Committee's Task. IMPERIAL GOVERNMENT'S ATTITUDE TO WHITE SETTLEMENT.

A memorandum setting forth the views of the East African Unofficial Conference will be prepared for submission to the Secretary of State.

Another important decision reached by the Conference is to establish a secretariat and to place the Conference on a sound and permanent basis.

The Conference has expressed the view that the policy of the British Government during recent years has turned against White Settlement.

If Recommendations Fail? The following official report on Tuesday's proceedings at the East African Unofficial Conference has been prepared.

The Conference continued its deliberations on Tuesday with possible methods of adjustment of the present financial system discussed. Tanganyika delegates explained the methods adopted by their Government to meet an unbalanced budget.

It was agreed to form a small committee of representatives of each Territory to consider the various methods of expenditure which could not be reduced in all Territories. The necessity for further work

SPILT IN THE NATIONAL GOVERNMENT.

(Continued from page 1.)
 as a result of a long session spent at today's meeting. Little doubt existed that the Free Trade Mission, who disapprove of the final policy embodied in the Official Agreement, will tender their resignations. In the absence of such an event, Sir Herbert Samuel (Home Secretary for Scotland) and Lord Snowden (Lord Privy Seal) will retire and their places will be followed by several junior Ministers. There are a number of indications that any National Labour Minister, other than Lord Snowden, will retire, while the collaboration of National Labour Ministers, of whom the proposal will be to join "them and Mr. Fisher" is a possibility.

The Federal Ministers whose resignations are expected will constitute an important element in the Government to support the National Government on the issue of the National Government—British Official Wireless Service.

Increase in Breeding Cattle in Kenya.

BUT REDUCTION IN QUANTITY OF DAIRY PRODUCTS.

Comparison with 1930.

EXPERIMENTAL WORK IN ANIMAL HUSBANDRY AT NAIVASHA.

The Report of the Kenya Department of Agriculture for 1931 shows that there was an increase in the number of animals in Kenya in comparison with the previous year. In spite of this, dairy produce was less than in the previous year. This is ascribed largely to the widespread destruction of grazing grounds at the end of the most critical periods of the year.

Livestock Damage to Grazing.

The total number of cattle in Kenya in 1931 was 1,294,000, an increase of 12.2 per cent on the number in 1930. The number of sheep was 1,294,000, an increase of 12.2 per cent on the number in 1930. The number of goats was 1,294,000, an increase of 12.2 per cent on the number in 1930.

The publication known as the Shorthorn Dairy Record based on the results of the Short Horn Society of South Africa is an invaluable guide to the breeder of Dairy Shorthorns. The fourth volume has just come to the fore. The main portion of the book is devoted to the selection of the best animals with official milk records of pedigree cows which have been selected since the commencement of the Dairy Shorthorn Register for semi-pedigree cows. In addition to pedigree cows of all members with heads in milk and average, also pedigree diploma cows, register of milk bulls, a register of registered dairy bulls and all of a few other fields. Perhaps the most interesting and instructive portion of the book is that covering the pedigree milk records of the pedigree cows which have been selected since the commencement of the Dairy Shorthorn Register for semi-pedigree cows. In addition to pedigree cows of all members with heads in milk and average, also pedigree diploma cows, register of milk bulls, a register of registered dairy bulls and all of a few other fields.
