UGANDA'S PLANS FOR EXHIBITION.

Cases and Native Curios to be Sent.

KAMPALA SHOW PROX TO BE OPENED.

Provisional Plans for the Exhibition.

Uganda's activities in connection with the Empire Exhibition are indicated by the following extracts taken from the minutes of a meeting of the Uganda Exhibition Committee recently.

One of the chief desiderata of the exhibition is that of having an Agricultural Show to be held in Kampala not later than November, 1923 at which the exhibits will be on view. Two cases will be sent.

The Director of Agriculture is of the opinion that it will be well to have many meetings at the exhibition and to include other exhibits in the same.

The Hon. Chief Secretary gave the following information: The total cost has been estimated at 60,000 shillings, and the Government will provide this sum.

The object of the meeting was to discuss the subject: "The Women of Kenya can do to solve the Indian Question"

SPEAKERS WILL BE: Honorable Lord Delamere, Whistley, C.B. C.M.G. D.B.O., two members of the E. A. W. L.

THE OLYMPIC GAMES.

FOUR MEN NAMED ALL OVER ENGLAND.

A Committee Formed.

Open Our Own Compendium.

Judging by what happened at a meeting of sportsmen interested in the Olympic Games recently, there is every reason to anticipate that the very best of sportsmen will be sent for the purpose of assisting the express of the British team to and from Paris during the stay in the French capital.

Another important addition to the committee is the fact that a very important one, is the appointment of a committee on the part of the Government and Foreign Office.

It is also to be noted that the committee is to be formed to assist the express of the British team to and from Paris during the stay in the French capital.

Another important addition to the committee is the fact that a very important one, is the appointment of a committee on the part of the Government and Foreign Office.

THE WAYS OF THE INDIAN

White Man. A STUDY OF LIFE IN INDIA. New Market of Indian Bazaar Here are Opposed.

The following article, the first of a series, is by a well-known writer on the subject who has spent years in India and is a student of the various phases of the life of the Indian people...

In spite of the shouting of the white man, the Indian, whether high or low, is not to be driven out of his country...

It is not that the Indian is a backward race, but that he is a people who have their own ways of life...

It is a very clear thing that the Indian is not a backward race, but that he is a people who have their own ways of life...

The great concentration of the Indian population in the cities is a result of the fact that the Indian is a people who have their own ways of life...

It is a very clear thing that the Indian is not a backward race, but that he is a people who have their own ways of life...

Under Water
Ten Days
 Goodyear Belt absolutely unaffected.

THE Kenia Construction Company applied a 12-inch 6-ply Goodyear belt on a 6-inch centrifugal pump on March 16, 1934. The pump being used on their canal drainage. In July, 1934, the dredge made and was under water for ten days, due to a sudden rise in the river, and it was expected that the Goodyear belt would be unfit for further use.

When the dredge was raised, however, the belt was found to be in good condition and was immediately placed in operation again. This belt neither shrank nor stretched after this dredging, which proves beyond a doubt that Goodyear is not susceptible to either moisture or atmospheric changes.

VETERINARY SERVICE IN RESERVES

DIFFICULTY OVER SUPPLY FOR SERVICE.
Special Committee at Work.
A serious complaint has been received with the establishment of a committee to consider the difficulties of the Veterinary Service in connection with the Government of Kenya has pledged itself, in response to instructions from the Imperial Government, to carry out an improved system of veterinary service in the reserves. The present, however, is not to be improved by the African. At the moment, however, it is not possible to improve the service in the reserves but the Government has been unable to do so. It is hoped that the Government will be able to do so in the future.
