NO. 1026 [MOMBASA] NAIROBI, SATURDAY, OCTOBER 12, 1901

Destined to Revolutionize the Tyre Industry

The new Goodyear cover is heavier, the tread is thicker, the fabric is tougher. There is more material in them.

You are consequently assured of a greater mileage than ever was possible on a tyre before.

More people ride on Goodyear tyres than on any other tyre in the world. This is why the prices of Goodyears can be kept low notwithstanding the greater amount of material used in the new Goodyear construction.

ESSAY COMPETITION FOR KENYA SETTLERS.

FOUR PRIZES TO BE GIVEN. DAIRYING INDUSTRY INCLUDED.

“EAST AFRICAN STANDARD” offers Four Prizes for the best essays not exceeding 5,000 words on any subject of importance to Agriculturalists in this Colony. Prizes will be awarded as follows:—

- 200 CROWN NOTES
- 200 CROWN NOTES
- 200 CROWN NOTES
- 200 CROWN NOTES

In considering the award no preference will be given to any particular aspect and the conditions should not be understood to preclude the possibility of an essay on the elementary side of the general subject being given a higher award than one on the technical or scientific aspect of the question. The competition is primarily intended to obtain information of value on agricultural subjects and awards will not be based on literary style. The essays should be sent clearly marked “Essay” on the envelope, and sent to the “East African Standard” Offices, Sixth Avenue, Nairobi, on or before October 31.

The article should not be signed but a card giving the competitor's name should be enclosed in a separate sealed envelope.

The Director of Agriculture assisted by the Staff of the Department of Agriculture have kindly consented to act as judges. The “East African Standard” will publish the result in its columns and reserve the right to publish any, or any part of, an article sent in. The name of the author will be published unless a request is received to the contrary.

There is no objection to a competitor submitting essays on more than one subject if desired.

Members of the Department of Agriculture are not permitted to compete.

The “East African Standard” hopes that the essays will give results of experience of the Kenya settlers that they will contain problems and hints on local conditions which may be valuable both to the beginner and to the more experienced farmer. If the essays are carried into effect the “East African Standard” believes that such a series of essays, when published, will be of incalculable benefit and enter a signal service on the agricultural development of this Colony.
