The IDEAL Lightweight MOTORCYCLE

IS THE **Indian Light Twin**

WITH NEW INDIAN FOUR CYCLE OPPOSED MOTOR
 Because the opposed motor is revolutionary in scope, in design, in simplicity of construction, in its ability to give the rider a dependable service and velvety riding, a case heretofore unknown to **Lightweight Motorcycle.**

It fulfills the long sought ideals of motorcyclist; for a sturdy, easily handled motor; devoid of the high speed power and mechanical complexities of the big machine—it is a modestly priced little prototype of the Indian Big Twin, possessing moderate speed and power, and extreme simplicity, and involving low upkeep expenditure.

The IDEAL Lightweight MOTORCYCLE

IS THE
Indian Light Twin
WITH NEW INDIAN FOUR CYCLE OPPOSED MOTOR
Because the opposed motor is revolutionary in scope, in design, in simplicity of construction,
in its ability to give the rider a dependable service and velvety riding, a case heretofore unknown
to Light Cycle motorcycle.
It fulfills the long sought ideals of motorcycleists for a sturdy, easily handled motor, yet of
the high speed power and mechanical complexities of the big machine—it is a modern, yet priced
little, prototype of the Indian Big Twin, possessing moderate speed and power, and extreme
simplicity, and involving low upkeep expenditure.

PRICE Rs. 1.100

NEGATIVISM.

The Deadly Idea.

THE LESSONS TAUGHT BY
NATURAL LAWS.

(By W. H. Dowd.)

American and English journals have made it generally known in the past few years that the most serious and deadly disease which is spreading throughout the world is not cholera, typhoid, or any other acute infectious disease, but the chronic and insidious disease known as "negativism."

It is not the epidemic plague of cholera that all organic life is threatened gravely by, but a disease which, without any special aid, will gradually and insidiously destroy the human body. The perfect, immortal laws of God are not supposed to be overthrown by any species of selfishness and greed for that purpose; but the farther one goes away, the farther one strays from the natural principles of God, the more they depart from the laws which govern the universe. To give an example as illustration as possible of the deadly method, we will take the case of a man who has been suffering from a severe attack of cholera. He has been treated by the best medical skill, but he has not recovered. He has been treated by the best medical skill, but he has not recovered. He has been treated by the best medical skill, but he has not recovered.

OUR WAY

Humanity is divided into two classes, those of ordinary ability, who are the vast majority, and those of extraordinary ability, who are the few. The latter are the ones who are the most valuable to the world. They are the ones who are the most valuable to the world. They are the ones who are the most valuable to the world.

There are many other directions in which the human mind can be applied, but the most valuable is that which is applied to the service of the world. It is the duty of every man to use his talents for the benefit of his fellow-men. It is the duty of every man to use his talents for the benefit of his fellow-men. It is the duty of every man to use his talents for the benefit of his fellow-men.
