"FLORIDA FARM" For Sale as a Going Concern.

For Further Particulars Apply to the Auctioneers-NEWLAND, TARTLTON & CO., LTD., NAIROBI.

A. F. MACRAE Esq., Advocate, Nairobi.

"FLORIDA FARM" For Sale as a Going Concern.

With a view to concentrating on the development of his other properties, Lord Dalmeida has decided to dispose of this "Florida Farm," and has placed it in our hands for sale as a going concern.

An exceptional opportunity is thus presented of obtaining mixed agricultural land in one of the choicest localities of the Highlands - Florida Farm, near Nyoro in the pick of the district.

The Farm consists of 1,034 acres, less road reserves, lying between the Molo and Rungu Rivers, an elevated tract of 250 or so acres at any given time of 800 acres each when 400 under citrus, 100 under maize, 110 acres under 100 sheep-meadow, 700 acres in all.

The permanent improvements include a comfortable dwelling house, a considerable well, a water tower from which 200 head of oxen are irrigated. Appropriate implements and tools.

Other property in the Province so lends itself to extensive cultivation. The 40 acres of citrus is eloquent evidence of what would be done with this tract. Various economic mail-bodgings for citrus and other fruits. What do as well as anywhere else in the Province. Maize does well in the valley. Tobacco, citrus, coffee, groundnuts, New Guinea, Tea, etc., have been successfully experimented with. Dairy does exceptionally well.

We invite prospective buyers to make the utmost investigation into this proposition. Arrangements can be made through us for inspection.

Crockite Lamps

An exquisite gift. One hour standard with all and best. One, two, or three light standard.

Prices from Rs. 27-50 to Rs. 160-00.

A TIMELY SUGGESTION.

The exchange of gifts and greetings between friends at this season is a time-honoured custom which cannot be allowed to fall into abeyance even in war time. But the nature of life is changing and the dainty but useless trifle is being replaced by an article of real service to the recipient.

MIRZAPUR CARPET. It will be long nothing of the velvets or shags with possessing qualities that make it a lasting source of pleasure and comfort for it is permanent place in the home of your friends. We have just received a very fine range of these delightful and luxurious floor coverings in a wide variety of colours and sizes.

Prices from Rs. 35 to Rs. 400.

FAMINE! FAMINE! FAMINE!!!

There is every prospect of a famine shortly and importation will cease. The Settler will then have to rely on local products for consumption, the demand will then exceed the supply, he will be time and become ever through our agents a regular customer of U.P.L.S.

The first duty of a settler is to support Local Industry and stop Foreign Dumping.

NOW IS YOUR OPPORTUNITY.

EQUATOR Roofing material is now excessive in price—why buy it—we have a large quantity of cedar SHINGLES ready for delivery. A shingle roof is cool, artistic, permanent and cheap and moreover is a local production and does not cost your Country Shipping Space.

FURNITURE

AT

The DUSTPAN

Now the holidays are over and the new year is here it is time to look into your home and purchase just those few articles required to complete your furniture. Dustpan 'add-a-bit' furniture may be had on easy terms so that you can get the benefit of one whilst you are paying and by the time you come along you find your cozy little place is all paid for.

We can supply everything required for the home. Curtains and decorating schemes carried out in harmonious colours by experts. COME AND TALK WITH US

The DUSTPAN COMPLETE HOUSE FURNISHERS NAIROBI.

At our Sales Store Premises, Nairobi, on Tuesday 12th January, 1916, from 10 to 12 o'clock, the following furniture will be sold by public auction. This is a fine selection of the best of the West Kenia furniture. The stock is large and includes: Good motor road runs. Stone dwelling houses and buildings.

Is This a Bargain or Not? £1,200 A YEAR FOR £8,000.

A coffee plantation which last year brought in an excess of revenue over working expenses of £200, and is estimated to bring in this year an excess of £1,200 is offered on a going concern for £8,000. To prove that these figures are based on facts, the books of account will be submitted to any genuine purchaser. In brief the details of the property are: 30 acres splendidly situated in the heart of a fine district 100 acres under coffee, on a good soil, well watered and from every point of view a choice block of land. Complete in every detail - comfortable dwelling house fully furnished, stores, stables, sheds, mills, tannery, small dairy herd, wagon, cart, tool, sprayer, traps, weighing machine, and all the appliances and equipment required for the efficient and economical working of the revenue. Ample labour. Arrangements made for the present manager to carry on if required.

The explanation of this exceptional offer is that the owner is compelled by family reasons to effect an immediate sale. The low price of £8,000 has been fixed to ensure its selling immediately. To an approved purchaser, exceptional favourable terms of payment will be allowed, or British War Loan bonds will be accepted in lieu of cash.

Newland Tarlton & Co., LIMITED. Land and Estate Agents, NAIROBI.

HOLDING ON Germany's Present Task WHEN DEFEAT IN WEST WILL COME ABOUT

BY OUR LONDON CORRESPONDENT (REGINA WALLACE)

The German will be defeated in the field when an actual military defeat is inflicted upon them. To prevent the division or halting necessary to produce the military situation, the German will be defeated in the field when an actual military defeat is inflicted upon them.

THE DIFFERENCE

The difference between the present war and the Napoleonic war is that it is possible to destroy your enemy in action. He is allowed to fight you on his own terms. He is allowed to fight you on his own terms. He is allowed to fight you on his own terms.

GERMANY'S RESERVE

Obviously, then, the question of Germany's defeat in the West is a question of the question of Germany's reserve. Obviously, then, the question of Germany's defeat in the West is a question of the question of Germany's reserve.

STANDARD NOTES.

Mr. P. H. Clarke is to present on a business visit to Nairobi.

Mr. Hilkey, P.O. Mombasa is out and nearly again, we are pleased to hear, after a short absence.

It is alleged that the Government is to send a mission to the East African States to inquire into the alleged political negligence, in favour of the Union. As yet, we also believe, the Government has not taken any action.

CONCERT AND DANCE.

Enjoyable Function at Salisbury House.

A most enjoyable and successful concert and dance was held at Salisbury House, Parklands, on Friday evening. The function was organised by Mr. O. C. Salazar and was attended by a large number of guests. There was not a dull moment throughout the evening. The singing of the hymn at the end of the concert was particularly noteworthy, and the dancing, which was supervised by Mr. Salazar, was most enjoyable. The programme was as follows:—
 The concert was opened by Mrs. M. B. Hill, who sang "The Rose Tree." This was followed by Mrs. J. B. Hill, who sang "The Rose Tree." The programme was most enjoyable and the dancing was most successful. The evening was most enjoyable and the dancing was most successful. The evening was most enjoyable and the dancing was most successful.

Is This a Bargain or Not?

£1,200 A YEAR FOR £8,000.

A coffee plantation which last year brought in an excess of revenue over working expenses of £800, and is estimated to bring in this year an excess of £1,900 is offered as a going concern for £8,000. To prove that these figures are based on facts, the books of account will be submitted to any genuine purchaser. In brief the details of the property are:- 300 acres splendidly situated in the heart of a coffee district within 5 miles of the railway station on a good road; well watered and from every point of view a choice block of land. 100 acres under coffee, which will all be bearing this year. Complete in every detail - comfortable dwelling house fully furnished, store, stables, sheds, mills, team of oxen, small dairy herd, wagon, cart, tools, sprayer, trays, weighing machine, dairy outfit; in fact everything required for the efficient and economical working of the property. In addition to coffee, cashew crops contribute to the revenue. Ample labour. Arrangements made for the present manager to carry on if required.

The explanation of this exceptional offer is that the owner is compelled by family reasons to effect an immediate sale. The low price of £8,000 has been fixed to ensure the selling immediate. To an approved purchaser, exceptional favourable terms of payment will be allowed, or British War Loan bonds will be accepted in lieu of cash.

that by the river, consisting of about 15,000 acres.
I, personally, know this land and consider it amongst the best there is in the colony; magnificent crops of rice and sugar would be grown there and by the use of the water, fruitage would be made ready for irrigation.

There are other plantations or farms which have apparently been abandoned by their owners on account probably of their loss of such in the country or also on account of the particular farm being badly chosen perhaps. I was very much interested in one of a larger size but it was most gratifying to find that the 400 of good-land that pervaded the country.

I received a most welcome notice from all, especially from my very old friends, Mr. Graham and Mr. and Mrs. Graham. It was a delight to read on the remarks of Mrs. Graham, who had been to the house and with the work going on below, while being so cordially invited, and to see that all the good things both old and new, by the previous lady and her husband who always are so thoughtful and kind and to whom I tender my best thanks. For years Jahalad, with its splendid land and possibilities has been neglected. The word "bush" being ascribed to the Government, an slightest encouragement was given to the people of the country and then when in the early days of 1910 endeavored to attract attention to what could be done, was discouraged in every way. Let us now hope however, that Jahalad, whose chief rule is that "the number should stand another number a drink" show forthwilling the "New Testament," will now give us abundant and proper as she desires to do.

The Commission appointed last March to inquire into and report on the probability of introducing into the Protectorate of British East Africa a system of land tenure similar to that now in force in the British Colonies, has submitted its report to the Government.

The Commission has found that the introduction of a system of land tenure similar to that now in force in the British Colonies, is not only practicable, but also desirable. It has recommended that the Government should take steps to introduce such a system as soon as possible.

The Commission has also recommended that the Government should take steps to improve the administration of the Protectorate, and to encourage the development of the country.

The Commission has also recommended that the Government should take steps to improve the education system in the Protectorate, and to encourage the development of the country.

The Commission has also recommended that the Government should take steps to improve the health service in the Protectorate, and to encourage the development of the country.

The Commission has also recommended that the Government should take steps to improve the roads in the Protectorate, and to encourage the development of the country.

GERMAN YARN 'Escape from G.E.A.' CLAIM THAT 1,200 WHITES REACH PORTUGUESE EAST (FRENCH PRESS'S ASSOCIATED.)

LONDON, January 15. — Some soldiers were being discovered by the Germans with reference to their escape from the last of their captured prisoners in East Africa.

ARABS ACTIVE Successful Operations Against Hijaz Railway

LONDON, January 15. — Arab bands belonging to the army of the King of Hijaz continue to harass the Turks with some notable success.

ITALIAN FRONT British Batteries Perform Efficiently

LONDON, January 15. — An official Italian communication in Rome reports that the Italian army has been very active in the Adige Valley and in the mountains of the Alps.

CALEDONIAN SOCIETY Forthcoming Burns Anniversary Concert

LONDON, January 15. — The Caledonian Society has just completed their preparations for the Burns Anniversary Concert, which will be given on the evening of the 20th inst. at the Gaiety Theatre.

Most people will agree that the country of the Nile is a most fertile one, and that its population is increasing rapidly. It is, therefore, not surprising that the Government should have decided to improve the irrigation system of the Nile valley.

The Government has decided to improve the irrigation system of the Nile valley by the construction of a dam at Khartoum. This dam will be 1,000 feet long and 40 feet high, and will have a reservoir 100,000 acres in area.

The dam will be constructed by the Khartoum Dam Company, which has been formed by the Government. The cost of the dam is estimated at £1,000,000.

The dam will be completed in 1919, and will have a reservoir 100,000 acres in area. This reservoir will be able to store 1,000,000,000 gallons of water, which will be used for irrigation.

The dam will also be used for the production of electricity. The Government has decided to construct a power station at Khartoum, which will be able to generate 100,000 kilowatts of electricity.

The dam will be the largest dam in the world, and will be a great benefit to the people of the Nile valley. It will enable them to grow crops in the dry seasons, and to have a steady supply of water for their animals.

The dam will also be a great help to the Government in its efforts to improve the irrigation system of the Nile valley. It will enable the Government to control the water supply, and to distribute it more evenly among the farmers.

WAK IN THE WEST 'The Military Outlook' EFFECT ON ALLIES OF ITALIAN DEBACLE (FROM OUR U.S. CORRESPONDENTS, LONDON, OREGON.)

The Western Army was surprised by the rapidity with which the Italian army collapsed under the attack of the German forces. The military outlook is therefore very uncertain, and the Allies are now in a very difficult position.

RUSSIAN AFFAIRS Loans Canceled 'QUESTIONS CONCERNING CONSTITUENT ASSEMBLY' (TRAVELER'S REPORT.)

LONDON, January 15. — The Russian Government has announced that it has cancelled the loans which it had borrowed from the Allies. This is a serious blow to the Russian economy, and it is expected that it will lead to the collapse of the Russian Government.

BRITISH FRONT Considerable Activity by Our Arms (DISPATCH FROM LONDON.)

LONDON, January 15. — The British Army has been very active in the last few days, and has succeeded in capturing several German positions. This is a great victory for the British Army, and it shows that they are now in a strong position.

FRENCH SUPPLIES For Security of Corn, Meat or Potatoes (DISPATCH FROM LONDON.)

LONDON, January 15. — The French Government has announced that it has decided to restrict the supply of corn, meat, and potatoes. This is a necessary measure to ensure the security of the food supply, and it is expected that it will be successful.

Managers of the East African Standard have decided to increase the price of the paper from 1/6 to 1/8 per copy. This is a necessary measure to ensure the financial stability of the paper, and it is expected that it will be successful.

DRINK BUCHANAN'S BLACK & WHITE THE BEST

It is a strange gift from it as an arbitrary gain. It is a least possible that having over backing will raise the surface and may have the effect of impeding or making the harvest more difficult. Whichever it may be, it is a good security against which such well-defended that security is the.

The Nubians in their own words, for several years of the year, the crop of wheat was not so successful as in previous years. Fall but they are now required to be a good success for the line of least resistance in the available utilization of their affected lands. The wheat is a good crop and though probably always growing there in warmer districts, should make up a percentage of the yield for this district. It is possible that any other variety of the crop could be cultivated very well for the plant has a wide tolerance for soil and climatic nature. There are a variety of well-known wheat growing there that would certainly give more or less successful, including the useful, *Melchior* (Linn.) and *White Star* (Linn.) and *Blue Bird* (Linn.)

ROCK TRACTS OF OLA NYERI
Fortunately the area that must be regarded as doubtful, and therefore require special treatment and consideration is, in comparison with the rest of the district in which Nakuru is the centre, comparatively small. Part of the township is, in the district of Elmenteta, rich tracts of dairying and sheep country, the striking an indication of which are still to be seen there. The climate is a westerly direction one runs to the west-giving an abundance of Nyeri, where another such one remains are particularly notable, and the great bread grain comes to the fore. The climate is the abundance of that district as well as the entire dry season variety of wheat should be cultivated with caution. Certain in the year one establish an opinion of their skill. For the weather has been generally favourable, and even the most unpropitious variation have, whenever planted, been to ripen about three times, that might have been as healthy, will yield more of grain than might have been of some of the best wheat fields in the world. It will be accepted as an axiom, that when the weather is too dry, for wheat to be sown in the middle of the year, to the effect, whenever the weather is sufficient to enable a bumper crop of wheat, such not for the sake of a bumper crop in any way the broader of most consistent wheat to show on the harvest of a district. As to approaches the necessary standard of perfection in quality to stand damp rainy seasons, he is compelled to sacrifice the grain's most important qualities, i.e., bread making and so have not yet been obtained up to the standard of a cultivating season making for our daily loaf.

RAISIN AND PLUM
Regarding the higher country towards Nyeri, most of the earlier yielding districts of Nakuru are main producers in the lower lying areas and the grapes in the more elevated. Now the rainfall has been a tremendous amount, such as never before, inasmuch as it is water and a far heavier rainfall. It is only required that later rain will be more than sufficient to be advanced in putting in further some more; and most it is anticipated to be repeated on a scale that for each crop in comparison with the former. Nevertheless, the issue of a Government pamphlet giving a list of suitable varieties combined with general instructions, and especially the official procedure of conservation and sale of pure seed, has to come, to provide growers, might do much to increase production of this necessary crop. There are few farmers who, upon their own scale of a daily work, do not know how to hold their soil to put in a hundred acres of wheat as a profitable plan.

Two thousand have laid out to the north of Nakuru, on passing over the right and the other shows the left shoulder of Elmenteta. They are respectively as the only means of communication with civilization to districts that are probably without parallel in the Protectorate for the entire African continent. The soil is rich and fertile and the volume of grain etc., they manage to produce, and are very close to some of the most fertile in the East. The left hand leads those who come to Lower Main Nyeri, where the Brothers' Estate, amongst others, conduct large farming operations. An early crop from the volcanic, the stock-raising industry of the country, directly proceeds and so reaches the location reserved for a branch of the Nyeri, who were very probably the first growers of Nyeri, whose fields are high and fertile.
