NASHUA ANAWAN ^{WOOL} _{NAP} BLANKETS

Nashua Anawan Blankets are soft and cosy and not too heavy in weight. They are not wool but are just as warm and enticing—while they wash splendidly and do not shrink. They are generous in size—and allow plenty of margin for "tucking in" even on full size single beds.

Size 60 x 76 inches

Rs. 7-50 pair.

Tea

The higher altitude tea grows at the better its flavour. Tea grown on the plains is strong and deep coloured, but lacks flavour. The finest flavoured tea is Darjeeling tea. Darjeeling is a tea district in the Himalaya Mountains many thousand feet above sea level. But neither Darjeeling nor any other kind of tea is palatable unblended. Brooke Bonds are blenders whose business it is to select, blend and render tea in its best possible form. Their Red Label quality is Indian tea at its best. Brooke Bonds cannot blend better tea than their Red Label quality, neither can better tea be bought.

In this market there are two qualities of Brooke Bonds tea. Red Label is the first quality, and Green Label the second. Both are packed in 1-lb and 1-lb air-tight tins, which contain full net weight of tea.

Tea

The higher altitude tea grows at the better its flavour. Tea grown on the plains is strong and deep coloured, but lacks flavour. The finest flavoured tea is Darjeeling tea. Darjeeling is a tea district in the Himalaya Mountains many thousand feet above sea level. But neither Darjeeling nor any other kind of tea is palatable unblended. Brooke Bonds are blenders whose business it is to select, blend and render tea in its best possible form. Their Red Label quality is Indian tea at its best. Brooke Bonds cannot blend better tea than their Red Label quality, neither can better tea be bought.

In this market there are two qualities of Brooke Bonds tea. Red Label is the first quality, and Green Label the second. Both are packed in 1/2-lb and 1-lb air-tight canisters, which contain full net weight of tea.
