## Overland

### Unlike Any Other Car

The individuality of the  
 new Overland stands out in  
 marked contrast to other  
 cars of its size.

Bonnet and cowl form one  
 sweeping line from the high  
 attractive radiator to the  
 slanting adjustable wind-  
 screen.

And in Overland alone you  
 find the gracefully curved  
 front apron telling you of  
 the wonderful new Triplex  
 Springs beneath which give  
 this light car its supreme  
 riding comfort.

## ORANGE RIVER FALLS

400 ft. Leap Over a Precipice

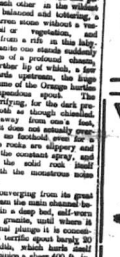

Mr. F. C. Oswald, O.B.E., in writing before the Royal Geographical Society described his visit to the Orange Falls in Orange-Transvaal, which were first discovered by the Orange River. The falls are situated in the Orange River, and are 400 feet high. The water is very hot and is used for medicinal purposes. The falls are situated in the Orange River, and are 400 feet high. The water is very hot and is used for medicinal purposes.

These across this stream an island of sand and silt is reached, right up may be penetrated by foot roads (in the Orange often rise 30 or 40 ft. in many places) and with plenty of big trees, then some more rapid streams, which, however, are easily negotiable over the large granite boulders that encumber them. The stream naturally to the others and to the general course of the river, the tendency, but not to bend round it, as it is very deep below.

# LOWER COSTS OF PRODUCTION

## "Denarius" and the Question of Wages.

### THE VALUE OF SECOND THOUGHTS.

The complete results have been of production throughout the Colony has brought the following letter to the attention of the members of the Association for the purpose of a special session of the Committee on 19th to discuss the proposed amendments to the Constitution of the Native Wage and District Areas Branch Association have been held in meetings with a similar object.

Correspondence is invited to the "Denarius" for Wednesday night. Letters have already been received and published dealing with various aspects of the proposed amendments, native wages and the value of second thoughts.

I am a deeply anxious one to know how far the Government is prepared to go in the matter of second thoughts. It is my hope that the Government will be able to do so in a manner which will be of benefit to the Colony.

The main controversy on the subject of second thoughts is the question of the value of second thoughts. It is my hope that the Government will be able to do so in a manner which will be of benefit to the Colony.

### Unlike Any Other Car

The individuality of the new Overland stands out in marked contrast to other cars of its size.

Bonnet and cowl form one sweeping line from the high attractive radiator to the slanting adjustable wind-screens.

And in Overland alone you find the gracefully curved front apron telling you of the wonderful new Triplex Springs beneath, which give the light car its supreme riding comfort.

## FOREST DESTRUCTION.

To the Editor: "K & Standard"

I am pleased to see that someone has at last brought to public

notice the destruction of the forests

of this country, and I think everyone would

be well to take a hearty interest in the

subject. It is a pity that the "Standard" is not

more interested in the subject. I have

been a keen student of the "Standard" for

some time, and I have seen how they have

been destroying the forest land. All

this land has been used for some time

and that it is up for sale which is

well as seen as possible, the forest

land has been used for some time

and I think the public in general

should be kept up to date.

I think the nature of the subject

is of such importance that it is not

possible to do so. I have seen how

the forest land has been used for

some time, and I think the public

in general should be kept up to date.

CURRENCY AND LABOUR.

THE PROBLEMS THAT BESET THE FARMERS

The crucial way for the Farmer to overcome these problems is to instal up-to-date farm machinery and eliminate heavy labour costs and to increase production so that he can compete with the producers of other countries.

A Fordson costs £3,400 equal to the price of 100 sheep.

A Fordson does the work of 3 teams of Oxen, and does it at least 50% cheaper.

A Fordson needs only one man to drive and plough, 4 teams of Oxen need at least 9 men.

A Fordson will do the work with one plough that 3 teams of Oxen will do with three ploughs at a saving of at least £1,000.

A Fordson is cheaper to run than any other Tractor on the market.

It runs on crush Kerosene—the crudest the better.

A Fordson will, with care, last for years but if it gets "stuck" a trained mechanic will be on your farm as soon as a Ford car can take him there to put your Tractor "on again."

Spare parts are always obtainable.

A Fordson does not require acres of valuable land for grazing. It only occupies 40 square feet of your land.

THE EAST AFRICAN STANDARD

MONDAY, MARCH 20, 1921. The question of the future of Kenya is a matter of great importance to the Colony and, as a result, considerable time is spent in its consideration. The most important aspect of this problem is the question of the future of the European settlers who are now engaged in the development of the country. It is generally agreed that the best way to solve this problem is by the establishment of a central authority which will be responsible for the administration of the territory and for the protection of the interests of the settlers.

INDIAN ARMY. Important Suggestions by Local Committee. The Committee appointed to inquire into the Indian Army in Kenya has submitted its report to the Government. The report contains a number of important suggestions, including the proposal that the Indian Army should be reorganised on a new basis and that the existing units should be disbanded and replaced by new units of a more modern type.

NURSES' INSTITUTE. Proposal to Dissolve Nursing Association. At a public meeting held at the Hotel Cecil on the 16th inst., the proposal to dissolve the Nursing Association was discussed. The meeting was attended by a large number of nurses and other interested persons. It was decided to form a new institution to take the place of the old association.

STANDARD NOTES. Mr R. A. Bartholomew, Editor of the Standard, has been elected to the office of Honorary Secretary of the Kenya Football Association. The Honorary Secretary of the Kenya Football Association has been elected to the office of Honorary Secretary of the Kenya Football Association. The Honorary Secretary of the Kenya Football Association has been elected to the office of Honorary Secretary of the Kenya Football Association.

Position of Commercial Vehicle

ITALY BANS IMPORT TRADE

Under the new scheme of taxation (under Mr. Volpi's Bill) in certain classes of automobiles, but under the new automobile importation, the importation of automobiles is prohibited, the importation of automobiles is prohibited, the importation of automobiles is prohibited...

It is with commercial motor vehicles that the most serious problem is to be met, and it is in these vehicles that the most serious problem is to be met, and it is in these vehicles that the most serious problem is to be met...

It is with commercial motor vehicles that the most serious problem is to be met, and it is in these vehicles that the most serious problem is to be met, and it is in these vehicles that the most serious problem is to be met...

RATES IN ONTARIO

Presumably, if the rates should go only one day in the year you would take the family for a joy ride in the hills and on the coast...

Great Britain is not the only country where the cost of living has been raised. In the States of Virginia, the cost of living has been raised...

The reason for discontinuing the law is not quite plain, but we are sure that the Minister of Transport, with a view to the betterment of the country...

Canada now possesses a motor car which is not only a pleasure but a necessity, and which shows the people a new era of progress...

RAILWAYS AND MOTORS

Railways and motors must work in conjunction where motor supply and demand are widely separated, and it is in these cases that the motor supply and demand are widely separated...

**Triples Springs**  
 are used in the Overland  
 exclusively

They have made real riding  
 comfort possible in a car of light  
 weight.

Furthermore, they cushion the  
 chassis from destructive jolts and  
 strains, minimising petrol and  
 oil consumption as well as up-  
 keep expense.

### Unlike Any Other Car

The individuality of the new Overland stands out in marked contrast to other cars of its size.

Bonnet and cowl form one sweeping line from the high attractive radiator to the slanting adjustable windscreen.

And in Overland alone you find the gracefully curved front apron telling you of the wonderful new Tripler Springs beneath, which give this light car its supreme riding comfort.

**Overland**

**Triplex Springs**  
 are used in the Overland  
*exclusively*

They have made real riding  
 comfort possible in a car of light  
 weight.  
 Furthermore, they cushion the  
 chassis from destructive jolts and  
 strains, minimizing petrol and  
 oil consumption as well as up-  
 keep expense.  
 That is why the Overland has  
 been called:

*A Revolution in Comfort*  
*A Revolution in Economy*

### Unlike Any Other Car

The individuality of the new Overland stands out in marked contrast to other cars of its size.

Radiator and cowp form one sweeping line from the high attractive radiator to the slanting adjustable wind-screen.

And in Overland alone you find the gracefully curved front apron telling you of the wonderful new Triple Spring seat, which gives this light car its supreme riding comfort.

**Overland**

**Triplex Springs**  
 are used in the Overland exclusively

They have made real riding comfort possible in a car of light weight.  
 Furthermore, they cushion the chassis from destructive jolts and strains, minimizing petrol and oil consumption as well as upkeep expense.  
 That is why the Overland has been called:  
 A Revolution in Comfort  
 A Revolution in Economy
