I was very much interested in the fact that the pup had been out from its mother's side for some days, and I was very much interested in the fact that the pup had been out from its mother's side for some days.

Good Equipment Makes A Good Farmer Better

Make the Most of the
Bright Days at
Haying Time

Cut the Crop Quickly with a
McCormick 4 1/2 ft. Cut Mower

The McCormick Vertical Light Mower will cut your crop quickly and do a clean job at haying time. You can make the most of the bright sun with this mower in your field—there is no delay—the McCormick is the up-to-date, reliable, light-running mower.

Every working part is made of the most durable material. Hardened steel working plates set into the cutter bar prevent wear of the knife. Worn knives can be quickly replaced. Drop forged knife head and automatic plunger are exclusive features that make for long life and easy operation. The knife is equipped with the highest quality heat treated and tempered sections which give a clean, close cut.

To Handle Hay Quickly
and
Effectively Use

The Deering 3 ft. 30 Teeth
Self Dump Hay Rake

Deering self-dump rakes are well and favourably known wherever hay is grown because of their durability and easy operation. They dump quickly and the teeth retain low enough in the stubble so that there is no hay wasted, yet they do not catch in the ground. As the rake hits the cleaner rods float above and retard the hay so that it does not roll into ropy form. Deering rakes are easy to dump. Merely depressing the foot trips dumps the rake automatically. They are strong and durable and will give many years of satisfactory service.

COME IN AND SEE THE McCORMICK MOWERS AND DEERING RAKES NOW.
