Genuine Ford Parts For Sale Here

WORLD-WIDE service means nothing to the motorist unless that service is convenient to him.

Ford Service is world-wide, but of far greater importance—it is localised. The district where you live and where you drive, has its Ford Dealer or Service Station.

Regardless of where you are or where you will be, you can never be far from the blue and white Ford Service Sign.

Ford Repair Part charges are standardised. Repair Parts cost no more in one place than in another in your district.

Hope—or certainty?

An anchor is the symbol of hope but the name of Brooke Bond means certainty. No longer need you hope for good tea. You can be absolutely certain of getting it, if the words "Brooke Bond" are on the label.

Brooke Bond tea is vacuum-packed That is the secret. Dam and heat and insects cannot spoil the fine quality of the tea in the vacuum tin. You will find it fresh and full of flavour in any weather.

FORGET KENYA. Always after a heavy rain which, however long continued, can spruce the soil with clear wetness and bright sunshine. We forget that the sun, the most mighty destroyer, has the despoiler of wetness and say: "The water in the road. The light on the shamba looks to walk more slowly," "continued by carrying weights lumps of red clay ball on the sides of his boots. The farmer's wife hovers a cub of milk in the gloom of the scraper as the glow requires less frequent removal by a broom, and the grass trees, the most delicate of the vegetation, the rain." Even the fruit trees, the old's cheery warmth after one long spell of Jupiter Pluvius. Farmers no longer address themselves to road repair with some hope of the repairs standing. The erection of the monumental signs for the road crossing in main Arunas which lead to be suspended owing to the flood of water turning the deviation into a swamp, impassable on wheel or animal and will not till the Colony people here. Little by little the really automatic contractors in the working order. In this connection we cannot but think that among one or other who could determine some less expensive block for the general traffic, at least crossings, some system of hoists which could be operated by the boy in charge. The Public Works Department in the provinces will now be able to get to work on ordinary roads, many of which have been closed for some time by the responsibility of the Government. If we work to the least a Kenya scheme, we might expect to see the following: "The farmer." "Cuts may now be put down of bog holes, and reconditioned for use." "Each one." "Punching and breaking of new land will be proceeding rapidly. It is the only thing that is likely to the plough, and the work of stamping old roads of great trees is comparatively slow. We may be assured of progress that has been made as a whole at the Agricultural Census report of 1920 shows that the acreage under plough is steadily increasing year by year, especially in the districts of Nyeri, Kiambu,

SUPREME COURT CASE.

What Exactly is a "Bomb Fide" Mistake? A LONG ARGUMENT.

An interesting point was raised in the Supreme Court yesterday before Mr. Justice Macpherson in the case of Mr. J. A. Watson vs. Town Clerk and Municipal Council of Nairobi. It was raised in connection with the Pickering, in connection with the case in which Mr. J. A. Watson, as Town Clerk, sued Messrs. M. J. Jefferies & Co. for rate due to the Nairobi Municipality.

An application was made by Mr. Watson, asking that the name of the plaintiff be substituted by that of the Nairobi Municipality. He explained that subsequent to the filing of the suit it had been discovered that under Section 6 of the Municipal Corporation Ordinance the Municipality could sue in its own name, without any special leave to do so, in any proceedings.

Mr. Justice Macpherson, after having heard the evidence, said that he was not prepared to grant the application. He said that the Municipal Council had delegated its powers to the Town Clerk, and that the Town Clerk was not a party to the suit. SPECIALTY TIMBERED 5 1/2 IN. STEEL AXES FOR CUTTING HARD WOODS.

The following is an extract of a letter received from a client, the original of which can be inspected in my office—
"With reference to the Axes I have purchased from you I have to say they are the best I have handled and are the only ones that have given up to the work. I have made a habit of getting a few using them and had almost given up the idea of getting any Axes to stand up to the work. I may say that those I still have of the first consignment I bought over a year ago (the balance having been ploughed by the natives, who evidently realized their value) are as good as when I purchased them, though in use daily."

COFFEY BOLING IMPLEMENTS
(as used extensively in Costa Rica.)

The following is an extract of a letter received from a client, the original of which can be inspected in my office—
"I cannot speak too highly of the Costa Rica Bolers. They leave the Pango a long way behind in land digging. The usual task for a KING is 80 holes per day of 12 inches square and 20 inches deep with these bolers. I have also found them very useful in falling trees for cutting away the small roots underneath."

BIRTH. FITZ PHEEN - On 14th June, at Nantuley, Kamukia, the wife of Mr. W. A. FITZ-PHEEN, of a son. THE EAST AFRICAN STANDARD. GONDARAS Times & Uganda Argus MONDAY, JUNE 18, 1920

WORLD UNREST. In last Sunday's issue it was stated that in every column of our front page there was a reference to some in some part of the world. Russia is apparently apologising for its ill treatment of British subjects, but adds that the losses sustained by British subjects are trifling as compared with the terrible losses sustained by millions of Russians owing to the blockade and the intervention of the Entente. Great Britain affects to be satisfied with the Russian reply, and accepts the "normal" withdrawal of one Russian diplomat from persons Graf Kubi and "refers" that if another of the same class remains, it is the Soviet Government will take every step to secure the fulfilment of the letter and spirit of the undertaking "given by its responsible leaders. This, hardly fairly to our mind, any touch of heaty about it. On the contrary, it appears more as if British were making the best of a bad job which does not sit to our comfort. The continued repudiation of past Russian obligations by the present official, by Bristow's declaration that "the question of legal co-operation in the absence of a treaty is entirely dependent on the passing of such articles which remained unfulfilled in Russia." As far as it is able to help, she now aims. Britain has accepted a bad deal, and she is accepted as such. Here Germany from Spain takes France informs us of a renouveau of bitterness between the two

Improve the Appearance of your Tyres—By Using Goodyear Tyre Paint.

Goodyear Tyre Paint gives a beautiful finish and appearance to your spare tyre (Fig. 1); it also protects them from moisture, dust and intense sun-light, thereby taking the place of tyre covers. Goodyear Tyre Paint is very easy to apply and dries quickly (Fig. 2)—a flat can will paint several tyres. It is also of splendid use in making automobile tops waterproof.

INDICATIONS. Indications are first warranted of the Kenya question being referred to determine by the fact that no existing law can be the consequence of a decision either for or against the Indian Chamber to treat the matter in the usual old hand way beloved of lower Calcutta. All our potentiality of it actually. Even the Dominion must define their position more clearly than they did. This position they found their favour. India is a country with British troops at that time it was hard to quit from the text of the Imperial Conference. The Conference of the Imperial Conference of 1912, that each community of the Empire comprises control of the composition of its own population by means of migration from any of the other parts of the British Empire and the existence of disabilities upon British India lawfully denominated in some other part of the Empire. The Conference accordingly is of the opinion that in the interests of the stability of the British Commonwealth, it is desirable that the rights of such Indians to citizenship should be recognized. The representatives of South Africa expressed their inability to accept this resolution in view of the exceptional circumstances of the greater part of the Union, while expressing their appreciation of the acceptance of the resolution on record their profound concern at the position of Indians in South Africa and their hope that Government of India and South Africa, as soon as may be, might reach a more satisfactory position. It is a great deal to be hoped that a great deal depends upon the Indian Chamber. It is lawfully denominated in a country that one practically no ties or connections in any other country. It is as one has seen that the Indian Chamber, the man who far the most important in a country with the least the hard earned earnings, is lawfully denominated in his country. Temporary admission, but that his Indian, as legally understood, is not. We should indicate to a population in Kenya would consist of the best of the other, but a possibility of the Imperial Conference. It is not the claim of the whole Empire as the basis of the whole Empire. A more important point is the basis of a thing. It is the fact that it is impossible for the Indian Chamber to overlook the representatives of South Africa, and the fact that the necessity for a conference. The necessity for a conference has latterly become apparent. As pointed out by the fact that it is of vital importance that the representatives of South Africa and India, in reality
