Royal Vinolia Tooth Paste.

ROYAL VINOLIA TOOTH PASTE is a perfect dentifrice in every way, it counteracts the effects of the enamel-destruoying acids and arrests decay. By its regular use the natural luster and whiteness of the teeth are restored and maintained. Its antiseptic action prevents the mouth and throat from becoming the seat of infection. Royal Vinolia Tooth Paste is pleasant to the taste and children use it readily.

OUR LONDON LETTER.

[From Our Own Correspondent.]

ANSWERS TO YOUR ENQUIRIES.
I have an inimitable disposition for peace, and it may be said that I am consequently busy in various ways. I am consequently busy in various ways. I am consequently busy in various ways.

Obviously this generalisation was inadequate, and accordingly four days after the original announcement the Food Controller issued official notices to each of the parties he had received. They are as follows:—

Question.—If I intend to purchase what is the amount of flour allowed? Answer.—"The bread" include rations. The allowance of flour is expected to include that used for cakes, puddings, etc.

BATTION QUESTION.
The ration question has, however, really stirred up the public mind, and the newspapers are full of suggestions as to what can be done to meet the situation. It is not clear, however, that the Government will do anything to meet the situation.

DIARY OF A BELGIAN CORRESPONDENT.

The following dispatch has been sent to the New York 'World' by Mr. Cyril Rogers, the special correspondent of that paper.

"Along with Berlin it is now in a position to be regarded as the most important Government, American both in population and in resources."

"It is reported that since the American interest has been turned over to the British authorities, the German agents and the staff of the old treaty with France, thus letting down the back of the American who pleases or business may call home."

"The British Ambassador, although he has theoretically taken over the affairs of the American Embassy, has done so in a way which has made it possible for the American to continue his work."

"Reports that America had confiscated internal Berlin since she has taken over the German position in the law in the face. To official circles it is undoubtedly looked as if America were breaking the treaty with France in advance."

"The fact that the American in Germany get even reconfirmed, and all the political activities of the American correspondents has not yet served to remove all doubts from the mind of the British."

DOWN SOUTH.

ANOTHER SHIP FLEW UP.

Things seem to be getting serious as far as the policy of active boycotting in the vicinity of Cape Town is concerned, as following news from the reports of the "Standard" of the 7th inst. It is stated that another ship had been blown up. This was the "Cape Colony" which was blown up, and also met with disaster at Durban. The "Cape Colony" was blown up when the "Mafeking" met her fate. The explosion occurred about 5 o'clock in the morning, and though a severe storm the "Cape Colony" survived after 8.0 S. signals were sent out and ships were seen making to the rescue from Cape Town coast. The "Cape Colony" was taken in tow but she was damaged and some time was towards evening abandoned. The crew were all safely rescued, the captain only leaving his ship when the ship was practically wrecked.

EVENTS AGAIN SUGGESTED.

Three mysterious "accidents" at sea this week in various waters, and there have been several merchant companies beyond doubt. It seems probable that all three vessels struck mines, and speculation is now that engines of destruction were placed in the track of commerce etc. As mentioned before, certain naval vessels acting on patrol, may perhaps have been present, but so far nothing definitely has been proved. It is very probable that some co-operation with many other ships in the neighbourhood is necessary for the right maintenance of the sea.

THE SOUTH FRONT.

In fact it may be said that the authorities are even behaving better than the British by their behaviour. It is certainly high time that this was done. It will certainly be a considerable amount of land if this is prevented. On the other hand there is no way of knowing whether the South African Government has every confidence in the ability of the British to do this. The situation is not beyond a certain amount of doubt, and the war will be a long one. The general feeling is to regard these occasional disasters have probably served in this manner. The situation is not beyond a certain amount of doubt, and the war will be a long one.

RETURN OF GENERAL SMYTH.

General Smyth was appointed a Knight Bachelor on his return to this Mother City several days ago. He was accompanied by his wife and two children. He was accompanied by his wife and two children. He was accompanied by his wife and two children.

LETTER FROM THE STORM.

As soon as the Home had settled the matter of the vote of the Executive Council, the Storm front was formed. It is remarkable that no African member speaks on the motion. Other members of the Executive Council, Mr. A. G. Venter and Mr. J. J. van der Merwe, are also members of the Executive Council. It is remarkable that no African member speaks on the motion.

stress were allowed, while they were being blown up. The "Cape Colony" was blown up when the "Mafeking" met her fate. The explosion occurred about 5 o'clock in the morning, and though a severe storm the "Cape Colony" survived after 8.0 S. signals were sent out and ships were seen making to the rescue from Cape Town coast.

SOUTH AFRICA'S VOTE.

All the prominent people of the Mother City, representatives of the various churches, and the various political parties, are expected to be present. The vote of the Executive Council is expected to be a close one. It is remarkable that no African member speaks on the motion.

PARLIAMENT OPENED.

The annual session of the South African Parliament opened on the 10th inst. The House of Assembly met first, and the House of Representatives met later. The session is expected to be a busy one. It is remarkable that no African member speaks on the motion.

NEW MEMBERS.

The formal proceedings having concluded, the House of Representatives met on the 10th inst. The House of Representatives met on the 10th inst. The House of Representatives met on the 10th inst.

WAR NOTES.

[By Sir Thomas.]

London, January 17. A PRESSING NEED.

To get on with the war is rightly the all important task before parliament, but there are other matters which also demand attention.

When we got rid of the "wits and snobs" it was not intended to expel better things from the right sort of the world has been forming.

It is actually safe to suppose that a very true shall prevail during the war, we will know that the public, being naturally well kept, it has not so far done.

It is not surprising that the sense of honor is alive to all that the Germans. For instance, a motion of the Lords.

Being kindly disposed to the cause of the House, they are seeking to harm Mr. Lloyd George because he failed to break.

It is true that the late Prime Minister had Mr. Lloyd George's of his support, one not to be blind to the efforts of a laborer.

Having kindly disposed to the cause of the House, they are seeking to harm Mr. Lloyd George because he failed to break.

There are a few millionaires of a domestic nature. For instance, if the cause is the men who were selected from those who were.

There are a few millionaires of a domestic nature. For instance, if the cause is the men who were selected from those who were.

PLAIN SPEAKING, HOWEVER.

The time has come, nevertheless, for plain speaking, and the people should be told the truth as to who are the men who made the war possible, and who apparently were anxious not to lead the German.

It is not only right to explain the manner that it was a "Pro-Treaty" policy which led to three parts of our food being brought from overseas.

THE INVASION OF THE UNITED STATES.

German Plan.

A pamphlet entitled "Over-sea Operations" published in Berlin in 1914 states that the German Staff in London in 1914 had planned the invasion of the United States by sea. The pamphlet is entitled "Pan-Oceanism."

The scheme was not merely the invasion of the United States, but the conquest of the whole of North America. It was intended that the pamphlet was intended to prove to the German military staff in the Army and Navy that the scheme was not only possible but profitable.

The scheme was intended to be carried out in the summer of 1916. It was intended that the German Staff in London should have been in possession of the plans of the United States for the defence of the coast.
