NAIROBI, February 14 neren gives so much pleasur irelates and innhern distantance

during the

that he has quite lost with of the point in my argument. Nobody objects to roads in Limeru, or classifiers. A road is always an advantage, and means opening up more of the country, perticularly if it taps the forms on routs. My argument was, while farms on route. My argument was, while the wint of funds was much the plots, for spractically no road at the Plateau, money aboud the found for a road to Limoru, four's Plateau would not have growned at a climb, you of 700 ft. if there was a good road to climb, and as the Lamore farmers have been doing a year of short funds) and given the other district a solitary good road. I am not at all blanning the Lemoru farmers for the all blazeing the Lanoru farmers for the want of foreaght, it is their beainers to do the best they care. However, everyone will be happy now, as the Plateau is we hope going to be as well off as its neighbours in the matter of reads, and texasport facilities. I'm only sorry I can't belige Mr. J. M. Stocker, by coming out in the open, as, if I did someone might tell me to get my gun-

I did, comeone might tell me to get my guin-so I'll just lie low for a b's louger. COPPEE CROPS.

NATROBI, MONDAY, FEBRUARY 18, 1918

PRICE: 6 CENTS

Lightweight MOTORCYCLE

Indian LIGHT TWIN

WITH NEW INDIAN FOUR CYCLE OPPOSED MOTOR

Because the opposed motor is revolutionary in scope, in design, in simplicity of construction, in its affilty to give the rider a dependable service and velvety riding, a case heretofore unknown to Lightweight Motorcycle.

It fulfills the long sought ideals of motorcyclists for a surdy, easily handled motorcycle void of the high speed power and mechanical complexities of the big machine—it is a modestly priced little prototype of the Indian Big Twin, possessing indperate speed and power, and extreme simplicity, and involving low upkeep expenditure.

Lightweight MOTORCYCLE

Indian LIGHT TWIN

WITH NEW INDIAN FOUR CYCLE OPPOSED MOTOR

Because the opposed motor is revolutionary in serpe, in design, in simplicity of construction, in its ability to give the rider a dependable service and velvety riding, a case heretofore unknown to Lightweight Motoreyele.

It fulfills the long sought ideals of motorcyclists for a sturdy, easily handled motorcycle void of the high speed power and mechanical complexities of the high machine—it is a modestly priced little prototype of the Indian Big Twin, possessing moderate speed and power, and extreme simplicity, and involving low upkeep expenditure.

Lightweight MOTORCYCLE The IDEAL IS THE

Indian LIGHT TWIN

WITH NEW INDIAN FOUR CYCLE OPPOSED MOTOR

Because the opposed motor is revolutionary in scope, in design, in simplicity of construction, in its ability to give the rider a dependable service and velvety riding, a case heretofore unknown to Lightweight Motorcycle.

It fulfills the long sought ideals of motorcyclists or a sturdy, easily handled motorcycle void of the high speed power and mechanical complexit is of the big machine—it is a modistly priced little prototype of the Indian Big Twin, possessing moderate speed and power, and extreme simplicity, and involving low upkeep expenditure

LONDON February 25

LONDON, February 26.

The proceedings of the Legislative Cour The proceedings of the Legislative Coun-Javen resulted at Government House on laceday, Potruscy 26, at 930 a.m. Mr Clarks raised the question of the re-und of duty on goods re-expected. He companied by a Landing Certificate from the recently to when the goods were rece-pered. That three certificates could very rifes not be sourced within the twolve months allowed—especially under present circumstances—was evident, and he wished to know whether a ruling could not be given in the matter. the staff all provisions in the City for to know whether a ruling could subse at a fixed price. Every un. given in the matter addressed possessor of explosives most. The Attorney General stated the sort has stock to the local Sevent for Opinion, it was only necessary for
