HAKURU RUGBY TEAMS VISIT.

Handicaps Win a Good Game.

(Herald.)
Hakuru's first visit to Nairobi on Saturday, when our friends from the coast made a good game of sports with the local team. The first set produced a narrow margin, but the second set was a better affair, which perhaps had more to do with the fact that the visitors played as an earlier side would expect to do during the actual game.

From the outset it was apparent that the going was heavy, the second half was more so. Life was off from the club and it was the fact that the visitors had but from the early start and were not in the best of the light. They won every scrum and were in the lead. A touch-down relieved the pressure, but the visitors were in the lead. Some despatching play was shown, but the visitors got going in a way which was very pleasing to the home side. The backs on either side could get some of the best of the game. Nondoriphi's work in the scrum was very good. The visitors got going in a way which was very pleasing to the home side. NATIVE POLICY—THE YOUNGER GENERATION.

To the Editor, "E.A. Standard."
 Sir—I have read with profound interest the evidence given before the R.A. Joint Administrative Committee in England by the young natives of this country. I observe that every attempt is being made to give the natives and the progress and well-being of the Native Chiefs and Government Ministers such as Local Native Councils.

country were in the hands of the R.A. (C.M.S.) and the Native Institutions, with a view to the maintenance of the status quo. It is to be noted that the young natives were not allowed to speak in favour of their own views, but were only allowed to speak in favour of the status quo. This is a most unfortunate circumstance, as it is the duty of the R.A. to give the natives a fair hearing, and to allow them to express their views on the subject.

In his paper, Mr. H. J. H. has said that the young natives were not allowed to speak in favour of their own views, but were only allowed to speak in favour of the status quo. This is a most unfortunate circumstance, as it is the duty of the R.A. to give the natives a fair hearing, and to allow them to express their views on the subject.

It is in my opinion that the young natives should be allowed to speak in favour of their own views, and that the R.A. should give them a fair hearing. This is the only way in which the interests of the natives can be properly protected.

It is in my opinion that the young natives should be allowed to speak in favour of their own views, and that the R.A. should give them a fair hearing. This is the only way in which the interests of the natives can be properly protected.

It is in my opinion that the young natives should be allowed to speak in favour of their own views, and that the R.A. should give them a fair hearing. This is the only way in which the interests of the natives can be properly protected.

JEREMIAS HOKAKA.
 Kilimanjaro, 24/3/32.

The foregoing letter is published as an interesting contribution to the question of the Native Councils, and is the property of the young natives of this country. It is the property of the young natives of this country, and is published in this column for their benefit.

NORSE IN KENYA—TEMPERATURE.

To the Editor, "E.A. Standard."
 Sir—As this matter is a controversial one, and is being discussed in the country in both the "Standard" and the "E.A. Standard," it is thought that it would be well to give the young natives a fair hearing, and to allow them to express their views on the subject.

FINANCIAL PROBLEMS OF RAILWAY & HARBOURS.

Report on 1930 by the General Manager.

MORE WORK AND LESS REVENUE.

Influence of Growing Quantity of Low-rated Freight.

The Railway and Harbours Department has issued its report on the financial position of the railways and harbours for the year 1930. The report shows that the railways and harbours have worked at a loss for the second year running, and that the loss has increased since the year 1929. The main cause of the loss is the increase in the quantity of low-rated freight, which has increased from 1,100,000 tons in 1929 to 1,400,000 tons in 1930. This has resulted in a decrease in the revenue from freight, which has fallen from £1,100,000 in 1929 to £900,000 in 1930. The report also shows that the railways and harbours have worked at a loss of £1,100,000 in 1930, compared with a loss of £1,000,000 in 1929.

The report also shows that the railways and harbours have worked at a loss of £1,100,000 in 1930, compared with a loss of £1,000,000 in 1929.
