LONDON COMMENTS

HEART OF DEMONSTRATION

["E. A. STANDARDE" Special.]
FROM OUR OWN CORRESPONDENT.
London, February 9.
The Times editorial of the 6th paragraph of its "Finance and Commerce" column, referring to the general fall in the price of raw material and the depreciation of the currency system. The paper also speaks of the decision at the Kenya and Nairobi meetings on the currency question.

PUBLIC INVITED TO HELP.

It is to be feared that evidence in your favour will be far in excess of that against it. It is to be feared that the public will be far more sympathetic to the Government's proposals than to those of the "E. A. Standarde" scheme.

SERIOUS ACCIDENT

Car Runs Against Rhinoceros and is Dropped by On-looker. A serious accident occurred on the road to Malindi. A car was running at a high speed when it was struck by a rhinoceros. The car was overturned and the driver was killed.

VICTIMS IN HOSPITAL

A lady motorist was seriously injured when her car was struck by a rhinoceros. She was taken to hospital and is recovering. The driver of the car was also injured and is in hospital.

OFFICIAL CONDITIONS

The Board of Trade returns show that the exports for January were £82,120,000, which is a decrease of £12,000,000 compared with the imports were £117,000,000, which also is one cotton decrease. This caused a delay of about half-an-hour, and when we started again it was getting dark. I wanted, if possible, to go on to the next part of the road that I know will be the best. I did not do so, for when I turned the electric switch on the only result was that I got a severe shock. We afterwards discovered that the switch was broken, and one of the bulbs was loose. Under the circumstances there was nothing to be done but to go back by moonlight.

COINS AND TAXES.

The greatest good for the greatest number is the motto of the City's exchequer in return for the privileges which they enjoy. The bill about the Treaties and national rights is, of course, a good one, and will not hold water for a moment. The plain fact is that if the Government wanted to be so desirous of retaining in the hands of the Non-British element the right of imposing a tax on the sale of motor cars in this Colony, they must meet the Government's proposal in the same manner, or else they must give up the right of imposing a tax on the sale of motor cars in this Colony, and we should then expect to take all our motor cars from some other country. Certainly it is not desirable that the Government should be in a position to impose a tax on the sale of motor cars in this Colony, and we should then expect to take all our motor cars from some other country. FLAX MARKET
Review of Conditions and Prospects

NO PRESENT IMPROVEMENT
Montreal, Wis. F. Malinow & Co., London, in a report dated Jan. 12, 1921.
No improvement can yet be reported as regards price of flax. As a result of the fact that the market is still generally closed, although a slight improvement in demand and prices has been noted, marketing facilities for flax remain in poor condition. At the present time, however, as regards flax to be sown later, or in other words, holders will no longer be able to sell unless at some advance in price, but an opinion is held that the market will not be so active at present as it was at a dropping tendency.

"GLEN GARRY"
It still being "rationed" out to Wine Merchants and the supply available for 1921 is disappointingly small, being only a few hundred cases for the whole Kenya Colony. Small quantities are coming forward gradually and those requiring even a few bottles should hand their requirements to the Civil Service (B.E.A. Co-operative Society) Ltd., Nairobi, who will have a small but steady supply during the coming year.

LUX
FOR washing all those dainty fabrics which delight the eye and give a true atmosphere of cheer to the wardrobe and the home, there is nothing to compare with Lux.
Ladies know and appreciate the power of bearing the delicate garments of their lingerie fresh and charming. And had a great time when cleaning their fresh linens. Every corner of the soft, every fibre of Linen is restored to its former and original condition.

UNITED STATES
Advised from the United States are the news, indeed, the financial position there, and the market for some signs of an improvement. This news of recovery, which will not show their prices considerably. It is probable that in a similar manner, although this process is going on, view of the enormous profits they have already realized, should attract them in at a very low price. This is rather an unjustified factor in the situation.

FLAX FROM RUSSIA.
A certain amount of flax has been coming forward from the Soviet from Harat, standing, with what is 1,000 tons in all; otherwise there is little useful flax in this country, with the exception of 5,000 tons brought in by the sea from the coast outside the flax trade, which however cannot be sold here, but have sent the whole of their stock on to Germany, and at the moment it is reported that there are 7,000 tons here now being shipped to Russia in that country on the understanding that it will be returned to them in the shape of linen.

ADVERTISE AGREEMENTS.
The National Federation, formed at the meeting in Brussels, when minimum prices for flax were fixed, has so far had the least success of all; nobody has abided by the agreement so far.
The other agreement which had previously been arranged among the yarn producers of France and Belgium has also come to its end. French and Belgian producers are insisting that they could no longer agree to hold for the minimum prices agreed on with the result that the English spinners are now free to cut and sell at whatever prices they wish. It is whether this is to help the trade in yarn it is not yet impossible to say.

Taking a long view—small savings or big savings in the Western Continental countries—there is a possibility of some advance in price for flax, although it is not likely to be a big demand over there. For flax, with a higher level of prices for flax, although it is not likely to be a big demand over there. For flax, with a higher level of prices for flax, although it is not likely to be a big demand over there.
