Economy in Tea. In many teas there is a big proportion of stalk and the coarse fibrous parts of the leaf.

Sort these parts out and if you have a whole pound of them you'll not be able to make a cup of tea worth drinking.

In Brook Bonds tea there's no waste. It is all tea and the best of tea. For that reason it is the cheapest tea. It gives a better beverage at less cost per cup than any tea with costs less than that because it is exclusively selected leaves free from stalk and fibre.

ARBITRARY OFFICIAL POWER Dangerous Clauses in Master and Servants Ordinance

There is a strong feeling throughout the country that the Master and Servants Ordinance Amendment Bill, which is now before the Legislative Council, should be re-committed for further consideration.

This Bill is going to affect the working of practically every industry in the country, and unless radically altered, there will be a vast amount of irritation, legislation and bad feeling generally between employers of labour, i.e. the business and the Government. The Bill tends to give the Government a power to interfere with the industry of any person, and to confer with it upon any person, and to confer with it upon any person, and to confer with it upon any person.

Section 4, Clause 3, of this Bill, which is a Government Medical Officer, to conform any house, building or other erection whatever in which any person is residing, if he thinks such building is unsafe. This power is much too arbitrary for any individual to exercise.
