Most people, we think will agree with us when we say that the reorganisation of our public services has become a matter of the greatest importance to us. It is a matter which affects us all, and which we cannot ignore.

An important meeting of the East African Municipal Council was held at the Municipal Buildings, Nairobi, on Friday, May 1st.

The Municipal Council met at 10 o'clock in the morning, and was presided over by Mr. J. H. B. Smith, the Mayor.

The first business of the day was the reading of the minutes of the last meeting, which were approved.

The Mayor then presented a report on the work of the Council during the past year, which was read and approved.

The Council then considered a report on the work of the various departments, and approved the same.

BRITAIN'S PROGRESS
Critic's Officials
THE COLONIAL OFFICE THE
REAL ENEMY?

(By W. S. Donaldson.)
The progress of civilization in this world is being retarded by the colonial office. It is the only body which has been set up to do nothing but to hinder the progress of the world. It is the only body which has been set up to do nothing but to hinder the progress of the world. It is the only body which has been set up to do nothing but to hinder the progress of the world.

In this Prefecture an object has been set on foot the administration of which is not traditional activity of citizens. It is a new thing, and it is a new thing. It is a new thing, and it is a new thing. It is a new thing, and it is a new thing.

The policy that arrives in this country is a new thing, and it is a new thing. It is a new thing, and it is a new thing. It is a new thing, and it is a new thing.

Every indication goes to prove that it is a new thing, and it is a new thing. It is a new thing, and it is a new thing. It is a new thing, and it is a new thing.

The truth is that I wish to urge upon you that a new thing, and it is a new thing. It is a new thing, and it is a new thing. It is a new thing, and it is a new thing.

It is not possible to do this in any other way. It is not possible to do this in any other way. It is not possible to do this in any other way.

It is not possible to do this in any other way. It is not possible to do this in any other way. It is not possible to do this in any other way.

It is not possible to do this in any other way. It is not possible to do this in any other way. It is not possible to do this in any other way.

It is not possible to do this in any other way. It is not possible to do this in any other way. It is not possible to do this in any other way.

It is not possible to do this in any other way. It is not possible to do this in any other way. It is not possible to do this in any other way.

It is not possible to do this in any other way. It is not possible to do this in any other way. It is not possible to do this in any other way.

We are unable through lack of space to give adequate and individual details of the many attractive propositions in the shape of stock and agricultural farms, business and residential sites, partnerships, etc. which we have on our books, but to those interested in land we would suggest a call at our letter to our offices.
