For us to tell the public what a marvellous car the new Overland Model "4" is.

Owners of these cars do this for us. They are without doubt the most cheerful and enthusiastic people in the Kenya Colony at the present moment.

They have found the Model "4" so far superior to any other car they have seen or driven on the roads and tracks of this country that their enthusiasm is boundless.

A MARVEL OF ENGINEERING SKILL. EVERYWHERE you go in this district you see Fords surmounting all sorts of road difficulties in every kind of weather. You see Fords that have stood the strains of daily use year after year and still are going strong as ever.

Some Fords have been on the road so long that little is left of the car but the chassis. But still the wonderful Ford engine is providing more than enough power for day in and day out service.

What a marvel of engineering skill that Ford engine is! It was right in the beginning. The most skilled engineers have not found a way to improve upon it.

Service is as important as your car. We render Ford service. No matter where you go you get the same ready service as we give you here. Ford dealers and service stations are established throughout the country.
