Acid, Alkali, or Artificial Thickening.

WOMEN AT HOME
Girts Dance at Farty Frook

A pretty dance frook has been chosen for our fashion that this week. I think you will all fall in love with it as soon as you see it. It is made of fine material with a high collar, and is decorated with a beautiful and simple pattern. The pretty Empire collar and the neat round neck, so fashionable just now, are becoming to every type of girl; and should you find the design a little more formal for some of the occasions mentioned, it is easy to alter it and even beautify the dress by adding a few touches of color to the collar, a few inches in width, or a strip of stuff slightly curved under the neck edge, and then drawn up with a runner placed at the opposite edge to fit the chest.

The making of this frook is exceptionally simple, and if you like you can convert it into a morning dress, trimmed up the sides. It has a tiny pleat at the back and a hem at the lower edge. It is gathered into a Mager bodice having just two seams (one under each arm) and sometimes for added security (these dresses are sometimes made subject to a fair amount of wear and tear, consequently the whole is mounted on a well fitted lining bodice instead made with a welt-neck waistband.

In the matter of trimming the fringe must not be very judgmental. Strips of all kinds, fine silk or muslin, are in the fashion at the moment. The trimming which is to be worn about the neck or wrists, should be a very pretty lace, or a plain silk or muslin of all grapes or stripes and the like.

THE HOUSE.

The first annual report of the Lady Northey House is published. The report is published in the name of the League of Mercy, which was formed to take charge of the house. The report is published in the name of the League of Mercy, which was formed to take charge of the house. The report is published in the name of the League of Mercy, which was formed to take charge of the house.

LEAGUE OF MERCY
Excellent Work Done by Lady Northey Home

At the annual general meeting of the League of Mercy and the Lady Northey Home held on Monday, the annual report and financial statement were read of both societies. Under the heading of charitable work it was announced that the League with the help of the Colonial Society are paying 60p per annum for three orphan girls who are being brought up in a school in South Africa. A family in the country were at the rate of 100 per month the father being a permanent invalid. For being a permanent invalid they were brought under the management of the Government and the League provided the family with warm clothing and money for incidental expenses. Two orphan children have been provided with clothes and their holiday expenses paid. The mother and child were kept at the Cotswold, Maiden, until such time as passages were secured by the Government for them.

Three bills were paid for an invalid like an age was unable to work for a considerable period. Rent was paid for a widow woman for some months, until other arrangements were made for her. Five bills were being paid for two children at the Home. A few were helped to buy turkeys. Clothes have been given to many persons who need them. Two or three children have been secured with the provision of clothing.

Nursing fees were paid for a woman who was unable to pay them herself. Accommodation and nursing fees were paid for a maternity case. A hospital account was paid for a woman who underwent an operation and needed attention and drug for some time afterwards. School fees and board are paid for the children of the Home. The children of boys in both the old and new quarters had been taken a strong report by the League, and the committee had been visited regularly each week.

The League expressed their thanks to numerous people for help and pecuniary aid to the Home and stated that they will be up to the government and ready help afforded by Government the work of the League would be greatly hastened.

The financial statement showed a balance in hand of £5,000-11-0.

E. AFRICAN RIBBON
How the Exchange Hampers Development

Mr. Perry Malone introduced a resolution to the Colonial Society, at a meeting of the Colonial Society, at the Colonial Office a delegation of social producers comprising Lord Cranworth, Sir H. B. Hollis, Mr. Evans, Dr. Mr. Hanbury, as reported to the Government in the preceding session of the largest social industries in East Africa, to point out the critical position in which the industry was now placed owing to the present high rate of exchange and to ascertain what steps the Government proposed to adopt to relieve the financial strain arising therefrom.

It was pointed out by Mr. B. B. Maloney, chairman of the B.E.A. Finance Committee, that the exchange rate of the rupee in British East Africa arises from the fact that the Uganda Railway was built almost entirely by imported Indian labour, which resulted in the Indian rupee for trading purposes, which it has remained ever since.

For over 12 months past exchange has been steadily rising from the normal rate of £1. 6d. to £1. 15s. 6d., until to-day it has reached the very serious figure of £2. 15s., which represents an increase of £2 9s. over the normal rate, and as British East Africa uses an amount of Indian money equal to about 10% of the total Indian rupee market, it is obvious that the Government must be prepared to meet the situation.

It is possible, he explained, to raise money in the Union of South Africa and elsewhere, where labour and conditions are analogous to those in British East Africa and where British currency prevails at 1s. per cent. while in British East Africa with respect to the rate of exchange is £1 per cent.

Colonial money would be fully realized if the difficulties in developing the Protectorate with such a steady rise was necessary. He agreed that it was necessary for Government action to be taken, and that required measure were being explained and he hoped would soon be put into operation so as to improve the existing position.

Further action as for Hon. Mr. Ambrose, and the Indian portion of the building is commencing. The total cost of the building is £2,000, and the completed building about £2,000. The building is to be a school for the children of the Home.

Mr. Malone then commented on the fact that the Home is now a self-sufficient institution, and that the Home is now a self-sufficient institution, and that the Home is now a self-sufficient institution.

Mr. Malone then commented on the fact that the Home is now a self-sufficient institution, and that the Home is now a self-sufficient institution, and that the Home is now a self-sufficient institution.

Mr. Malone then commented on the fact that the Home is now a self-sufficient institution, and that the Home is now a self-sufficient institution, and that the Home is now a self-sufficient institution.

Mr. Malone then commented on the fact that the Home is now a self-sufficient institution, and that the Home is now a self-sufficient institution, and that the Home is now a self-sufficient institution.

FRIDAY'S ELECTION
Manifesto by the Workers' Candidates
MR. J. RIDDOLL

Mr. J. Riddoll, the Workers' Federation Candidate, issued the following manifesto to the electors of the Municipal Council of the City of London: "The Workers' Federation is anxious to see the Municipal Council elected in the interests of the workers. I view this opportunity to express my views very gladly. As a worker I believe with Prof. Marshall, Professor of Political Economy at Cambridge that the two great forces of the world's history—have been the religious and the economic, and it is only through the economic that the ultimate good of mankind will be secured."

A third great and constant source of suffering is the family in the urban district. In the family in the urban district, the family in the urban district, the family in the urban district, the family in the urban district.

The situation of the family in the urban district is a matter of the utmost importance. The situation of the family in the urban district is a matter of the utmost importance. The situation of the family in the urban district is a matter of the utmost importance.

NAKURU RACES

Good Starters and Keen Contestants

RESULTS AND BETTING

Nakuru, January 26. Nakuru was all going this morning on the occasion of the opening of the two day's meeting...

The special train which left Nairobi on Thursday was full to the brim on Thursday...

The Nakuru Races are naturally crowded and many have been brought in to see them...

At a comparatively early hour, the Nakuru tracks were made for the afternoon...

Prognosticators amongst the good crowd were for Charles and Lady Bowring...

The following were the results, with the details:

FIRST RACE: DIVIDED PONY HANDICAP (Five Divisions)...

SECOND RACE: DIVIDED HURSE HANDICAP (Six Divisions)...

THIRD RACE: ROAD TO RUIN (Three Divisions)...

FOURTH RACE: DIVIDED HURSE HANDICAP (Six Divisions)...

FIFTH RACE: DIVIDED HURSE HANDICAP (Six Divisions)...

SIXTH RACE: DIVIDED HURSE HANDICAP (Six Divisions)...

SEVENTH RACE: DIVIDED HURSE HANDICAP (Six Divisions)...

EIGHTH RACE: DIVIDED HURSE HANDICAP (Six Divisions)...

NINE RACE: DIVIDED HURSE HANDICAP (Six Divisions)...

MANIFESTO

Labour Pledges

ABOUT POLIOY

As a candidate for the Labour Council, I should like to say the following to the electors:

It is my duty to thank you for sending me to the Labour Council; I should like to say in a summary of the past and to present how I believe I can improve the lot of our people.

Whatever I think, I think of every white man, as well as of the coloured man, who is in trouble, and I shall do my best to help him.

As a candidate for the Labour Council, I should like to say the following to the electors:

It is my duty to thank you for sending me to the Labour Council; I should like to say in a summary of the past and to present how I believe I can improve the lot of our people.

Whatever I think, I think of every white man, as well as of the coloured man, who is in trouble, and I shall do my best to help him.

possible use of our own labour supply inside the country.

I have written with the greatest interest during the past few years the things which have been suggested to take in the matter of bringing out labour and, as you know, I have frequently expressed myself in very strong words as to the effect that I can do in this matter.

If the interests of the Nyassa Province should see fit to return me to the Council this year, I propose to press for the following practical measures:

(1) The fixing by Government of the plain truth, that an idle native is not, as he apparently seems officially to be regarded, mere an asset not an asset to the country.

(2) The enactment of legislation to prevent leading inside the reserves as the logical extension of the law, which was passed during the last session of Council, to control the movement of labour.

In other words, we want an universal law for the prevention of idleness among natives, and Government should have the power to develop and carry out a policy of control.

If Government considers itself justified in laying down, as it has done under another law a week ago, that any native may be called upon to perform a public work on a road or on a farm. I welcome the law recently given to Government by the Nyassa Province.

In view of the urgent necessity for the establishment of a Native Registration Department, and of the greater experience in organizing labour possessed by officials in South Africa, I trust that the new Chief Native Commissioner will be able to do more than the many officials in the South, who must be further qualified for such an important post than any member of the present Nyassa Commission staff.

It will be also the duty of the new Commissioner to engage a really efficient registration staff, so that the whole burden of this new work will not fall on the already fully occupied District Administration in this Country which never be satisfactory until we have a complete law, operating officially throughout the whole Province.

Our attention in administering the Nyassa is all that we are doing, for his own good and therefore he should be, not only made to work, but given the instruction which will make him a more efficient member of the community.

In the past the sole burden of educating the native appears to have been born by the missionaries, and there is no question that they have a very great debt to their energy and spirit of self-sacrifice. I cannot, however, believe that it is right as far as that one section of the community which is in a position to do something more than collect but pay policy design and commander officials.

What we want is an organized system of technical education for natives which will enable them to hold their own, and more, with the Indian trade. There is no a thing to be done in this matter which would not be well on the way of a more skilled labour force.

Therefore the native administration should, while making the most use of the work which is being done in this matter, to allow facilities of technical instruction for the men remaining in the reserves.

I view with the greatest approval the system of education, which is now in operation in the reserves, which, while it is not, as yet, so well adapted to the needs of the country, is a step in the right direction.

Technical schools should therefore be established in every native reserve.

It is also necessary, however, to provide medical facilities throughout the reserves. It is the duty of the Government, in this matter, to provide for the health of its subjects.

As a candidate for the Labour Council, I should like to say the following to the electors:

It is my duty to thank you for sending me to the Labour Council; I should like to say in a summary of the past and to present how I believe I can improve the lot of our people.

Whatever I think, I think of every white man, as well as of the coloured man, who is in trouble, and I shall do my best to help him.

As a candidate for the Labour Council, I should like to say the following to the electors:

country, not only from a material point of view, it is essential that the Government should encourage rapidly the growth of the mining industry of our District.

Finally to put my views on the whole native problem in a nutshell Government in the past has chiefly concerned itself with the welfare of the natives there has been a neglect of the interests of the white man.

It is high time now that Government should realize that there is a more genuine danger to the white man in the hands of the native than against him protection against himself, against his drunkenness, and against his idleness and ignorance, and against his helplessness due to the lack of means to support himself.

COMMUNICATIONS

The principle that money spent on communications should be regarded as a form of capital expenditure, and should therefore not come from the general fund, but from a loan, is now sufficiently recognized.

We all know too that the Governor is so pressed during his tenure at home to negotiate the necessary loans, that he is unable to do so, and the necessity of constructing and maintaining an efficient system of roads should not be lost sight of.

Every effort should be made to utilize available funds, such as stamp duties for farms and township plots, for roads, bridges, etc., and equally every effort should be made to secure the economical expenditure of that money. I am therefore very strongly in favour of the system of road bonds as a check on the expenditure of public money on works and ways.

It would be a mistake to think that if money—which has probably come from its own pockets—is spent on to behalf, every out should be stretched to its utmost capacity.

I have already referred to the benefits which the problem of constructing communications has on the need of obtaining labour from sources outside the Protectorate.

STOCK DISEASES

Whether we have a stock law or not there will always be a considerable number of cattle passing from the reserves to the settled areas, and neither the settled areas nor the reserves should be treated with relation to each other as separate entities.

It is not sufficient occasionally to prevent infected cattle coming in from the native areas; it is necessary also to consider whether the same precautions against disease as may be enforced in the farming areas.

We require, therefore, not only a system of stock routes and quarantine, but also the installation of dipping tanks inside the reserves in order to treat the evil at its fountain head.

TAXATION

Enterprises in this Protectorate ought to be divided into two quite distinct classes:

(1) The class which is almost mathematically certain of immediate profit.

(2) The numerically larger class which has to wait for a considerable time for profits which are anything but certain.

It is to be the business man's duty to see to it that his investment is not lost.

Further, it is unfortunately the case that any taxation imposed on the first class is apt to be ultimately paid by the second class, finding its way to the pocket of the man who still has to wait.

We have got to take care to meet the interest on loans by any scheme of taxation which does not recognize this fundamental difficulty and thereby make it impossible.

I should like, therefore, to state as the best form of a policy, as regards taxation, that a land tax or an increased import duty on any commodity which is not produced or raised in this country (such as sugar) or a tax on profits derived from business enterprises, whether from the mining industry, or from the sale of goods, or from the sale of labour, should be levied in such a way as to be ultimately and automatically paid by the second class.

CONVENTION OF ASSOCIATIONS.

The Next Meeting of the Convention will be held at the Railway Institute, Nairobi, beginning on Monday, the 22nd February, 1920. Will all Secretaries of Associations, who have not already done so, kindly send in the names of Delegates together with copies of any Resolutions they desire to bring forward, to reach the undersigned, Not Later than Wednesday Morning next, the 4th proximo.

P. O. Box 470 Phone 330. Telegrams:—"Hazebrook."

NAIROBI.

B. HASLEWOOD, Secretary.

an income tax than that the farmer should pay a land tax, since the farmer is already paying the impost duties of the trader—both of which are a white man's tax. I am in favour of persons drawing no salaries being exempt from income tax.

I do not think that the pioneer should be robbed of his life savings, but rather do to let any considerable effort to let any considerable proportion of the land available for settlement be put at the disposal of the pioneer for whom I am in favour of the unpaid value of land as a means of raising at least some interest to pay for capital borrowed by Government, but that we are justified in giving such an exemption to the pioneer.

The greatest care should be taken that such a tax does not deprive the farmer of his opportunity of gradual development since, of course, the development of a country is dependent on the initiative of the individual and his of the opinion that our District Commission should be entrusted with the work of valuation.

I am strongly in favour of the one law principle being taken into account in order to declare our policy with regard to import duties, unhampered by obsolete and antiquated laws which are no longer in force.

It is my opinion that the Government should be entrusted with the work of valuation.

which is written and compiled by the Agricultural Department.
CIVIL SERVICE
 We have a new Director of Agriculture, and should give him entire support in all schemes to improve the industry and production of plant foods.

We must at least have a staff and means for scientific experts.
NEW INDUSTRIES
 We have recently seen attempts made by the Government to introduce, I will not say encourage, new industries. I refer to the apparently elaborate proposals for sugar and tin-plate industries. I understand the ignorance of the user/Director of the various terms and conditions and the somewhat hazy being given to him by those more recent industries.

I cannot think that the Land Officer, in publishing his terms last year, could have used any reference to his own functions.

CIVIL SERVICE
 It seems that if improvements are made in the civil service, the recommendations of the Civil Service Commission should stand on duty for the sake of increased production.

REGHMAN AND CURRENT
 It is of course obvious that the Government is in a position to do more than it has done, and we have recently had most interesting reports from the Government in regard to the situation in London. I, for one, am quite anxious to leave the matter in the hands of the man who has the most expert opinion that, in my view, is done in our country on a gold standard and the only one to be considered in our country.

VARIANTS
 I am glad to see that the Government is taking steps to improve the quality of its produce. I believe the best of the produce of the Government is the one which is the most abundant in our country.

EAST AFRICAN GOLD
 I should like to see the Government take steps to improve the quality of its produce. I believe the best of the produce of the Government is the one which is the most abundant in our country.

CHERRY NOTES
 I am glad to see that the Government is taking steps to improve the quality of its produce. I believe the best of the produce of the Government is the one which is the most abundant in our country.

MOTOR NOTES
 by Carburetter
 A few weeks ago we mentioned the fact that the motor industry in this country is rapidly expanding. It is now estimated that the motor industry in this country is worth over £100 million per year.

WORLD PROBLEMS
 A lot of money has been spent in the last few years in the motor industry. It is now estimated that the motor industry in this country is worth over £100 million per year.

COLONIAL ROAD
 It has been found that the motor industry in this country is worth over £100 million per year. It is now estimated that the motor industry in this country is worth over £100 million per year.

FOOTBALL CHAMPIONSHIP
 The Football Championship is being held in Nairobi. It is now estimated that the motor industry in this country is worth over £100 million per year.

CHERRY NOTES
 I am glad to see that the Government is taking steps to improve the quality of its produce. I believe the best of the produce of the Government is the one which is the most abundant in our country.

I would mention the Uganda motor industry. It is now estimated that the motor industry in this country is worth over £100 million per year.

THE EAST AFRICAN ASSOCIATION
 The East African Association has just held its annual meeting in Nairobi. It is now estimated that the motor industry in this country is worth over £100 million per year.

WORLD PROBLEMS
 A lot of money has been spent in the last few years in the motor industry. It is now estimated that the motor industry in this country is worth over £100 million per year.

CATTLE DISEASES

Veterinary Officer's Report for December.

HINDERPEIT OUTBREAK

The Chief Veterinary Officer has presented for the Director of Agriculture of E.E.A. the following veterinary report for the month of December, 1919:

HINDERPEIT

Three fresh outbreaks of this disease occurred in the Uasin Gishu District, resulting in 15 deaths. All animals were inoculated with anti-rinderpest serum.

An outbreak occurred amongst cattle owned by the East African Coy. Ltd. resulting in 800 deaths. The disease is the outbreak, contrary to previous outbreaks in this district, was of a very virulent nature, and Mr. Reid, the District Veterinary Officer, offers as an explanation of this the suggestion that the infective organism originated from game introduced in various places through the more extensive paths in the district.

Two outbreaks were reported from the Katong Valley, and in these cases, as in a previous outbreak a few months ago, the infection was supposed to have been contracted from visitors. Several of these animals were found dead in the vicinity of the outbreak.

DOUBLE INOCULATION. Double inoculations against rinderpest were carried out at the following centres during the month of December:—Kikuyu, 200; Uasin Gishu, 200; Katong, 200; deaths from this disease 2 per cent.

Blackhead Quarantine Camp, 20. Inoculated 120, deaths not reported to date.

Uasin Gishu, 100. Inoculated 120, deaths not reported to date.

Uasin Gishu, 200. Inoculated 200, deaths not reported to date.

During the month double inoculations against rinderpest were carried out in the Mchakoe and Bondo districts and approximately 1,000 head were dealt with.

The results as to reports were excellent, with the exception of one farm, where cattle which had shown no visible symptoms at

the usual period after inoculation contracted the disease some weeks afterwards and died.

According to the Acting District Commissioner, Kigei District, Uganda, rinderpest has broken out amongst the buffalo there and many are dying. The affected animals are scarce and very wild, often travelling 50 to 60 miles a day. Under the above circumstances it is not difficult to find an explanation for the sudden and widespread epidemic of the disease as often as postulated in this territory.

EAST COAST FEVER. Cases occurred at the following centres:—Fort Turkan, Kabete, Langata, Naitali, Nairobori, Bogot, Thika and West Kenia.

The reports of the West Kenya outbreak could not be traced.

PLEURO-PNEUMONIA. A genuine outbreak was reported near Eldoret, which was traceable to contact with infected animals. Vaccination of the infected stock is being carried out.

A report of an outbreak in the Eastern Province of Uganda was also received.

BLACKQUARTER. One outbreak at Nivhuva caused a heavy mortality, but on moving the stock to escape the disease disappeared.

Distemper outbreak in the Kikuyu Quarantine Camp. Some were successfully treated by vaccination.

TETANUS. One animal died in the Nairobi district from this disease.

ULCERATIVE LYMPHANGITIS

Four cases in Eldoret, one at Gilgil, one at Mchakoe, and one at Nairobori were reported affecting local stock.

A Dutchman was heavily fined at Eldoret for riding a horse badly infected with lymphangitis.

No cases of epizootic lymphangitis were reported during the month. Further experiments in connection with the treatment of ulcerative and epizootic lymphangitis were continued during the month at Kabete.

ANAPLASMOSIS.

One case was reported from Molo. The following reports of disease are also to hand:

Biliary Fever: One case, Nairobi, in a bull.

Typh Fever: One case, Nairobi, in a dog.

Rinderpest: One case at Londiani.

Nairobi Slaughter House Returns: One bullock condemned for mites; two bullocks condemned for pleuro-pneumonia.

The following names of members of the Indian Association Machine were elected at a general meeting held on 1st instant: Mr. Dharamji Khimji, President, Mr. H. D. Gopal, Vice-President, Mr. S. D. Puri, Hon. Secretary, Mr. A. B. Datta, Joint Secretaries, Mr. Gopalji Lakha, Cashier, Mr. Gopalji, Purshottam, Auditor.

LEAGUE OF MERCY

Lady Northey's Home Rules Adopted

NEW COMMITTEE

The annual general meeting of the League of Mercy and Lady Northey's Home was held in the New Stanley Hotel on Monday.

H. B. St. Clair, Honorary President, and there was a large attendance. After the routine business had been disposed of, Mrs. Orr, the Hon. Secretary of the League of Mercy, read the annual report and Mrs. Green read the financial statement.

On the proposal of Mr. Playfair, seconded by Mr. Newmark, both the reports were accepted. Mrs. Stevens read the annual report of the Lady Northey Home and Mrs. Franklin followed with the financial report. On the proposal of Bishop Heywood, seconded by Mr. Stevens, both were adopted.

Mrs. Stevens then read the rules of management of the Lady Northey Home.

The recommendation of the Committee that illegitimate children should be admitted, was left open for discussion.

Mr. Newmark said that the recommendation for the admission of illegitimate children to the Home should be supported, and he moved that the recommendation of the Committee be acted upon.

Mr. Stevens seconded, and pointed out that it was up to all to help these unfortunate children, provided that they conformed with the other regulations.

On being put, the motion was carried unanimously.

On the proposal of Mr. Newmark, seconded by Mrs. Kingsnorth, the rules were adopted, subject to a minor amendment.

HOME FEELS

Mrs. Franklin asked that the feeling of the meeting be taken concerning the rule which laid down that Rs. 10 was the minimum charge. It was pointed out that Rs. 10 did not cover the cost of maintenance of a child, and that there were people who were quite willing to pay more.

Mr. St. Clair suggested that the charge should cover the cost, as otherwise the Home would simply be a charitable institution.

Lady Bowring said that the Committee had placed Rs. 10 as the minimum, for cases which were taken out of charity, and this money would be paid by the League of Mercy.

Mr. Playfair moved that the minimum fee remain at Rs. 10, but that the Committee should charge extra fee if it would cover each maintenance.

On being seconded by Mr. Newmark, the motion was carried.

Mr. St. Clair stated that the report and minutes had reached the Committee by letter, accompanied by suggestions. These should have been given forward at the general meeting, and he asked if anyone present had any suggestions to bring forward.

No remarks were made. Mrs. Orr presented the accounts for the year, and Mr. Playfair presented the annual report, which was accepted with thanks.

The Chairman announced that Lady Bowring would act as President during the temporary absence of Lady Northey. Mrs. Stevens was willing to act as one of the Vice-Presidents.

Mrs. Orr would act as Hon. Secretary till the return of Mrs. Monkton, and Mrs. Green would act as Hon. Treasurer till the return of Mrs. Franklin.

The Hon. Secretary of the Lady Northey Home until she left the country, when Mrs. Welch would take over. Mrs. Franklin would act as Hon. Treasurer when Mrs. Green is absent.

The duties of visiting the Old and New Generations would be carried on by Messrs. Thom and Pathorpe respectively.

There were six vacancies on the Committee, which numbered 12. The following ladies did not retire this year: Madames Thom, Welch, Kingsnorth, Bois, Howe and Franklin.

On a ballot being taken, the following were elected to the vacancies: Madames Cutbush, Ellis, Miles, Dunsford, Gosling and Brassey-Brown and Mrs. Howes.

Mrs. Davis undertook to be the Matrons representative.

Votes of thanks were extended to the financial advisors to the Committee, Mrs. Hines, for her services, his business as the initial Home; Mrs. Hamilton, the Matron-in-charge; and Messrs. M. Mackintosh and Davis, for their work in connection with the Home.

These rules were carried with acclamation.

The Chairman announced that the financial advisors had stated that it would be impossible to go on with the erection of the new residential building until they had the 50,000 in hand. He hoped that this amount would be forthcoming.

There being no further business, the meeting closed, after the usual votes of thanks to the Chairman and Lady Bowring.

KISUMU

B.E.A. ELECTIONS Arrangements for Postal Ballot Papers PRESCRIBED FORM

A Nyanza settler intimates that the following arrangements have been made for polling day in connection with the Legislative Council election in the Lake area:

Polling stations will be established at Kisumu, Malindi and Lamu.

Those who reside more than 10 miles from a polling station, or anticipate being unable to attend at a polling station owing to ill health, or absence from permanent residence on date of election, should apply at once to the D.C. Kisumu, or any Police or Administrative officer for a form of application for a postal ballot paper.

The form of application for a postal ballot paper, issued under the Voting by Post Rules of August 6 1919 reads as follows:

To the Returning Officer for the Electoral Area.

I hereby declare that I am duly registered under the above Ordinance as a Voter in the

Electoral Area and apply for a Postal Ballot Paper for use at the forthcoming Election of a Member of the Legislative Council on the following grounds:

- (a) I do not reside within the limits of the named Polling station at which I am entitled to vote, or
- (b) I have reason to believe that
- (c) I shall not be within the limits of such Polling station on the Polling day, or
- (d) I shall be prevented by ill health or infirmity from proceeding to the Polling station to vote.

Signature
(Applicants should strike out words not required).
The above form, carefully applied to all electoral areas.
