CONFLICT OF VIEWS BETWEEN FRANCE

AND CERMANY.

The end of the Lausanne Conference is in sight as Mr Macdonald has announced this he instants to invite the major Powers to "make arrangements for completing the work." At the same time the position is not clear and a deadlock is said to have exceed.

The principal difficulty lies in the conflicting opinions of France and Germany, although it is suggested that the French may be exaggerating the gravity of the position in order to put pressure on the Germans.
