Lend Me Your Ears and Will Make Them Hear.

The writer of this advertisement was one time deaf and so one who is likely to be of use to you.

Labour Combination.

There are many rumours going around the country about a Labour combination to be worked in favour of certain interests to the detriment of the smaller and the weaker.

Grand Hotel, NAIROBI.

Under entirely new management. Proprietor—E. NYE-CHART, Late Manager, Nairobi Club.

To this we could see no objection other than that such a concern would prove and has proved in other countries—detrimental to the general interests of the small employer, but later we were assured in good authority that this would be remedied.

The next movement on the part of the promoters of this labour recording company was to meet at the office of the Registrar of Companies to discuss the terms of the proposed company.

We surmise the change in programme is due to one or another of the interest parties having changed their minds.

This Journal is independent in the way it covers the news and in the way it is owned solely by its subscribers.
