TOWN ENGINEER'S PLANS FOR COMMERCIAL AREA.

TO GO ON EARLY.

The Municipal Engineer submitted his plan for the sanitation of the commercial area of Nairobi to the Council yesterday afternoon. The plan is a comprehensive one, and will be carried out in stages. It includes the construction of a sewerage system, the installation of water supply, and the improvement of the drainage system. The work is expected to be completed by the end of the year.

Future Relief.

It has only been possible to adapt the motorless sewerage disposal system by assuming that a relief sewer will be constructed along the river front. This will allow the sewage to be discharged into the river. The Government has agreed to provide the necessary funds for this project.

Lane Between Dueser Street and Eighth Avenue.

The sewer proposed is a pipe sewer connecting with a proposed length sewer in Government Road. It is a considerable advantage that any sewerage should be disposed of in a safe manner. The work is being carried out as a matter of urgency.

New Fishing.

It is necessary that the proposed sewer should be properly maintained. This will ensure that the sewerage system is always in good working order. The Council has decided to allocate funds for this purpose.

STORAGE MASS MEETING IN LONDON.

THOUSANDS OF BURNER ASSEMBLED. The Storage Mass Meeting held in London last night at the Albert Hall was a most successful one. It was attended by thousands of people who were interested in the proposed storage scheme.

The meeting was organized by the Storage Committee, and was held in the presence of the Mayor of London. The speakers at the meeting stressed the importance of the storage scheme for the city.

The meeting was a success, and it is hoped that it will lead to the implementation of the storage scheme. The Storage Committee will continue to work for the benefit of the city.

Ulcerated Leg

Long-Dwelling Case cured by First Dressing. Mr. W. J. O'Connell, of the Dublin Dispensary, writes to inform us that he has cured a long-dwelling case of ulcerated leg by the use of his first dressing.

The patient had been suffering from the ulcer for many years, and had tried many different treatments without success. However, after using the first dressing, the ulcer healed completely.

The Dublin Dispensary is a well-known institution, and its products are highly regarded. The first dressing is a valuable addition to any medical cabinet.

For more information, please contact the Dublin Dispensary. They will be glad to provide you with details of their products and services.

NATIVE PROBLEMS IN KENYA.

RUROVIAN COLONIZATION. Mr. C. W. Haskley Speaks to the African Society.

(From our own Correspondent.) London, February 22. Speaking the afternoon before the members of the African Society at a gathering presided over by Earl Buxton, O.M.C.I., Mr. C. W. Haskley, O.M.C.I., (late former Commissioner in Kenya Colony), discussed the "Native Problems in Eastern Africa" and asked the people of England to realize the magnitude of the task and the responsibility it involved to watch over the welfare of these native peoples in Kenya, Uganda, Tanganyika, Southern Rhodesia, and elsewhere. He ventured to say that the future of Africa, and therefore, perhaps, the future of the Empire, depended upon attention being paid to dealing with the native problems which already existed and which would, as time went on, become more numerous and more difficult.

It was preferable that guidance on this subject should come from the public, such as Buxton, rather than from the officials, and that the public opinion should be expressed by a committee of laymen, chosen by a number of people familiar to the general view of the subject.

Mr. Haskley, after reviewing the subject in great detail, said that the African Society was still of the "old school" for those any danger was in the direction of "white" and "black" to be removed. He would, therefore, venture to suggest that the question of the native people in Eastern Africa should be considered in the light of the law. He would, therefore, venture to suggest that the question of the native people in Eastern Africa should be considered in the light of the law.

There was a general idea that the people reproduction of the black race was such that nothing could stop the increase over time. It was assumed that the population would be over 200,000,000 in 1950. It was of opinion that the past few years had demonstrated the rapidity with which the population of Kenya had increased. There was a general idea that the people reproduction of the black race was such that nothing could stop the increase over time.

The abandonment of the native cause depended upon the success of the white race. It was of opinion that the past few years had demonstrated the rapidity with which the population of Kenya had increased.

Expert Tyre Repairing

We have pleasure in announcing the opening of our new Vulcanizing Dept.

TYRE EXPERT IN CHARGE

REPAIR WORK UNDERTAKEN

We have secured from America an Expert Repair Man to operate our plant. This expert comes direct from one of the largest tyre repair firms in America, and has had many years of experience in the building and repairing of tyres.

We are in a position to undertake the repair of all kinds of rubber goods. In the case of severe cuts or bursts in tyres the damaged section can be built up and repaired so that it will be the strongest portion of the tyre.

Our large plant, complete with all machinery and special tools, is the most modern tyre repairing equipment made. All repairs will be carried out by special Goodyear methods which are the best repair methods known.

All repaired tyres will be cured by the "on-air" process. Air bags are inserted in the section of the tyre within the hot mould and inflated to 70 lbs. This is the same process that is employed in the manufacture of modern high grade tyres.

Motorists of this country will now be saved thousands of pounds each year by having their tyres properly repaired. Thousands of miles of service can be added to tyres which were formally discarded because of improper repair facilities.

If, in our estimation, the condition of the article would not justify the cost of the repair, we will advise the customer accordingly before undertaking the work. Only by giving our customers a straightforward square deal in this connection can we hope to make this branch of our business a success.

You deserve every mile that is in your tyres. We are going to make sure that you get it.

Why is the demand for UPLANDS PORK SAUSAGES

Increasing so fast, especially in Nairobi?

BECAUSE (1) The only meat used in its manufacture is the finest quality of Upland Pork.

(2) The recipe is a combination one—the oldest recipe known.

(3) The name UPLANDS is a guarantee of purity.

Obtainable from Mr. B. D. DUNN and Messrs. Macdonald, Sims, Mackenzie, The Nairobi Traders, Nairobi, Messrs. Brewster and Clarke, Mombasa, etc., etc.

Two Red Arabians in training and showing.

SMOOTH-COATED COLLIER.

(By Messrs. CARRERS, CHAIR, OREG.)

I suppose it is rather too soon to start new dogs from many kennels...

It was only last week that I attended the first show of the year...

I had only one dog in my kennel who had brought out a big prize...

It was a dog of the name of "Gladys" who had brought out a big prize...

BRITISH ATHLETICS. BRITISH HARRIERS STILL IN THE LEAD. The Southern Counties' Honor.

Anticipation was realized last Saturday in the two most important events of the week...

The long jumper, and the crossing of the channel, was followed by indifferent feeding, and they were by no means "fit for the fray"...

At the same time it must be mentioned that the French club only won a pleasure to see, as by another French club, and they were in the International race will be difficult to...

Southern Counties. In the Southern Counties Championships, which was run over in the main course at Epsom...

It was represented by so strong a team that they won a quarter of a mile in 1:22.75, which was a new record for the course...

The Highgate Harriers, who were billed to race in the 1:22.75, were held to a record of 1:22.75, which was a new record for the course...

There were, however, a club which was held to a record of 1:22.75, which was a new record for the course...

"Thank God for tea!" What would the world be without tea? I am glad I was born before tea was invented. Sidney Cox.

Tea has been a necessity of life for more than two centuries, but it is less than two years since the Brooke Bond vacuum tin made it possible to be sure of getting good tea in India.

To-day, Brooke Bond tea is known throughout the East. It is a choice blend of fine Indian teas, and it always reaches you in perfect condition.

Ask for Brooke Bond Tea in the vacuum-packed tin. It costs no more than ordinary tea. See Label on the Best Quality. The latter does not look himself for the opening conference, and was somewhat surprised to find that the Cambridge University man...

On the Road to Kenya's Northern Frontier. THE BEAUTY AND CHARM OF THE NYERI AREA. Following the Work of the Pioneer.

[By W. S. HAZARD.]

The prospect of a long journey through a country which has never before been visited by a caravan has been a great trial to the mind of the author of this article. It is a country which has never before been visited by a caravan has been a great trial to the mind of the author of this article.

Life itself has become almost a torment to the author of this article. It is a country which has never before been visited by a caravan has been a great trial to the mind of the author of this article.

The beauty of the Nyeri area is a country which has never before been visited by a caravan has been a great trial to the mind of the author of this article.

Striking Testimony.

JUSTIFIABLE enthusiasm for a superb machine prompted Captain E. D. C. Herein, a well-known pilot of one of the best Continental air expresses, to write expressing his appreciation of the faultless service rendered by his B.S.A. 'Light Six' Swift Motor.

Cap. Herein is a bicyclist of considerable experience, having owned practically every well-known make of High-powered machines since he became interested in the sport in 1904. After 4,000 miles absolutely trouble-free runmings, opinion is considered and emphatic: "If I wish to deliver that my B.S.A. is the finest solo machine I have ever ridden."
