CORRESPONDENCE.

While accounts of visits are being from time to time published in the columns of this paper, it is not the policy of the editor to publish any account of a visit unless it is of a special character and of a nature to be of interest to the public. It is not the policy of the editor to publish any account of a visit unless it is of a special character and of a nature to be of interest to the public.

THE NAKURU CLUB.

The Rev. Canon, "East African Standard," writes: "The discussion as to the alleged issue of a new club in Nakuru presents an interesting feature, inasmuch as it is difficult to understand why it should be considered in an improper spirit or why those persons who show an interest in it should be under their respective arms. Your correspondence in the proper relations to the subject, produces two good suggestions on one side of the discussion which are not of equal value. On the one hand, it is stated that the club ground was granted by the State for the use of the public as a sports ground which is therefore presumably open to every respectable member of the public who may desire to identify himself with the institution. On the other hand, it is stated that the club ground was granted by the State for the use of the public as a sports ground which is therefore presumably open to every respectable member of the public who may desire to identify himself with the institution. On the other hand, it is stated that the club ground was granted by the State for the use of the public as a sports ground which is therefore presumably open to every respectable member of the public who may desire to identify himself with the institution.

The first of these arguments is obviously of more public interest than the other. The club committee and members may be justified if they have a very good answer that there is no one in Nakuru for whom it is worth the expense of a club. It is not the policy of the editor to publish any account of a visit unless it is of a special character and of a nature to be of interest to the public.

BRITISH AND FOREIGN SAILORS' SOCIETY.

The Rev. Canon, "East African Standard," writes: "I am asking for gifts towards the various work of the British and Foreign Sailors' Society to be announced at their annual meeting to be held at the Masonic Hall, London, on May 8. It is quite possible to see the list of members of the committee and the list of names in the direction of an official communication. It is not the policy of the editor to publish any account of a visit unless it is of a special character and of a nature to be of interest to the public.

THE AWAKENING.

A true love story, for the very good reason that a girl, with nothing but her love to offer, becomes the object of the day's admiration to a woman satisfied with the material good things of the world. This the director of the "Hoggs & Moynagh" is to tell of passion and dramatic situations that is impossible to describe there, but we hardly need say it is one of the most attractive of its kind which could possibly be desired. The dramatic acting is in no way marred and the whole of it is in two parts must appeal to the finest taste.

CHARLIE CHAPLIN FILMS

are like most other good things, if served up in right quantities at correct intervals, nothing better could be wished for, but, let them be dished up for each meal of the day on each day of the week.

lose their canning and become monotonous. So argues Mr. Radley who, just two years ago, introduced this great mischief-provoker into Nairobi, but to say that he is going to sicken his patrons with "Charlie" is saying very little for his ability as Manager of so important a place as the 'Royal'.

BILLIE REEVES

is the latest novelty in film comedians at the 'Royal', and it is he who will provide the bulk of the laughter for tonight, although it may be stated, it is by no means the only feature to be shown, as every item from the first to last, is an absolutely top-hole number, and in the words of the press, a better or more interesting bill-of-fare has never been provided. The items in brief are—

GERMAN EXACTIONS IN POLAND.

A Heavy Burden.

EXTORTIONERS BUST.

The following account of German financial exactions in Poland reaches us from Warsaw (says the Times):

The amount of exactions done by the Germans in Russian Poland is incalculable. It is estimated by the Germans to be about 100,000,000 marks, and by rates inflicted on industry from Lodz alone they have taken away nearly 100,000,000 marks from the value of 1,300,000,000 marks of the Polish goods which are being devastated in the country. They had not yet come for expropriation of the German railways.

The following account deals mostly with the exactions of the German railways, with contributions, taxation, and exactions to companies of German monopolies in the former province, and especially the Polish territory under German occupation.

CHARLIE CHAPLIN FILMS

are like most other good things, if served up in right quantities at correct intervals, nothing better can be wished for, but, let them be dished up for each meal of the day on each day of the week, they lose their cunning and become monotonous.

So argues the Rev. Mr. Radley who, just two years ago introduced the great milk-broker into Nairobi, but to say that he is going to stick his patrons with "Charlie" is saying very little for his ability as Manager of the Bill-of-fare has never been provided. The item is brief as:

WANTED: A GIRL TO KEEP BOOKS.

A charmingly stolid story by Edison.

A Miniature Circus.

Featuring the world's youngest trained ponies and the undrivable male which no man has ridden.

The Clubman.

With Billie Reeves in the leading role.

Gaumont War Graphic.

The Premier News' **DAYLIGHT** IN TWO PARTS.

A feature film of exceptional merit, magnificently acted.

Park Johnnies.
