

THE WONDERLAND OF LAKE ALBERT.

With Nature's Brightest Africa.

A HIGH UNTOUCHED ENJOYER.

The following highly interesting article, written by Mr. L. A. Payer, is the author's own contribution to the Wanderer.

Lake Albert has a few hundred miles west of Harar, on the great lake, as one can almost hear the waves of the Indian Ocean beating against the shore.

As one looks upon the lake from the summit of the surrounding hills, the village of Harar is the Congo Delta, which fringes the lake.

It is not so much the water which is the feature of the lake, but the fact that the water is so pure, so clear, so sparkling, so sparkling in its character, so sparkling in its character, so sparkling in its character.

It is not so much the water which is the feature of the lake, but the fact that the water is so pure, so clear, so sparkling, so sparkling in its character, so sparkling in its character, so sparkling in its character.

What do you think of tea?

If you don't think that it is one of the best beverages in the world, either you are an exceptional person or there must be something wrong with the sort you get.

Tea is not so enormously popular without a reason. The consumption of tea doesn't go up and up for nothing.

Perhaps, though the tea you get is not good. In a country like this where a tropical climate spoils tons of this sensitive product every year, that is not at all unlikely.

Get Brooke Bond tea. It comes to you in a vacuum tin. The climate can't get at it, and no air is left in the tin to bring about deterioration.

Believe us—that makes a great deal of difference! Do not confuse the genuine Brooke Bond vacuum tin with ordinary tin. The latter is not in a vacuum tin.

Always fresh because Vacuum packed!

EMPIRE'S WONDER LAKES

Deposits of Pitch, Soda and Sulphur.

NATURE'S BOUNTY

In the thousand and million square miles of territory which comprises the British Empire, says Mr. H. W. Henslow, there are many remarkable phenomena, some of the most interesting being the Pitch Lake of Trinidad in the West Indies. It is a natural reservoir of valuable mineral pitch a hundred acres in extent, from which 200,000 tons of asphalt are exported annually. Although the asphalt appears "soft," one can easily walk about on the lake. Any excavations made during the day are immediately filled up at night by nature, although the general level of the lake is slowly rising. About half-way across the lake, in Trinidad East Africa, is Mopoi Lake, a vast natural deposit of soda. The lake is ten miles long, ten by three miles wide, and seven feet the maximum depth. It has the appearance of an immense polished white slab. Explosives Caused by Sea-Water. Dredges have failed to reveal the cause of the explosions which occur from time to time in the Mopoi Lake. A railway has been built to the lake, and every year is carrying the 100,000 tons of soda rock to the sea. White Island off New Zealand, contains another of these valuable mineral deposits. It is six miles across and about 1,000 feet deep. Its water contains a

to properly by taking every commercial advantage of that very circumstance. With the death of President Harding there appeared to be little hope of a change in policy but now that negotiable credit governs the world, the conditions on the Continent of Europe have indeed decidedly worsen. With the breakdown of peace relations in the Ruhr the genius of the German... we are entitled to conclude from the evidence that we, who are the majority, look to Government to open the air, we would also express the hope that the wise nation, made by the Committee in other directions for the improvement of the present system, will not merely give consideration to that so many reforms as possible may be brought into existence.

The Sugar Market.

INDICATIONS OF FIRMER PRICES

The American market has remained steady (says a prominent sugar reporter) since Cuba has made no reduction and speculations with further buyers yesterday at the latter price. Further business has been trading in full duty sugar and jobbing yesterday at from 15/2, c.i.f. to 15 1/2 c.i.f. New York.

The U.K. market remains steady. British purchases had weak average 17 Java, October shipment at 24 1/2 c.i.f., Peru and October arrival at 25 1/2 c.i.f. Java 90 per cent., whilst for October shipment French Guiana 27 1/2 c.i.f. U.K. was paid. Average 171 Java was now held for 24 1/2 for all October and first half October shipment. The Refiner market is quiet. While Java and sugar now being held for 27 1/2 c.i.f. The nominal quotation of American Canadian Granulated in the U.K. remains 30 1/2 c.i.f.

The Java market remains steady. buyers of C.A. (Ceylon White) at 25 1/2 c.i.f. Java, with others at about 10 more. Total sales of the first of 1922 are figures amounted on the 25th October for 200,000 tons. Today's terminal quotations in America and the U.K. are:-

London. Oct. 26/9 against 26/5 last week. Dec. 24/10 against 24/- last week. March 24/- against 24/- last week. May 24/3 against 24/3 last week.

New York. Dec. 4/84 against 4/80 last week. March 3/56 against 3/50 last week. May 4/04 against 3/95 last week.

The Cuban figures for last week are:- Sucrose, 25,300 tons against 25,600 tons 1922. Export, 67,000 tons against 64,770 tons 1922. Stocks, 241,800 tons against 210,472 tons 1922.

The Federal estimate of the crop in Czechoslovakia gives a surplus of 40,000 tons. An estimate of the U.S. crop from a reliable source points to a production of 705,000 tons. Figures received from the U.S. Commerce Office in San Domingo refer to the production of the 1922-23 season in that island at 184,700 tons.

Duty on Films.

GOVERNMENT ADDRESS TO A REPLY

The following motion regarding a refund of duty collected on cinematograph films was passed unanimously in the Legislative Council yesterday:

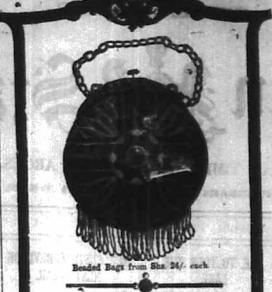

"That His Council hereby approve of the refund of duty on films for bioscopes or cinematographs in excess of 1s. per 500 linear feet which may have been paid on or after September 27, 1922, that is, in the date of the passing of the Customs Tariff Ordinance, 1922."

The Treasurer explained that the duty had been reduced from 1s. per 100 linear feet to 1s. per 500 linear feet in the date of the introduction of Government to make the reduction at the date of the amended Customs Ordinance in September, 1922. The amount involved was approximately Shs. 400.

MY BOY.

With dimpled legs and a skin like wax With lips like cupid—eyes sky blue...

His hair that outstripped periwinkles My baby I watched him grow perfect fast...

And then his first big step in life School with his lessons and his Shapley's brain like sculptors' knife...

My clever boy Soon came the day when fall of pride like...

When was alarm rung far and near I watched his eyes grow restless...

And then at last there came the worst His dirty call—'he asked to go...

These came the days when khaki glad And those before me, bold and true...

The time of parting came at last Oh God I forgive my mad regrets The minutes sped by as if too fast...

And then at night on bedded knees With tear dimmed eyes I prayed for him...

And now I sit alone and cry And see in my mind eye a grave Oh God why did you let him die...

And ever night in troubled sleep I live my life with him once more And o'er the border gain a peep...

Obligations of Honor.

"We have," said Lord Edmund, "passed the era of mere pious resolutions as to such Confessions. For better for the Imperial Government to refuse to accept these conditions than, having accepted them, to neglect to act upon these conditions to do so. An obligation of honor should rest upon the Government of the Empire, who, in accepting such an Imperial duty, should give no less than a full and complete answer to the countries, even in face of possible economic difficulties, which are the result of such a course."

If the Labour Party come into power, they would have the same task as what we propose to do, in the development of these Crown Colonies.

The Secretary of State, however, is not going to be content with the progress of these enterprises in opening up these countries, but we are going to have a Committee to see how far we can bring in private enterprise as well.
