COUNTERFOILS TRASURED THROUGH STREETS WITH MUSIC AND GAETRY.

Dublin was transformed into a carnival city on Thursday when the counterfoils, in the Irish Hospitals Sweepstake on the Derby, numbering 9,000,000 were taken through the streets from the offices of the organization to the Plaza Theatre for the mixing preparatory to the draw to-day.

The drums containing the counterfoils were in a huge lorry, which was accompanied in its mile journey by a procession of pretty costumed girls and music. The procession was headed by a well-known Irish racehorse. A further troop of girls, dressed in the richest colours of famous owners met the procession at the theatre.

During the two days preceding the draw the counterfoils will be blown hotter and thicker in the mixing machine.

### GOVERNMENT CONTROL OF SWEETSTAKES.

#### Discussion by Nairobi Association.

#### TO ASSURE CERTAINTY.

Notice invited on grounds of expediency.  
"If a sweetseller finds that he is unable to obtain the necessary quantities of the various ingredients, he may apply to the Government for a licence to import the same."  
Mr. J. J. Norris at the Nairobi Association meeting on Friday: "It would not be surprising if it were not for the fact that Mr. J. J. O'Rourke said that this was the only way of ensuring that the sweets were of the highest quality and that the Government was not being deceived by the sweetsellers."  
The Government is now considering the possibility of organizing Government control of sweets for the purpose of ensuring that the sweets are of the highest quality and that the Government is not being deceived by the sweetsellers.

#### Opposition.

The suggestion of Mr. Norris that the sweets should be controlled by the Government was privately vetoed by Mr. J. J. O'Rourke. "I think there is something in a very bad form, and something is really wrong. Even if it were a good idea, it is not the way to do it."  
Mr. J. J. O'Rourke said that there were more than seven million of sweets in the market in Kenya, and that the Government was not in a position to control them. "I think there is something in a very bad form, and something is really wrong. Even if it were a good idea, it is not the way to do it."

## THE EAST AFRICAN SOCIETY

GRAND AGMENDMENT  
TUESDAY, MAY 12, 1962.

The South African Society of East Africa will celebrate its first birthday tonight at 8 o'clock at the hotel which will be attended by its Executive Committee, its Executive and other distinguished guests, representatives of the Legislature and other official sections in Kenya. The Society was formed as a mere club of about 20 members last year on the occasion of the Union's twenty-first birthday when some thirty people expressed their interest in becoming members. It was during the same year that the "South African" Club could be added to the list of similar clubs in East Africa and its membership should be extended not only to South African born men but also to European men who had made their homes in East Africa for at least ten years and to their descendants. The Society's main objects are to foster social intercourse and to maintain a friendly relationship among South African residents in East Africa and to foster good fellowship among all European and non-European communities in East Africa. At the annual meeting in January it was reported that the membership had increased to 45 and it was indicated that the vigor of the organization and of its interest is being inspired. That the members will now include those who have been in East Africa for at least ten years, the Prime Minister of the Union, Mr. Hendrik Verwoerd, said in his address at the meeting of the Society and showed that in his own words the link of cooperation between South Africa and East Africa has, in his opinion, become a link of friendship.

It is in many ways that the younger generation have been the most advanced part of the Union and it is in many ways that the link of cooperation between South Africa and East Africa has, in his opinion, become a link of friendship.

# Development of the Native Reserves.

## No. 10: INFLUENCE OF THE PUBLIC WORKS DEPARTMENT

### Roads and Buildings.

#### EFFECT ON THE SOCIAL LIFE OF THE AFRICAN.

During the last three years over £27,000 has been spent out of Government funds on road works in the Native Reserves, which have had a marked effect on the social and economic life of the inhabitants.

Water has been made available in districts where formerly there was difficulty in obtaining it and natives have been encouraged where possible to use water for other purposes.

As far as building is concerned the Public Works Department has completed 120 primitive hospitals and three more are under construction.

### New Hospitals.

The part which a Public Works Department can take in connection with the social and economic life of the African is to be seen in the fact that the Public Works Department has been able to secure the construction of 120 primitive hospitals and three more are under construction.
