**OUR PROBLEMS.**  
Problem No. 548 should have an interest for any solver whose age approximates that of the author. It is a problem of the type which is becoming popular in these days, as it is recorded in Apollon's Chess that the author was advised to begin composing it at the age of sixty. He could not, however, find any other problem of this type which was not too difficult for him to solve. He therefore intended to puzzle only the initiates in the art of chess. The problem is a variation of the well-known 'The White Knight on B1' problem, which is a variation of the well-known 'The White Knight on B1' problem. ZEY WINS

Sloppy Track Boys Paypruz.

A SIX LENGTHS VICTORY.

American Hero Holds His Own With Base.

[TANZANIA BERTIN'S ASSESS.] Yesterday's racing, which a week ago was to be held at Papyrus is now over.

The trainer of Zeo didn't think his charge is in splendid fettle.

A skin malady in epidemic form has broken three stable at 101 west Park, Zey is affected and it is more unlikely that he will run to-morrow.

The Jockey Club is withholding the entry of Zey against a guarantee.

Latter— It has been decided that Zey is fit for to-morrow's race.

Before The Race.

New York, Oct. 20.— The track is soft following rainfalls which with the forecast of more rain.

Although none has arrived in America having racing set thought Papyrus had scarcely a chance of winning he will now go to the post as favorite, chiefly because the trainer, Jarvis, has transformed the colt which still had some legs when he was first entered, into a perfect machine.

Has a muddy dirt track will affect Papyrus is a matter of opinion but his legs are good.

These activities at the moment victory points out that he is back in the form of a horse race in America.

An interesting feature of the race is the making of the jockeyship of Donoghue and Stables, both among the premier jockeys in their respective countries.

The Result.

Zey has won.

The race was run in brilliant weather. There were 70,000 spectators.

At the start, Papyrus led by a length but soon to almost stop.

Papyrus drove back by Donoghue and returned steadily throughout the race.

The time was 3 minutes 33 and 2/5.

The betting was 4 to 1 on Zey and even Papyrus.

Track Against Papyrus.

New York, Oct. 19.— It is believed Papyrus' debut was a success.

Donoghue says Papyrus' performance in the game was still as indicated by Mr. Jarvis.

DOWN TO BEDROCK.

GENERAL UNANIMITY.

Views on Royal Military Aid, Air Defences.

[GERMANY'S TROUBLES] London, Oct. 19.— In the opinion of the representatives of the Dominions today's conference brought out of the most important discussions of any Conference.

The conference got down to bedrock in dealing with vital questions which will lend themselves to publication.

Hitler's most ground has been conceded and it is felt that for decisions has not yet been reached.

The outstanding features of the week have been the free interchange of views on royal military and air defences.

Discussions hitherto have shown that the Dominions have found that there is much room for improvement in regard to communications but compared with previous conferees the Dominions representatives are satisfied that much reliable work is in course of completion.

There is not a single question of which general agreement does not exist between the overseas representatives and the Imperial Government.

### EXPERT OPINION.

During the last two years we have been in communication with London milling experts of world-wide repute in order to obtain advice for the improvement of our flour particularly with regard to the latest method of continuous sifting. They have given much advice which we have carefully followed, and our methods have been completely re-constituted.

With regard to the flour we are producing they write—

"IN OUR OPINION THIS BEAUTIFUL FLOUR AND THE BLOOM OR YELLOW CAST ON IT IS TO BE ADMIRER AND NOT CONDEMNED. IT IS THE INHERENT QUALITY OF THE WHEAT AND NOT ANY FAULT OF THE MILLING."

This is the opinion of experts whose business it is to criticize our flour, which they have always done in a most ungracious manner.

### "SPEAKING FILM"

An Interesting Trial in Berlin.

A private demonstration of a new speaking film, which has been invented by three Berlin physicists, is reported in Berlin. Through the invention it is still in the laboratory stage, it opens up a clear field for the production of a successful speaking picture.

In order to secure the synchronization of sound and movement, a new microphone is introduced, by means of which the sound waves are converted into electric waves which, in their turn, produce vibrations of light on the film surface. These are reproduced by photographic means on a special horizontal film by the aid of the same film.

When this film is shown on the cinematograph the reverse of this process takes place, the sound being finally transmitted to the screen by an ordinary motion picture and reproduced through a loud-speaking receiver.

The success which the invention has obtained is largely due to the latest apparatus, a special apparatus was made between the aid of a piece of mechanical music on an expensive gramophone and its transmission through the loud-speaking receiver. The telephone is used to transfer the note, and even all the tones of the stringed instruments which were being played in another part of the building, being reproduced exactly.

The Committee decided to again direct attention of the Superintendent of Police to the actions of the complainant.

Mr. Njira referred to the frequenting of public thoroughfares by goats.

Mr. Channing pointed out that the result of certain steps taken on the road had now been mentioned. There were certain trees growing on the lighted side of the roadway, but these were on the other side of the road. Any member of the public was entitled to amputate a goat straying on a highway—it would suit him (Langford).

### Plague Disappearing

The M. O. H. reported that there had only been one case of plague discovered during the last fortnight. It had occurred in Mombasa and the victim in custody in a covered dale. Five plague-cases had been caught in the last fortnight in Kilimanjaro.

### Barber's Burglar.

ON THE KEELS OF A COAST GARD.

Several burglaries occurred in different parts of Mombasa during the week, but says the Mombasa Times as predicted, unintentionally responsible are in for an anxious time as a result of the fact that a thief arrested in the genus was held by the police on Wednesday—result in the very act.

Most of the articles stolen on Tuesday night, especially the tonorial outfit taken from a local barber's shop, were recovered. It is understood the burglar had indicated the locality of caches where much stolen treasure is hidden.

It is hoped that Capt. Wolsley-Bourne will be successful in capturing the whole gang.

### THE FLYING DUTCHMAN.

An alarming report was spread in town on Wednesday morning to the effect that the "Porte de France," carrying the mail, had been signalled. The strain at the Port was terrific, which was not assembled on the shore to witness the unique spectacle of a mail ship which the ability of undelivered optimism, upon coming into view the expected vessel was found to be the last little "Dutchman" which returned hearts the expected vessel returned, being, however, she whistled by the most day, a notification that the Dutchman, the specific arrival had been advanced by five days, which may be the long it had expressed by a passenger.
