the country, and the efficiency of the railway, have been from Collier. It is the opinion of the Government that every penny possible should be devoted to the improvement of the railway. The Government has allocated for previous work on the railway a sum of £1,000,000. It is expected that the railway will be completed by the end of 1923.

An African Pup.
From Ranches in the East, 1922 the railway comes the most interesting news. It is for Malindi, then for Mombasa, then for Kisumu, then for Nairobi, then for Kampala, then for Addis Ababa, then for Harar, then for Djibouti, then for the Red Sea. It is expected that the railway will be completed by the end of 1923.

The Supreme Court.
The Supreme Court has decided in favour of the railway. It has held that the railway is a public utility and that the Government has the right to nationalize it. This decision is a landmark in the history of the railway.

A Battered Soldier.
The British Government has decided to grant a pension to a soldier who served in the Boer War. The soldier is now 70 years old and is in poor health. The pension is £100 per year.

The Break.
The railway has broken through the island of Malindi and has reached the sea. This is a great achievement and it is expected that the railway will be completed by the end of 1923.
