At this point a telegram was read from His Excellency, in reply to one sent from the President of the Republic. The Excellency would be pleased to know that a commission is appointed to go into the question of the currency. Mr. Anderson, speaking on the resolution, said he had not supposed there was a single currency question who had any feeling against the proposal. He was, however, one of two in Nairobi who held other views. He said he had written to the Governor on this subject. The principal idea was that the Government should take the lead in the matter. COTTON GROWING
Uganda's Prospects for this Season

The British Cotton Growing Association had its two hundred-and-fiftieth meeting of the Council on the 23rd March.

The reports regarding the Uganda cotton crop were very favorable. The purchase of cotton was estimated to be worth about £1,000,000.

A special meeting of the Executive Committee, Imperial Cotton Council, was held on the 27th March.

UGANDA COTTON
 Items of Interest to the Trade
 HARBORS AND B.E.A.
 FROM OUR OWN CORRESPONDENT.
 London, March 10.

Great interest is being aroused in Uganda, not only because of the future of Uganda cotton, but also because of the recent developments in the industry, and considerable attention is being given to the cotton-growing industry by the Government of the British East Africa Association, the result of which is expected to have a considerable effect on the area under cultivation in this connection during the past season is much greater than it has been in any previous year. This latter fact is stated, as estimated at 217,000 acres, as compared with an estimated 118,500 acres in 1910. Thus, the crop increases have been 'quite' considerable. The climatic conditions are stated to have been favorable in certain districts, and the crop is expected to be between 70,000 and 80,000 bales. The weather has been very favorable and the spinners of Lancashire are highly pleased with the quality of the cotton, which is being offered at par. The spinners of Lancashire are highly pleased with the quality of the cotton, which is being offered at par. The spinners of Lancashire are highly pleased with the quality of the cotton, which is being offered at par.

ABOLITION OF THE TAX?
 There are two other matters of interest in the report of the Council's meeting. One concerns the fact that the tax on Uganda cotton should be abolished in view of the low price now ruling for cotton, as at the time the tax was imposed it was understood that the Uganda wool was being abandoned in the event of the price of cotton falling to 1s. per lb. in Liverpool.
 The figure has now been reached and at this moment of writing there does not seem to be any prospect of an immediate recovery.

OCEAN FREIGHTS
 As Wednesday afternoon's session of the Convention of Associations Captain Anderson moved that this Convention should have high shipping freights from this country of production and especially those that charges will be reduced so far as possible. The speaker also stated that the Convention should have high shipping freights from this country of production and especially those that charges will be reduced so far as possible.

INDIENS, COATS AND COTTON
 In the meantime, whilst on the subject of cotton, it is interesting to note that the Standing Committee of the Indian Councils have been invited to report on their third inquiry into the cotton industry with particular reference to the Indian Councils.
