ESTABLISHED 1905

We specialize in settlers' Bungalows made to your own design—made of machined weather boarded walls and cedar shingle roofs (or Rubberoid) excellent durability.

We have designed a coffee drying shed to accommodate 16 special (equal to 80 ordinary trays) at a very moderate cost, which will prove a very valuable asset to your estate.

Our cedar wood fermenting tanks are half the price of stone or concrete tanks, and give double the results. They are more durable and have greater warmth, which is essential in quick treatment of large crops.

We are much gratified with the reception that has been accorded our building and contracting department. We are receiving letters of appreciation from our many clients, who receive all the advantage of our four years of experience as builders and timber experts in South and East Africa—consequently we are working on what is called inside knowledge which is at your disposal to-day. Consult us, we can render good service.

EXCELSIOR PARAFFIN MOTORS

RS. 1500 CHALLENGE.

It is claimed that the "EXCELSIOR" Motor beats the new "RACING" and "ENDURANCE" records—AN "EXCLUSIVE" FACT and the "LOWEST PETROL CONSUMPTION" results to date. It is recommended it be the "WHEELY BEST ENGINEER," than any other make. Witnesses of these are available in a leaflet obtainable on application, and "THE SUN OF RE. 1200 WILL BE PAID" if it is shown to be the owner of any other "MOTOR," or "ANY OTHER THREE COMBINED."

Space permits reference to a few of these only.

- "THE 300 MILES NATIONAL CHAMPIONSHIP" world's most race was won on the "X" by an amateur driver, in 24 hrs.—148 minutes 30 seconds—1 to 300 miles.
- "PETROL CONSUMPTION TEST" The "X" holds the record of 1621 miles per gallon of petrol.
- "PATENT REMOVABLE CENTRE BAR" Below seat, permitting quick removal of tank, and ready means for engine requirements, without removing engine from frame.
- "PATENT EXHAUST LEFT" combined with the kick-start, without the old fashioned, and unsatisfactory "Worm" or "Handgrip" control, which kicks and the "X" from. It is the most efficient motor cycle in the world.
- "PATENT PRIMING DEVICE." By the simple turn of a tap, instead of turning on to both cylinders, on a combination of sparking plugs in order to light petrol or paraffin for the utmost of ignition plugged with compressed air.

We cordially invite the public to obtain the leaflet explaining the above in superior features of the "EXCELSIOR," and also ask prospective motor buyers to have a "DEMONSTRATION RIDE" on the "X." It will give them as to other machines on sale.

"A CENTRAL AFRICAN PAPER"

ROBERT C. HUDSON (M.A.)

An attempt is made in the pages of this little volume to give a graphic sketch and approximate amount of missionary life and work up to the present in Central Africa. Missionary literature is a vast and varied field, and it is difficult to give a brief and yet a complete picture of it. The author has endeavored to do this, and it is hoped that it will be of some interest to those who are interested in the progress of the Christian Church in Africa.

Our cedar wood fermenting tanks are half the price of stone or concrete tanks, and give double the results. They are more durable and have greater warmth, which is essential in quick treatment of large crops.
We are much gratified with the reception that has been accorded our building and contracting department. We are receiving letters of appreciation from our many clients, who receive all the advantage of our years of experience as builders and timber experts in South and East Africa—consequently we are working on what is called inside knowledge which is at your disposal to-day. Consult us, we can render good service.
