TO GIVE NOTICE to their customers and the public generally that arrangements have now been completed with the Government of the Protectorate and the Secretary of the Colonies, Nairobi, whereby the Company will be enabled to provide a supply of electric current to the public in the form of street lighting, and also to supply power to the various industrial concerns which will be established in the country early for construction.

At the arrangements with the Government have only quite recently been completed, it is responsible to install the new plant required for the developments on the Peta River in order to divert any temporary shortage of power which may occur before the advent of the Nairobi River, which will be able to furnish their customers with a supply of electric current which will be available to the public in the form of street lighting, and also to supply power to the various industrial concerns which will be established in the country early for construction.
