DOWN SOUTH.

A Weekly Review of South African Affairs.

[FROM OUR OWN CORRESPONDENT.] Cape Town, April 2.

THE UNION BUDGET.

It was known a priori with Union Budget to budget so that there was a surplus at the end of the year. The object may be to in one way assist to promote and in another quite otherwise. The Minister of Finance has again been able to put himself on the safe side to the world. It is following in the footsteps of his predecessors in announcing the House of Assembly when making his budget statement this week that there would be an approximate surplus of £1,100,000, and a total expenditure of £1,070,000 on a deficit of £30,000. Two hundred thousand pounds of the deficit he proposes to wipe off by the year ending 31st March 1912, and an excess profit tax to produce £200,000, and a balance of £100,000, he proposes to allow to look after itself, whereas he will in his own mind that someone or other has over-estimated expenditure. That of course is the sense of Union Finance. It is a matter of the new budget proposals is rather interesting. Last year an export duty was imposed on diamonds proposed to be raised slightly, but in effect only the larger operation of the duty is to be extended; it is not to be raised. It will be laid as a tax on the gross value of all diamonds exported whether they come from the big producers or from the smaller diggers. The second feature of the budget plan is that the gold mines pay day-to-day ten per cent. on their profits, and the smaller diggers of diamond mining pay ten per cent. on their profits with the income tax. They will pay to the State plus a five per cent. On top of the ten per cent. and the diamond mine will pay ten per cent. on its profits. The third feature of the budget plan is that the diamond mine will pay ten per cent. on its profits. The fourth feature of the budget plan is that the diamond mine will pay ten per cent. on its profits.

A PRINCE OF COMMERCE. The death of the Williams Thorne, a prominent African lion, an old landmark of commerce, and a man of many parts, is a sad loss to the community. He was a man of many parts, and a man of many parts. He was a man of many parts, and a man of many parts.

THE NATIVE PROTECTION. As I have frequently pointed out, the new Native Administration Bill is being favourably received. There has now been a further step in the direction of the bill. It is a bill which will do much to improve the position of the native population. It is a bill which will do much to improve the position of the native population. ## THE TRAGEDY OF TURKEY.

German Intrigue.

INTERESTING INTERVIEW.

A representative of the "Natal Mercury" has had an interesting interview with Major Edward Atkin, formerly of the M. Commando Force for Africa Division, West Africa, and a member of the English Heri, who has travelled in Turkey in 1915 and 1916, and is paying a short visit to Durban. Here are a few lines which throw a flood of light upon certain intrigues in Turkey. "I have," said the Major, "the M. and Fabre, senior on Grand Vieux of Turkey. We were friends for 50 years. He was, without exception, the most courteous gentleman in the Empire. In October, 1909, he told me that Germany had engineered the deposition of Sultan Abdul Hamid, and that the so-called Reform Party in Salonika was simply the catalyst of Berlin politicians. The whole anti-Constitutional movement was a blind to have done in the eyes of Europe, and the present Ministers of Turkey were puppets in the hands of the Kaiser and his agents."

Two years before the war Germany was stocking Turkish arsenals with machine guns. This was certainly known to large departments of the British Government. The British Press occasionally warned his correspondents in London that Germany was "secretly" directed against British interests, and it is true that numerous papers have covered the pretensions of the agent at Istanbul. The present Turkish Government is by no means appreciated of the people of Turkey, who have always desired to stand with the British Empire, for no one can forget the fate of Turkey, but it is clear that her pretensions are covering up the plotting of her faith upon Germany, which has always been to save the British Empire from any danger. The loyalty of the Turkish Republic to the British Empire has always been to save the British Empire from any danger. The loyalty of the Turkish Republic to the British Empire has always been to save the British Empire from any danger.

**RUSSIAN REVOLUTION.** The Russian revolution had occurred because it had been brought home to the people, who had to fight. What might be the result of the Russian revolution? It is a necessary revolution. In some respects it might be better than the revolution which is now taking place in this country and the Empire, but it is not more than that. It is not more than that. It is not more than that.

**IDEALS OF EMPIRE.** The speaker appeared to them to look at the almost absolute intervention in the affairs of the Continent. He found that the controlling link binding the dominions and the Mother Country was that he had created the same ideas, namely those of liberty and progress. The people talked widely of Imperial Federation, but knowing what it meant, these would not be Imperial Federation if it were not based on a solid foundation of justice. It is to bind together the various units that make up the Empire. As long as it was the best working system, they must not try to lighten it. It is not a matter of the will of the people. The meeting of the Council of Empire on a subject from year to year, to discuss Empire executive matters, was the nearest approach to the matter which could be done at the present time.

**FRANCOISE.** There was a translation in the Empire and at home. The Francoise film was on the screen. It was a translation of the Francoise film. It was a translation of the Francoise film. It was a translation of the Francoise film.

**HOSPITAL SHIP OUTRAGE.**

**Panic Among Germans.**

**DIFFERENT BEHAVIOUR OF BRITISH TOMMIES.**

Members of the crew of the hospital ship "Laudonia" who had been interviewed (see Special column) had been working very well on an expedition of a sort of attack on the coast of the enemy's territory. The ship had been used, and the stern deck rapidly made the name of the vessel was German, then the vessel was destroyed.

The crew stated that the Germans on board were in a state of panic, with most of their officers behaving in a disgraceful manner. Instead of the line working very well, they had to be restrained, and some were killed during the attack.

When one of the small boats which came to the rescue reached the side of the hospital ship, the Germans started shooting and killing on the hospital ship. The ship was hit, and the crew was killed. The ship was destroyed, and the crew was killed.

NEWS FROM GILGIL.

Rains and Bad Roads. DEVELOPMENTS IN DISTRICT.

(From Our Own Correspondent.)

This week we have had two dry days with sun and breeze. Drying up the local country has led to the main Gilgil-Kilifi Road, in a desperate state owing to the very heavy rains and the places it is impossible for wagons and carts to pass without taking a wide berth of the mud bank. It is to be sincerely hoped that the F.W.D. will look ahead and make good this road with the Uganda Railway before it begins building a large "gokora" at this station to pass with the increasing amount of traffic being sent of daily from Gilgil to the Director of Public Works and no delay will be a political loss for Government. We believe a petition has been forwarded to the Director of Public Works and no doubt we shall receive the attention the petition deserves. One article has had no effect at all, the other is still being sent to the P.W.D. This season we are in delay as being a trying one for that Department.

NEW HOTEL. The Hotel opened at the end of last week is a really excellent affair. The building may be seen having the foundations. In three or four months each cottage and another one will have a meeting place which will make well for some months. The station had been opened. Perhaps the house of the hotel will not be a "white" stone in comparison with it. It will be a "beige" and a pleasing to all as present there are.

It will be interesting to know what price would be up and down the line. One store-keeper gets Rs. 7.50 per load and the other gets Rs. 4 before the end of the season. A few signs are still being sent away but most are being sent to the foot of each hill and some are being sent to the foot of each hill and some are being sent to the foot of each hill.
