MUNICIPAL ELECTION

Candidate's Views.

LETTER TO ELECTORS.

The following letter, addressed to the electors, Nairobi, has been handed on to me by Mr. Tho. Baynes:

Gentlemen,—It is customary in any office of public utility for candidates to present before you some matters of interest to electors, and having been honored by a request to do so, I have the honor to hand on to the list of candidates for the forthcoming election of municipal members upon the Municipal Council of Nairobi for the ensuing year. I have much pleasure in submitting a brief resume of my feelings upon the more pressing questions of municipal government.

Naturally the foremost part of a citizen's duty is to be a good citizen, and in this respect the municipality should have first and foremost the welfare of the lives of our fellow townsmen. In this connection I have no hesitation in placing the provision for the supply and just supply of water, which is so absolutely indispensable (nearly 7 ft. as the paramount duty of a municipality, and until this has been effectively secured no town council has begun to discharge its responsibilities. It is generally, and I would readily concede that the water supply should be controlled by the public authority and I hold that the Municipal Council should have the same in discharge of its control. Having had a long experience of the water supply in the construction and management of waterworks both in municipal and private service, I venture to hope that I can be of some service in the attainment of this object.

It is a matter of some importance in connection with this, is the question of disposal of refuse, and I hold that the best means of effecting this is by a system of water supply, which will be found to be the most effective. I hold that a water supply system, however modest, it will be found to be the most effective for the drainage of buildings. In view of the fact that the water supply is so important, it is necessary to have a system of water supply, which will be found to be the most effective for the drainage of buildings. In view of the fact that the water supply is so important, it is necessary to have a system of water supply, which will be found to be the most effective for the drainage of buildings.

And here I may mention the fact that the water supply is so important, it is necessary to have a system of water supply, which will be found to be the most effective for the drainage of buildings. In view of the fact that the water supply is so important, it is necessary to have a system of water supply, which will be found to be the most effective for the drainage of buildings.

Tea

If you would escape the ills of impure water use tea. To make tea the water must be boiled. Boiled water is tasteless, but boiling water added to Brooke Bonds Tea makes the finest possible drink.

Refreshing, stimulating and beneficial in all respects. See Brooke Bonds name on every tin.

In this market Brooke Bonds tea can be had in two qualities—Red Label and Green Label. Red Label is really the finest Indian tea of finest Darjeeling flavour; the Green Label is a sound wholesome Indian tea. Packing and blending is done in the Company's factory in Calcutta, whence it is shipped to East Africa direct.

Tea

If you would escape the ills of
impure water use tea. To make tea
the water must be boiled. Boiled
water is tasteless, but boiling water
added to Brooke Bonds Tea makes
the finest possible drink.

Refreshing, stimulating and
beneficial in all respects. See Brooke
Bonds name on every tin.

In this market Brooke Bonds tea can be had in two
qualities—Red Label and Green Label. Red Label is really
the Indian tea of finest Darseling. Green Label
is a blend of Indian tea. Packaging and blending
is done in the most scientific manner in the
factories.
