Let Us Pause!

Living expenses have increased enormously, recently. Have wages increased proportionately? (Lend voice of "No One"). That being the case, we must examine our position. The first question to be answered is: "Are we living as economically as possible?" Probably you will have to admit that this is not so. If you are running a mess, you will have to reply that, from month to month, you don't know what it is going to cost — what the menu bill is going to be. Why continue in this state of financial uncertainty? Why not know your liabilities beforehand? Why not have the best of everything? Why not live in a home surrounded by spacious grounds, containing a tennis court? All these things may be had

ESTABLISHED 1905

We specialize in settlers' Bungalows made to your own design—made of machined weather boarded walls and cedar shingle roofs (or Rubberoid) excellent durability.

We have designed a coffee drying shed to accommodate 16 special (equal to 80 ordinary trays) at a very moderate cost, which will prove a very valuable asset to your estate. Our cedar wood fermenting tanks are half the price of stone or concrete tanks, and give double the results. They are more durable and have greater warmth, which is essential in quick treatment of large crops.

We are much gratified with the reception that has been accorded our building and contracting department. We are receiving letters of appreciation from our many clients, who receive all the advantage of our years of experience as builders and timber experts in South and East Africa—consequently we are working on what is called inside knowledge which is at your disposal to-day. Consult us, we can render good service.

THIK & DISTRICT PLANTERS AND OTHERS.

Please note that our fundies are erecting a number of buildings in your district to-day. Will you take advantage of this opportunity of having storage accommodation for your produce before the rains overtake you.

Thanks to our clients' recommendations, orders are speeding up; consequently we are increasing our staff to cope with the demand.

boy was ordered to be taken and I returned to Mr. Cochrane.

PLACED IN CUSTODY.
It has since transpired that having accomplished the destruction of my home I made for Nairobi. On the way however, I met one of my boys who told me that he had shot me and several of my boys and then informed the head of the band that I was shot.

I later had an opportunity of hearing the prosecution at the Public Office, when he clearly explained how he had deliberately taken me away from the laager and set-aside at my house, and the intention to shoot me. I stated for this reason he stated that he was afraid I would have done some harm to the people.

CHIEF MAGISTRATE'S COURT.
Just before Mr. Birch left the district, he came out and called upon me to say good-bye, and he stated that some time before this he had broken camp at Nakuru together with other criminals and was once more on the loose. The shock this news gave me is better realized than anything on paper. Later I received notification that the other witnesses to proceed to Nakuru to attend the case on July 27. I then inquired for my own satisfaction when and where the boy had been released, and was told that he was still at large.

My High Court sitting with the 12th in London, and I have the thought that it is to be taken in London, but in case of a conviction, there is a very little chance of hanging such a fellow as a gal.

With regard to the interview with the health officer of B.E.A. I am not certain as to the date of the interview. I certainly think that for women over 16 years of age, a health officer might be called upon to visit them, but he would not be called upon to visit them if they were not in the hospital.

DOCTOR VERDICT.
I have since seen my medical adviser, who tells me that nothing is wrong and my present nervous condition I should if possible go for a change out of the country altogether.

Secondly, I am in hopes that this my administration which will facilitate the production of European settlements, and also to be some way create a channel through which I may be compensated for the woman that "slandered both the Government and Privately, as an example and warning to natives of the Protectorate against their future occurrences."

GOVERNMENT'S REPLY.

NEWS FROM NAKURU
Rain Still Falling
COMPLAINTS REGARDING MAIL AND TRAIN SERVICES

(From Our Own Correspondent.)
NAKURU, October 25.
I hear that a heavy factory will be started up in Nakuru, and that it will be a big job for some per person here, but will not help those at the factory. As they will have about the best care in the country, I am confident from the start, and in those times anyone who tries to keep people down should have the very fiercest measures of public opinion.

There is nothing favourable to report regarding the weather here just at present, as we have had heavy rains the whole week through. I found that the Lake had risen about 10 inches in 10 days, that is, in the same of the heavy rainfall.

On every hand one hears a sensation of anti-plaints against the officials of the Railway and in the excitement of the passenger and mail services. Several of our most prominent settlers have taken up to consider that all this disorder had the effect of making any improvement which had been made upon my farm had produced and I found myself not come more in the hands of the doctor. I heard that the boy had been sent to the gal at Nakuru to await his trial, and was then relieved to know that he had let the district.

Our tracks are needed in the "Standard" for giving a free advertisement regarding the health officer, to be held there, and we are looking towards a substantial sum to the Public Office for the health officer to be called upon to visit them, but he would not be called upon to visit them if they were not in the hospital.

We specialize in setting Bungalows made to your own design made of machined weather boarded walls and cedar shingle roofs for (Bachelors) excellent durability.
We have designed a coffee drying shed to accommodate 16 special (equal to 80 ordinary trays) at a very moderate cost, which will prove a very valuable asset to your estate.
Our cedar wood fermenting tanks are half the price of stone or concrete tanks, and give double the result. They are more durable and have greater warmth, which is essential in quick treatment of large crops.

We are much gratified with the reception that has been accorded our building and contracting department. We are receiving letters of appreciation from our many clients, who receive all the advantages of our years of experience as Builders and timber agents in South and East Africa. Consequently we are working on what is called inside knowledge which is at our disposal to-day. Consult us for all kinds of good service.

THINK A DISTRICT PLANTERS AND OTHERS.
Please note that our families are creating a number of buildings in your district to-day. Will you take advantage of this opportunity of having storage accommodation for your produce before the rain begins to fall?
Thanks to our clients' recommendations, orders are speeding up consequently we are increasing our staff to cope with our increased business.

Living expenses have increased very rapidly recently. Have you increased proportionately? (Laid out of "No.") Then here the case, we must examine our position. The first question to be answered is: "Am I living as economically as possible?" Probably you will have to say that, from month to month, you don't know what it is going to cost—what the bills will be going to cost. Who is to blame for this state of financial uncertainty? Why not know your liabilities beforehand? Why not have the books of everything? Why not live in a place surrounded by species grounds, containing a tennis court? All these things may be had

ESTABLISHED 1905
We specialize in settlers' Bungalows made to your own design, made of machined weather boarded walls and cedar shingle roofs for Ruberoid excellent durability.
We have designed a coffee drying shed to accommodate 16 (special) (to 80 ordinary trays) at a very moderate cost which will prove a very valuable asset to your estate.
Our cedar wood fermenting tanks are half the price of stone or concrete tanks, and give double the results. They are more durable and have a better warmth, which is essential in quick treatment of large crops.
We are much gratified with the reception that has been accorded our building and contracting department. We are receiving letters of appreciation from our many clients, who receive all the advantages of our years' experience as builders and timber experts in South and East Africa; consequently we are working to-day, to call into useful knowledge which is at your disposal. Consult us, we will render good service.
THIKA DISTRICT PLANTERS and OTHERS.
Please note that our funders are erecting a number of buildings in your district to-day. Will you take advantage of this opportunity of having storage accommodation for your produce before the rains overtake you.
Thank you for your clients' recommendations, orders are speeding up; consequently we are increasing our staff to cope with the demand.

MACKINNON BROS., LTD.
Let Us Pause!
Living expenses have increased enormously recently. Have wages increased proportionately? (Low cost of "Rent" is not!) That being the case, we must examine our position. The first question to be answered is: "Am we living as economically as possible?" Probably you will have to admit that this is not so. If you are running things you will have to reply that, from month to month, you don't know what it is going to cost - what the next bill is going to be. Why continue in this state of financial uncertainty? It is worth a month's pause to consider. Why not have the best of everything? Why not live in a house surrounded by spacious grounds containing a tennis court? All these things may be had.

A SETTLEMENT SCHEME.

Proposals for Probationary Settler Service.

By Mr. Kerwin, "East African Standard." "The country would need adequate police or military protection after the war. The country requires a large white population to cultivate all the available land. ...

Mr. Kerwin said that the position today was very different to what it was when the Secretary of State's report was issued. The standard of living on the ground of wages and with the idea of providing assistance in this regard that there should be allowed. He believed this would tend to the improvement of the material conditions of the people. ...

Mr. Kerwin suggested that he might meet the Hon. Member by adding that the "commercial sense" in his motion the words "with a view of" should be approved by this Committee. ...

Mr. Kerwin said that, if they agreed to lay up the proposal, they had been free to face the Hon. Member on the point of the creation of a new house. ...

Mr. Kerwin said he was absolutely in favour of bringing up a proposal of this kind in the face of the present position. ...

We specialize in settlers' Bungalows made to our own design of machined weather boarded walls and cedar shingle roofs (Kahero) excellent durability.
We have designed a coffee drying shed to accommodate 16 special (equal to 80 ordinary trays) at a very moderate cost, which will prove a very valuable asset to your estate.
Our cedar wood fermenting tanks are half the price of stone or concrete tanks, and give double the results. They are more durable and have greater warmth, which is essential in quick treatment of large crops.
We are much gratified with the reception that has been accorded our building and contracting department. We are receiving letters of appreciation from our many clients, who receive all the advantage of our years of experience as builders and timber experts in South and East Africa. Consequently we are working on what is called inside knowledge, which is at your disposal to-day. Consult us, we can render good service.

Living expenses have increased enormously recently. Have wages increased proportionately? (I need not say "No.") That being the case, we must examine our position. The first question to be answered is: "Am my income as economical as possible?" Probably you will have to submit that this is not so. If you are anxious in this matter of financial economy, try living on a month, you don't know what it is going to cost—what the result will be. Why not try it? Why not have a month of financial economy? Why not have your liabilities beforehand? Why not have the best of everything? Why not live in a house surrounded by spacious grounds, containing a tennis court? All these things may be had
