OFFICIALS AND SETTLERS CRICKET MATCH

Five Stand by Walter Brothers in Officials' Second Innings.

SETTLERS LOSE BY 235 RUNS.

Three Centuries Received.

In brilliant weather the annual officials' and settlers' cricket match was played on Friday of last week. The officials and settlers' team, captained by Mr. H. Williams, obtained an easy victory over the settlers' team, who were captained by Mr. J. F. Hall. The match was played at the off-boundaries. Two sets of wickets were used, each set consisting of two wickets. Two runs were awarded for a wicket taken in the first set, and one run for a wicket taken in the second set. The winning team received £100, while the losing team received £50.

The officials' team were well moulded, and neither captain nor coach could complain of any want of preparation. The wickets of the pitch, and Rhodes Mayers was fast, with an occasional break. The ball was good, and the wicket with the fastest batman was the best. The ball was fast, and the first change was excellent. Two runs were awarded for a wicket taken in the first set, and one run for a wicket taken in the second set.

The first set was a draw.

Williams and Hall made a good start, and both batsmen were bold. Williams was the first to fall, but he had a good stand with his partner. Mayers then took over, opening with a single, and then driving, scoring four 4's and a six. He then drove one through the on-fielders of Dartington, but soon followed up with a single, and then drove one through the off-fielders. Two more runs were awarded for a wicket taken in the first set, and one run for a wicket taken in the second set.

Williams and Hall then scored a century, Mayers driving one through the off-fielders, and then driving another through the on-fielders. Mayers then scored a century, and then drove one through the on-fielders. Two more runs were awarded for a wicket taken in the first set, and one run for a wicket taken in the second set.

Williams and Hall then scored a century, Mayers driving one through the off-fielders, and then driving another through the on-fielders. Mayers then scored a century, and then drove one through the on-fielders. Two more runs were awarded for a wicket taken in the first set, and one run for a wicket taken in the second set.

Williams and Hall then scored a century, Mayers driving one through the off-fielders, and then driving another through the on-fielders. Mayers then scored a century, and then drove one through the on-fielders. Two more runs were awarded for a wicket taken in the first set, and one run for a wicket taken in the second set.

Williams and Hall then scored a century, Mayers driving one through the off-fielders, and then driving another through the on-fielders. Mayers then scored a century, and then drove one through the on-fielders. Two more runs were awarded for a wicket taken in the first set, and one run for a wicket taken in the second set.

preferably the last. T. Walker had the hundred, and a draw was made for a draw.

Walter 96 for 7.

Then came the turn of the ladies, and the officials' team were beaten by 235 runs.

Officials' Second Match.

From the new year reached nine runs. Rhodes turned the long boy into a leg-breaker.

First Wicket Fall.

Another change was made in the officials' team, and the first wicket fall came when the opening batsmen, Rhodes and Hall, were dismissed.

Williams, Rhodes, and Hall, were the only ones to score, and the ball was used.

Williams and Rhodes, however, were the only ones to score, and the ball was used.

(Continued on page 97)

The double century had the effect of clearing the field for the winning team. The ball was very fast, and the batsmen had to be extremely bold, and Hall, after being bowled twice, hit the ball, the score then being 220.

Williams and Rhodes, however,

were taken before the winning team had been particularly good. Nothing was given away, and the ball and bat were very good, none of the batsmen being able to take any short cuts.

Officials' Second Match.

The ball was taken before the winning team had been particularly good. The ball was very fast, and the batsmen had to be extremely bold, and Hall, after being bowled twice, hit the ball, the score then being 220.

Williams and Rhodes, however,

FLOWER SHOW AT LIMURI.

Remarkably Fine Displays on Saturday.

The flower show held at Limuri on Saturday was remarkable, if one can judge by the quality of the flowers displayed. The public attendance was very large and the entries were on the increase better than ever before. The exhibits were indeedly representative of the best work done by our flower clubs.

Limuri was especially representative of the best work of the Lady Hyacinth Club, the flower committee of the Society of the Friends of the Soil, the Kenyan Association, which were all the most interesting exhibits seen there.

The following entries were made by the flower clubs in the competition, which were very numerous:

Flower Show Committee (Grade A); Mrs. A. C. D. A. D., Mrs. M. E. Graham, Mrs. H. J. Smith, Mrs. F. H. Smith and Mrs. M. E. Graham.

The following shows were on the winners in the classes:

1. Mr. and Mrs. H. Graham; 2. Mr. and Mrs. H. St. L. Fletcher; 3. Mrs. G. P. Martin, Mrs. V. M. O'Farrell; 4. Mr. and Mrs. H. G. P. Martin; 5. Mr. and Mrs. J. A. Ayre; 6. Mrs. F. C. T. Harmer, Mr. and Mrs. H. W. Harmer; 7. Mr. and Mrs. H. G. P. Martin; 8. Mr. and Mrs. H. G. P. Martin; 9. Mr. and Mrs. H. G. P. Martin; 10. Mr. and Mrs. H. G. P. Martin; 11. Mr. and Mrs. H. G. P. Martin; 12. Mr. and Mrs. H. G. P. Martin.

The flower show was held on the 14th October at Limuri. There were three days of displays, the first two being open to the public and the last two to the members of the society. The flower show was a great success, and it is to be hoped that next year it will be even more popular.

They were the best day's work I have ever seen in the history of the flower show, and the flowers were grown to perfection. It is to be hoped that next year the flower show will be even more popular.

An Interesting Exhibit.

One of the most interesting exhibits of the day was a collection of wild flowers, which had been gathered into the different corners of the flower show. A mahogany stool was standing in the middle of the room, and a small stool was standing to the right of the mahogany stool. The view was expressed by several people that these plants should be put in the flower show, so that they could be seen by a wider audience.

Mr. G. P. Martin had a stall, where he was the only exhibitor of roses in the flower show.

For the committee's part of the show, the flower show was the most important. They were well received by the committee. It was planned to have a flower show on Saturday afternoon in Nairobi.

An interesting exhibit was a collection of wild flowers, which had been gathered from all over East Africa. These were of various kinds, and some were rather uncommon. They were all in excellent condition, and had been carefully prepared by flower clubs.

- 2. Mr. and Mrs. H. Graham; 3. Mr. and Mrs. H. G. P. Martin; 4. Mrs. F. C. T. Harmer, Mr. and Mrs. H. W. Harmer; 5. Mr. and Mrs. J. A. Ayre; 6. Mr. and Mrs. H. G. P. Martin; 7. Mr. and Mrs. H. G. P. Martin; 8. Mr. and Mrs. H. G. P. Martin; 9. Mr. and Mrs. H. G. P. Martin; 10. Mr. and Mrs. H. G. P. Martin; 11. Mr. and Mrs. H. G. P. Martin; 12. Mr. and Mrs. H. G. P. Martin.
- In connection with the show, it is a matter of interest to note that there were several entries in which Misses G. R. H. and Mrs. J. D. Fletcher, Mrs. A. G. MacKenzie, Mrs. M. E. Graham and Mrs. M. E. Graham had entries.
- As a result of the flower show, it is probable that many new flower clubs will be formed. This is a good thing, as it will help to spread the love of flowers among children, old people and young people.
- There were also several entries in the vegetable section, which were quite good. The vegetables were especially representative of the best number of points in the vegetable entries. The following shows were on the winners in the vegetable section:
- 1. Mr. and Mrs. H. G. P. Martin; 2. Mr. and Mrs. H. G. P. Martin; 3. Mr. and Mrs. H. G. P. Martin; 4. Mr. and Mrs. H. G. P. Martin.
- The flower show at Limuri was a great success, and it is to be hoped that next year it will be even more popular.

DEATH TRAPS IN THE KENYA CAPITAL.

Decreasing the Margin of Traffic Safety.

The recent withdrawal of the road traffic守護神 from the capital is a result of the fatal accident that occurred this week, making it increasingly difficult to maintain safety on the roads.

For two authorities—the Government and the Motor Vehicle Department—have decided to give more attention to the difficult question of traffic control.

Within the Municipality of Nairobi, which is definitely dangerous, there has been a steady increase in road accidents. A recent accident in Nairobi, on a two-lane bridge across the Nairobi River, has caused the death of a woman and the Salvation Army drummer who had been crossing the river. It is believed that the accident was caused by through traffic and by drivers who do not observe the rules of the road.

Various organisations, including the Kenyan Association of Merchants and the National Council of Towns and Cities, have issued statements calling for greater care in driving and for a better system of traffic control.

One of the major causes of these accidents is the lack of care in the use of the road by drivers. In particular, drivers are advised to take extra care when driving on narrow roads, especially in the evenings.

It is hoped that the recent accident will serve as a reminder to all drivers that they must always drive safely and that they should never drink and drive. It is also hoped that the accident will encourage drivers to use their headlights and to drive more slowly at night.

Some Examples.

At the majority of these accidents, it is found that the police have not been able to find any evidence of driver negligence. In a recent accident in Nairobi, for example, the driver of a car was found to be drunk and was unable to stop the vehicle in time to avoid a collision with another car. The driver was found to be under the influence of alcohol, and police took him into custody.

It is hoped that the recent accident will encourage drivers to take extra care when driving at night.

In the early morning of Wednesday, October 12, a motorcyclist was killed at a junction in Nairobi. He was hit by a car which was driving at high speed. The driver of the car was a man named John Wilson, who was driving a Ford Model T. The accident occurred at a junction between a busy street and a side road. The motorcyclist was hit by the front wheel of the car, and died immediately.

In the afternoon, a

motorcyclist was killed at a junction in Nairobi. He was hit by a car which was driving at high speed. The driver of the car was a man named John Wilson, who was driving a Ford Model T. The accident occurred at a junction between a busy street and a side road. The motorcyclist was hit by the front wheel of the car, and died immediately.

KENNEL NOTES.

by Margaret Collyer

THE SPEED LIMIT IN NAIROBI.

Absolved Outside the Central Area.

According to the "Kenya Police Force Review" for October, no speed limit has been imposed in the central business district, and in the old fifteen miles (or central) area visitors to Nairobi are not required to drive with the right hand or to stop at the speed limit of 30 miles per hour. This limit is retained.

This decision was taken by Major General Sir Gordon Thompson, commanding officer, when it was decided to keep the speed limit in the city.

A New Narcotic.

GROWING OF THREE BORDER MOUNTAINS, KENYA.

With the addition of the three border mountains, Kenya now has four parks for you, and your feet are well protected from the heat and the sun. The three border mountains are the highest peaks in the country, and they are now open to the public.

Let Wincarnis be your ally when you go on vacation. The parks are open to the public, and the beauty of the parks is now available to you.

Over 10,000 visitors come to the parks every year.

CORRESPONDENCE.

Mr. Miller does not expect responsibility for the actions reported by his correspondents as there have been so many false reports and stories of the waterworks and railways and so much official and personal correspondence from the public in this connection.

Railway Policy.

OUR ATTITUDE OF UGANDA.

To the Editor, "E. & Standard":—We are sure you will agree with us that our attitude is one of honest and open-heartedness. That we are up to all of us to do the best we can for Uganda.

We shall certainly not do this unless we make an honest endeavour to ascertain all relevant points and we shall only then act on the basis of what we learn in our investigations and when acting in responsibility and when such is done.

A well-distributed and powerful paper like yours could do much to promote mutual understanding about a far better understanding and bettering the welfare of our people in Uganda. We may well make the Ugandans live better, any better if you are referring to the condition of Uganda as you have sought to depict in your article of August 1st.

As far as your year-end statement of "the people of Uganda are most unsafe and that the administration is based on facts would he be most surprised and disappointed if you could in any way ascertain that it is, in my opinion, the real fact."

You say, "(a) the attitude of the Government towards this whole problem has been due to the pressure of the public." I take it by "public" you mean the finance of the Konya and Vira. Second, Uganda's (b) "attitude of the railway and its failure to pay off the debts we owe him"; and (c) "being incapable of seeing the situation in which Uganda is at the hands of railway officials". The burden of railway difficultly and responsibility seems unavoidable to expect that Uganda should be encouraged to support the railway.

With regard to (a) what are your facts? The financial position for the many years past must vary greatly. If you could give us the information to the formation of the Inter-territorial Council every penny of these debts was paid over to the Kenyan Government. There appears to be no argument concerning the amount of money or the exact earnings of the railways were derived from the Kenyan Government.

With regard to (b) what are your facts? The railway in Uganda is compensated that Uganda has not only repaid the debts of a previous period in full. There once again to pay the debt is a question of the available income or in so far as going to pay the debts of the railway finances suffered and how much are the present high interest charges on these borrowings due to the Kenya Government. There appears to be no argument that it had no right at all? No doubt my dear Sir, is to agree on the first two counts, but every dealer who is engaged in the railways and his wife are disappointed.

With regard to (c) we are in Uganda have always protested against the wrongs of the railway in military flights and on the roads made in carrying out contracts.

I am sorry that this subject should be brought up again so late in the year, agreed that a similar arrangement as that now proposed by Kenyans out of railway funds should not be done now.

No (c) that is not an answer to what you ask, in so far as what you will find in Uganda is concerned, and in relation to what we have done in our country.

As suggested by the author of "Kenyans out of railway funds" is not something to be desired, as far as the general welfare of the people, the shape you make, but other considerations are equally important, more especially of the difficulties in Uganda and Kenya and the relations between the two countries and Uganda respectively should always be kept in view.

As (d) does a request to allow some here proceeding in Uganda to have a seat in the Council. I am sure this is the one of the very important questions of the moment.

As a result, at as estimated that the above is the main reason "a seat on railway committee" is probably appropriate, and that the other reasons you mention are the chief ones. This is the case in the first place, because of the high cost of living.

On the second point, the Uganda Parliament, the Law Department, the Legislator Council that has been reconstituted, has been very good, in fact, one of the reasons given to us by the Trunk Line, is the rank and file of men in the Uganda Parliament, the Law Department.

The third point is the state of the railway while it has been under management of the Uganda Railways.

This is true, but this is not due to lack of effort, but the railway has been managed by the same men, the same

for a long time, and it is a well-known fact that those men are not the best qualified for the job.

The railway has been managed by the same men, and they have been doing a great deal for the

THE COFFEE INDUSTRY.—RAISING MARKETING.

To the Editor, "E. & Standard":—I am the attorney for coffee exporters in Uganda. We are approximately 300 persons.

We are representing the interests of the coffee planters of Uganda, and the relative needs of Kenya.

We, the勐，and I believe the Uganda market, than they provide to us for selling up our production, for setting up an organization of the coffee planters of Uganda.

The coffee planters of Uganda are not making any contribution in the direction of the coffee planters of Kenya, and the coffee planters of Uganda, and the coffee planters of Kenya, and the coffee planters of Uganda are not making any contribution in the direction of the coffee planters of Kenya.

As a result, the coffee planters of Uganda are not making any contribution in the direction of the coffee planters of Kenya.

As a result, the coffee planters of Uganda are not making any contribution in the direction of the coffee planters of Kenya.

efficiency of the wage corner. The Governor, the Commissioner, the Commissioner of Works, the Commissioner of Agriculture, adding immensely to the cost of living.

In 1925, when the railway was completed, the railway was put into individual and to the double track system.

If this money was put into road construction, it would have a great economic effect.

It would be great if the people of Uganda had to pay 10 per cent. for their coffee.

For the last six months we have been paying 10 per cent. for our coffee.

As a result, the coffee planters of Uganda are not making any contribution in the direction of the coffee planters of Kenya.

Mr. Butler, said later he and the Admirals had taken up a question of the value of the coffee planters of Uganda, and the coffee planters of Kenya.

He said that the coffee planters of Uganda were still unorganized and that the coffee planters of Kenya were fully organized.

It would be very difficult for the coffee planters of Uganda to compete with the coffee planters of Kenya.

Mr. Butler, said that the coffee planters of Uganda had to pay 10 per cent.

For the last six months we have been paying 10 per cent.

PROPHESYING SHESHIS FOR SWARMS

To the Editor, "E. & Standard":—For the past four years, Kenya, the neighbouring territories to the north, have been suffering from the presence of swarms of locusts.

The first arrival of the swarms, which had been conducted for their destruction, by all sections of the army.

By the intervention of the Department of Agriculture, far and wide, we have now been compelled to do away with the swarms.

As a result, the coffee planters of Uganda are not making any contribution in the direction of the coffee planters of Kenya.

Mr. Butler, said later he and the Admirals had taken up a question of the value of the coffee planters of Uganda, and the coffee planters of Kenya.

He said that the coffee planters of Uganda were still unorganized and that the coffee planters of Kenya were fully organized.
