The IDEAL Lightweight MOTORCYCLE
IS THE
Indian LIGHT TWIN
WITH NEW INDIAN FOUR CYCLE OPPOSED MOTOR

Because the opposed motor is revolutionary in scope, its design, in simplicity of construction, in its ability to give the rider a dependable service and velocity rating, a case heretofore unknown to Lightweight Motorcycle.
It fulfills the long sought ideals of motorcyclists for a sturdy, easily handled motorcycle void of the high speed power and mechanical complexities of the big machine—it is a modestly priced little prototype of the Indian Big Twin, possessing moderate speed and power, and extreme simplicity, and involving low upkeep expenditure.

DEMOCRACY'S TRIAL.
Militarists in the Saddle.
 GRAVE TONE ADOPTED BY LORD MILNER
 (Special Letter by Agency.)
 LONDON, February 25
 In the course of a speech at the War Office last night Lord Milner expressed grave doubts as to the possibility of the country being able to meet the demands of the Government in the event of a military emergency. He said that the Government should not rely on the possibility of a military emergency being averted, and that the Government should be prepared to meet the demands of the country in the event of a military emergency.

DEMOCRATIC PRINCIPLE.
 The proposal to amend the constitution of the Government by the introduction of a system of indirect election has been met with a warm reception in the country. It is generally regarded as a step in the right direction, and one which will ensure the Government being more representative of the people. The proposal is to have a system of indirect election, in which the electors would elect a body of electors, who would in turn elect the members of the Government.

QUESTIONS OF OBTAINING PLOTS [From Our Correspondent] NAIROBI, February 27. We are very glad to hear that the above has been appointed for the filling of the vacant posts and we hope that the authorities will be able to get the necessary number of present posts to Civil Engineers. It is a pity that the authorities are not taking long to settle a donation. One year ago we heard of B.E.A. doing a good deed in the form of the donation of bringing the advanced set of road works to 20 per cent.

A Great Opportunity ELDOROT SOUTH

Our representative has just returned from the East Coast with authority to offer for sale valuable property adjoining Eldorot Township on the South and the Orisipp Township on the East. It is a prime land—extensive and exceptionally fertile.

The nearest boundary within three hundred yards of the Main street of Eldorot is the Lake Bank Place (the said other public boundaries are) a long one-half mile and up to 400 per foot for 500.

The property consists of 122 acres (approx) and is offered at £5,000 for an immediate sale payable in 20% on the signing agreement & a balance before or transfer or as may be otherwise arranged.

At this figure we have information in recommending the property as a most promising investment. The portion of the farm furthest from Eldorot is watered by springs and is eminently suited to dairy, wheat, maize and other crops, so that the area adjoining the Township might be treated separately as a sub-divided scheme.

As a farming proposition only the land is worth the price asked for it. As a prospective extension of the present Township it offers opportunities not to be overlooked. The price of £5,000 only looks good until the 12th instant.
