CONCERT AT ELDORET.

Enjoyable Turns by Local Artists.

["STANDARD" correspondence]

A very successful concert was held at Eldoret House, Eldoret on Saturday, March 12, the programme comprising some half a dozen turns by local artists.

The entertainment was well attended, there being over a hundred persons present. The programme included songs by Mrs. Spaker, Mrs. Norton, Mr. Thibault, Mrs. Wilson, Miss Baskley, Mr. Basaloni and Mr. Thibault, all of whom were greatly appreciated. Mrs. Norton was very well indeed. Mr. Thibault's turn was very amusing.

Mr. Thibault's whistling solo, as popular as ever, while Miss Baskley's admirably performed song and dance was the hit of the evening.

At the conclusion of the concert the Eldoret group was treated to dancing, the singularly pleasing musical music. "Dinner" was held in the lounge, half the proceeds themselves going to assist the Chinese Orange Fund. The whole entertainment was very well organized and most enjoyable.

The Transportation Problem in Kenya.

MOTOR LORRY COMPETITION WITH THE RAILWAY.

Possible Solutions.

DANGER OF REVISION OF RATING POLICY.

There is still an uneasy feeling in commercial circles that the railway authorities may, in order to meet the competing motor road transport, be forced to revise the competing rates policy. This action was foreshadowed some little time ago, but no steps have as yet been taken.

Other persons suggested include an amendment to the Ordinance declaring all "licensed" lorries to be common carriers, thus forcing them to carry all classes of goods, and to give notice of charges, in line with those charged by the railway.

Another suggestion is that lorry transport traffic be prohibited on roads running parallel with the railway, but giving them the freedom of motor roads.

A similar Ordinance to that in force in Kenya will be put into operation in Tanganyika on April 1, next. Uganda also proposes to come into line.

Loan Commitments.

On occasion of the road and transport bill, which has been introduced in the House of Representatives, the Government has announced that a loan of £1,000,000 has been granted for the purpose of financing the proposed road and transport bill. The Government has also announced that it has secured the necessary guarantee for the loan from the Government of the United Kingdom. The loan is to be repaid over a period of 25 years, with interest at the rate of 5 per cent. The Government has also announced that it has secured the necessary guarantee for the loan from the Government of the United Kingdom. The loan is to be repaid over a period of 25 years, with interest at the rate of 5 per cent.

Local Paper.

The local press of the past few months has been very busy. It has been busy with the news of the road and transport bill, and with the news of the loan commitments. It has also been busy with the news of the motor lorry competition, and with the news of the proposed amendments to the Ordinance. The local press has also been busy with the news of the proposed amendments to the Ordinance, and with the news of the proposed amendments to the Ordinance.

Outlook.

The outlook for the future is bright. The Government has announced that it has secured the necessary guarantee for the loan from the Government of the United Kingdom. The loan is to be repaid over a period of 25 years, with interest at the rate of 5 per cent.

Gives your shoes a day-long brilliance

Does a simple polish in the evening do that? No, it does not. It is the result of shining them with Cobras. Because while Cobras penetrates between the leather and the sole, it makes your shoes last much longer.

Sir E. Grigg Deplores a Policy of Drift.

"SHORTSIGHTED AND UNWORTHY OF A GREAT PEOPLE."

Africa's Opportunities.

NEED FOR A FIRM CENTRAL GOVERNMENT URGED.

A striking speech in which he criticized the shortsightedness of imperial policy in tropical and sub-tropical Africa, was delivered by Sir Edward Grigg in London on Thursday night.

The late Governor of Kenya spoke of a policy of drift and said that what was needed was a firm Central Government which would issue a policy of settlement with a view to a very largely increased production.

"Both very simple ought to be the experience of those who try them, and little problems of this kind are of great value in chess study. There are, however, other things in good problems than the mere solution, difficulty is never the only point. Some solvers are more ready to state at which position they are, and today's solver would be an easy one to find out in which of the two great classes it belongs, for pro-

your appreciation of the solution. I am particularly interested in your taking up chess regularly and disseminating a knowledge of the position by doing the problem. Other players are about to do a much greater extent than they do at present. It is therefore that I wish you to be a chess player. I wish you a very pleasant holiday.

"C. Johnson" writing from London, asks me to subscribe to the "East African Standard" and to send me some of the material which he has sent me. He says conditions are "for work in Canada where they appear to be" and he offers to send me some of the material which he has sent me. The Egyptian Appointed Game. I have noted the position of your game at Nairobi as given in the "Standard" of March 1st. The game was adjourned for all the pieces of the diagram with the Black Ks in 20, but as of, and the White Ks in 20 from 20 to 20 was only one of 20. It was a very interesting game. And it was a very interesting game. And it was a very interesting game.

It will be recalled that there are many sub-sections of the two great classes into which all two-movers naturally fall. It is essential first to learn to identify the key positions in the main one described in the article. It was not unambiguously and try to find the composition's scheme, and then having a definite idea of how to handle the position. Only in this way will solvers properly understand and appreciate the composer's work and be able to construct their own and the composer's work and be able to construct their own and the composer's work.

CHALLENGER WELCOMED.

Merry the Escapologist, who will be open for business for the first time on Monday afternoon, at 4:30 when he will demonstrate himself from a narrow jacket on a beam above the entrance to the new Stanley Hotel, is looking for a challenge.

He wants people to rack their brains to find a way to get into the hotel without using a key. He has no use for a lock, and he has no use for a bolt.

In fact, as regards padlocks, and bolts, he is a disbeliever.

AMAZING SCENES ON RIVER BANK BEFORE EVENTS.

[* STANBRO *] London, March 19. Ideal conditions prevailed for the annual boat racing, and the water here was on the Thames between Cambridge and Oxford University. The sky was pale blue, the conditions which slightly favoured the Light Blues. The race was glided and the start from the clumps as straight as the bowmen. From the start both crews were in the running, each started as if on the river banks. Many of the people of London, and the watermen, could have seen the start by means of a stone projected for the purpose.
